POSTMASTER GENERAL MANION SPOKE ON MONDAY IN NORTHUMBERLAN COUNTY

Appeals for Clean Government—R. B. Hanson of Fredericton and C. E. Fish of Newcastle, Con- servative Candidates, Among the Speakers— Constitutional Question Mentioned.

Chatham, Aug. 9.—Hon. Dr. Manion, postmaster general in the Melghen government before a large gathering here tonight declared that the real issue before the people of Canada was clean government. He said if the party under the leadership of Mackenzie King was voted into power, it meant a government of crookedness and debauchery. On the other hand the Conservative party under Arthur Meighen offered a government in the best interests of the people. There were three main questions to be decided by the electors, he said, the mismanagement of the customs department, stable government and a safe and sane tariff.

Hon. Dr. Manion spoke at Newcastle following his address here. In a short introductory speech he declared that Canada's greatest need was responsible government. Other speakers here included R. B. Hanson, ex-M. P. for York-Sunbury and C. E. Fish, ex M. P., Conservative candidate in Northumberland.

At Newcastle D. S. Creaghan was chairman. The big Opera House was packed and the speakers were well received.

Chatham Meeting.

The first speaker here was Mr. Hanson. He was followed by the honorable postmaster general and then Mr. Fish gave a short address. R. T. D. Aitken also spoke briefly.

In opening his address, Hon. Dr. Manion declared that the coming election was a most important one. The people of Canada were called upon to decide whether they wished a government by crookedness or by a safe and sane policy in their own interests. The customs investigation had proved that during the past few years commercial smuggling had been carried on. It was the worst scandal in the history of Canada, he declared.

Says King Knew.

The speaker declared that over a year and a half before the hearing commenced it was within the knowledge of ex-Premier King that smuggling was ruining the business of the country. The treasury of Canada was losing at least \$30,000,000 annually. He cited cases from the customs report showing the gross abuse of power by the King government.

Constitutional Question.

Referring to the constitutional question, he declared that it was not at all in issue but it had been ruined by Mr. King in an effort to bamboozle the people of Canada.

In speaking of King's promise to reform the senate the speaker said that an example of his reform was the appointment to that body of Hon. Jacques Bureau, a discredited ex-minister of customs.

Hon. Dr. Manion said tariff tinkering was the ruin of the country it had caused an exodus from Canada of about 100,000 young men and women.

Maritime Rights.

In speaking of the question of Maritime Rights he declared that in parliament the Conservative members from the provinces by the sea had fought for their rights but the Liberal members had done nothing but defend the government.

C. E. Fish, Ex-M. P.

Mr. Fish devoted himself chiefly to a discussion of the measures brought up during the last session of parliament. He dealt chiefly with the Hudson Bay Railway, rural credits and old age pensions bills. These he declared had been introduced to please the progressives and they were not in the best interests of the country. He said that the country must return to the two party system if prosperity would return. King's bartering with the Progressives was bad for other sections of the dominion. Meighen's policy was one calculated to benefit the Dominion as a whole.

R. B. Hanson, K. C.

R. B. Hanson, K. C., also spoke along the same lines. In speaking of the customs report he said that if the people of the country voted King into power, they were offering a premium on maladministration. He dealt at length upon Hon. Mr. Robb's budget. The ex-Minister of Finance had said it as a poor man's budget but Mr. Hanson took the opposite view. In the removal of the excise tax from high priced cars he said the rich man was benefitted. Every tax removed except the war tax on letters was a tax that had been put on by the Liberal government.

The late government had returned to penny postage, he said. This meant a loss of \$500,000 to the department. Now, he declared, the people living in the country districts could not get free rural deliveries. He said he did not know how this loss in revenue was to be made up.

Mr. Hanson closed with an appeal to the electors to elect Fish to support Meighen in the government that would surely be returned to power on September 14.

EXCAVATION AT GRAND FALLS WAS STARTED

Grand Falls, Aug. 9.—Excavation for the coffer dam which will be placed above the main dam to be constructed across the Saint John River above the crest of the Falls in connection with the development of Grand Falls, has been started by the Dominion Construction Company, who have been awarded the main contract for the development project.

This work commenced during the week-end, marks the start of actual development work. Harry F. MacLean, the general manager, and Andrew Wheaton, of Moncton, a director, are here taking charge of Dominion Construction Company's operation. They have upwards of 70 men at work so far and have also started grading work at the power house site. Other crews of men are engaged in erecting camp building in which the workmen will be housed during the period of construction.

