CONCERNING MANIAS.

It is a great mistake of course, to think a thing is understood because the name it goes by is understood. There are all sorts of manias, and mania in the popular understanding of the word means crazy. Some one once wrote that genius is a form of insanity, and some one else spoke of the ideal of a sound mind in a sound body. But really sanity is an indefinable as insanity, and the only basis for saying that genius is insanity is in the fact that no one has ever been able to say exactly what genius is.

Dr. Frederick Gray is well and widely known as the inventor of a "death ray." He claims that he can project a ray with such violence that it will stop a trolley car a block away, and this by means of a little machine that can be carried about in the hand. The doctor is also a well-known neurologist. But now he is in the Jersey City Hospital for observation to test his sanity.

A great deal is heard about religious mania. An Indiana woman, described as deeply religious, drew herself into the door of a blazing hot furnace in her cellar the other day, and the neighbors are reported as saying that she was seized with a religious mania.

But, of course, manias arise from one or more of multitude of causes. Women go crazy over their housework. Both men and women become insane in love, in trouble, in every kind of emergency and under all kinds of mental strain. On the other hand, a vast amount of sound mentality is developed in precisely the same situations in which these pitiful abnormalities are found. It is only by a very loose and inaccurate diagnosis that any mania is charged to any particular interest, occupation, dedication or what not.

The train service on the Gibson branch of the C. P. R., is not quite as efficient as the people of this city would like to see it. The service is now tri-weekly, which means that a person can go to Woodstock and return the same day out passengers coming to Fredericton must remain over the following day or return by some other road. During the summer and autumn months when almost every farmer is using an auto both the C. P. R. and C. N. R. run daily trains from between Fredericton and Woodstock but in winter when people are forced to travel by rail, they are given only a tri-weekly service.

The provincial Minister of Agriculture's slogan, "more and better live stock," is one which should appeal to the farmers and stock raisers of the province. The establishment of a packing plant in Moncton and another at St. John, is bound to give a great stimulus to stock raising in the Maritime provinces. Already, we are informed, the Swift concern at Moncton has paid over a quarter of a million dollars to the farmers for live stock. And what is more the company is supplying its maritime customers with the product of the Moncton plant, instead of bringing down Ontario hogs.

Hon. Mr. Motherwell was somewhat astray when in the course of a speech in Parliament a few days ago he attributed to the late Sir Richard Cartwright, the oft quoted utterance "that a Tory out of office is like a she bear robbed of her cubs." It was not Sir Richard but the late Joseph Rymal a Liberal Ontario member who made use of the above quoted expression and it made him famous. The actual phrase which he used ran something like this: "There never was a she bear robbed of her cubs one half as ferocious as a Tory deprived of office."

Columbia grade school teacher who has daily taught children to cross cautiously at crossings was herself struck by a car and seriously injured. Fate's irony, which sometimes awards disaster to the careful and lets the careless go scot free.

The proceedings of the Farmers' and Dairymen's Convention yesterday afternoon were conducted entirely in the French language. Mr. J. A. Doucet, M. L. A. of Gloucester was the presiding officer. The English speaking delegation spent the afternoon at the Experimental Station.

Prof. E. Fullerton Cook says a box of candy "assembles the riches of the tropics, the sweets of a forest, the delights of the South Seas and the fruit of a hidden orchard." Get your sweety to play that on the piano.

London lawyer commits suicide after psychoanalysis test and friend says laying bare his subconscious self produced an inferiority complex. In other words, a poor nut got one crack too many.

Prof. Albert E. Wiggam says we must protect ourselves or our children will be more stupid than we are. Good heavens! Can such things be?

The last six-master on the Atlantic Coast has been destroyed by fire at Portland, Me. One by one we break the links with the past.

Even in these days of prohibition wine glasses seem to have lost none of their old time popularity as wedding gifts.

A swell wedding during the dull period of the year is undoubtedly quite a stimulant to business.

Well, the world has spent a good many dollars to see the Twentieth Century spend its first quarter.

PERSONAL MENTION

Mrs. James M. Scott who has been in New York, undergoing treatment for an affection of the eye returned home yesterday. Her friends will be glad to learn that her condition is much improved.

Mr. A. J. Andre Doucet, M. L. A. for Gloucester is here attending the Farmers' and Dairymen's Convention. Miss Jennie Mitchell, daughter of Ald. Mitchell, who has been in New York undergoing treatment for eye trouble, returned home yesterday.

They Do Not Mind the Weather  
The chorus girls with the Pretty Nifty Revue at the Capitol do not mind the brand of winter weather which has been furnished lately as it is easily noticeable that they "roll their own". The girls are on the streets with rolled hose and bare knees in spite of snow and ice.

HOT FOOT BATH TAKES OFF CORNS

The sting comes right out, all the pain goes away, the corn lifts out by the roots. This is the actual result that comes from using Putnam's Corn Extractor. There is a hot foot bath treatment described in each package. You won't be disappointed. Putnam's is a sure thing for removing corns, callouses, foot lumps, etc. Accept no substitute. 25c at all dealers.

ALBERTA MADE BIG PROFITS

Edmonton, Jan. 20—Net profits of \$1,517,185 were made by the Alberta Government on its operations under the liquor act, in 1925, according to a statement issued by Premier Brownlee yesterday.

The full amount realized through the business of the liquor control board \$1,666,970, covering the full calendar year.

Eggs Plentiful.

Fresh eggs are far more plentiful than usual at this time of year and there has been quite a sag in the price during the past week. A better grade of poultry and exceptionally mild weather conditions are responsible for the large increase in production. It is said that similar conditions prevail all over Canada and the United States. It is reported that 6000 cases of eggs were received in the Montreal market during the first week in January as compared with 1000 during the corresponding week last year.

Death at Ripples.

Dorothy I. Sparks aged fifteen years, daughter of the late Albert T. Sparks, died Wednesday morning at her home in Ripples. She had been ill for several months. Surviving are the mother, three brothers Garfield, Alexander and Raymond and two sisters Mrs. H. H. Smith and Mrs. Fred Tibbits. The funeral took place today at Ripples.

Purchased Timber Berth.

W. K. Swim of Doaktown was the purchaser of two and half square miles of Crown Land in Hazelton Settlement at the regular timber sale at the Crown Land Office this morning. The price was \$20.25 per mile. There was some competition.

H. M. White of Montreal is in the city today.