TRIPLETS BORN AFTER ELEVEN CHILDREN DIED

(Special to the Daily Mail by British United Press)

Florence, August 10.—Teresa Tierbilli, who had given birth to eleven children all of whom died, has announced the arrival of triplets.

All three of the children are sons and they are in perfect health.

EQUALIZING OF ASSESSMENT IN THE WEST

(Continued From Page Eight.)
portion of the cost to the consumer.

The Other Provinces.

Saskatchewan impressed itself upon Dr. Kierstead as the greatest agricultural province of Canada, surpassing even Ontario in that regard. Alberta was more diversified with farming, ranching and mining. British Columbia impressed him through forest and mineral wealth her agriculture being secondary. Vancouver through her geographical position seemed destined to become one of the great cities of the Pacific Coast. Prince Rupert on the other hand although intended to be a terminus of the Grand Trunk Pacific Railway seemed destined never to reach what had been expected.

Distinguished Gatherings.

While away Dr. Kierstead attended many distinguished gatherings. At Vancouver the anniversary of Confederation was observed at a dinner at which the chief speaker was Sir J. A. M. Aikens, Lieut. Governor of Manitoba. At Winnipeg Dr. Kierstead was guest of honor at a banquet given by alumni of the University of New Brunswick. Dr. Frank Allen, Professor of Physics at the University of Manitoba, was chairman. He attended U. N. B. when Chancellor Jones and Dr. Kierstead were undergraduates. He also saw Arthur L. Dysart and G. A. Harrison Dystart, U. N. B. alumni.

Mrs. Kierstead joined Dr. Kierstead at Winnipeg and there they were the guests of Arthur E. Floyd a graduate of U. N. B. At Toronto they were guests of Horace H. VanWart and his bride at the City Club of which Capt. VanWart is secretary. Mrs. VanWart is contributor to the press of Toronto. Dr. Kierstead also visited Rockford, Ill., where is located a church of which he was once pastor. Calgary he visited during Stampede Week a round-up of Canadian Clubs taking place there that week.

Hailstones Like Golf Balls.

As an instance of the spirit of "Boom the West" which is observable all over that country Dr. Kierstead quotes the attitude of Winnipeg and other Manitoba people toward a tremendous hail-storm which swept across the Province while he was there. Gardens were obliterated and grain fields destroyed by the hail. Dr. Kierstead himself was in a house which had its windows smashed by hailstones the size of golf-balls. When asked how the country endured such visitations of Nature the people at once assured him that the like never had occurred before in their memory and was a most unusual occurrence.

VACCINATION NOTICE

The Medical School Inspector will be at the Devon School on August 12th at 2 p. m. and at Marysville at 3.30 p. m., same day, for the purpose of vaccinating any children who present themselves.

LEADERS HOLD THEIR POSITIONS IN BIG LEAGUES

New York, Aug. 9.—The Pirates increased their National League leadership over the St. Louis Cardinals by defeating Brooklyn, 9 to 3, at Ebbetts Field today. Five errors on the part of the Robins aided the Pittsburgh cause. The winners gathered in ten hits and knocked Petty out of the box into the bargain. Kremer allowed the opposition nine hits, but the lead given him was never endangered.

The Cardinals lost to the Braves at Boston today 5 to 0.

It was the Braves' third straight shut-out victory.

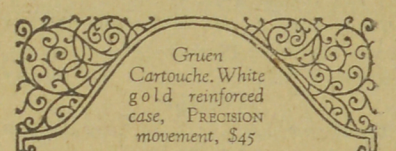

American League.

The Yankees retained the margin at the top of the American League today by defeating Ty Cobb's Tigers at Detroit, 9 to 8. A terrific 4-run rally by the Cobblers in the ninth fell short by one run of tying the count. Detroit used up four twirlers while the Yanks used three. Jones worked for the Huggins for eight and two thirds innings, was relieved by Braxton who was yanked after pitching to only one batter, and relieved by Shawkey, who retired the side. Features of the game were home runs by Ruth and Lazzeri. It was the Babe's 36th circuit blow.

"The doctor said I should take whiskey and quinine."

"Well?"

"I don't know where to get the quinine."

The meaning of Gruen Precision

The name Gruen on a watch is in itself a promise of timekeeping satisfaction. But when the Precision mark is added, you have the assurance that the watch is the finest production of the Gruen Guild—marked Precision to denote highest quality, greatest accuracy and finest finish.

Pay a little more and get the best. Gruen watches available in Precision grades for ladies at \$45—for men at \$60.
