

LATE R. T. LINCOLN SAW THREE PRESIDENTS ASSASSINATED

Manchester, Vt., July 26—Robert T. Lincoln, son of Abraham Lincoln, was found dead in bed at his summer home here today. R. Lincoln, who had served as Secretary of War, Minister to Great Britain, and for years as President of the Pullman Company, of late had been in feeble health. He would have been 83 years old on Aug. 1.

With the death of Robert Todd Lincoln, the last of the Emancipator's descendants to bear the family name passes from the scene. He was the eldest of the martyred President's five children, and he outlived the others by many years. His only son, John, died many years ago while attending school in France, and his daughter is married.

Distinguished Career.

Robert Todd Lincoln will be remembered as an able lawyer, successful Cabinet official and dignified diplomat. He was born on Aug. 1, 1843, in Springfield, Ill. He received his education at the University of Illinois, Phillips Academy, Exeter, N. H., and Harvard University, from which he graduated in 1864. He served on Gen-

eral Grant's staff in the Virginia campaign, and was at Appomattox when General Lee surrendered, later hurrying to Washington, where he was the first to give his father definite news of the victory.

Following the assassination of his father, Robert undertook to manage the affairs of the family. He entered a leading law firm in Chicago and remained there until in 1881 President Garfield called him to Washington to be Secretary of War. He served in that position for four years and then returned to his profession. In 1889 he was appointed United States Minister to Great Britain by President Harrison, returning to Chicago in 1893. For many years he acted as special counsel for the Pullman Company, and upon the death of George M. Pullman, founder, Mr. Lincoln was chosen President. In 1906 he retired from that position to become Chairman of the Board.

Robert Todd Lincoln had the unique experience of having seen three Presidents assassinated. He saw his father receive the fatal shot in Ford's Theatre; when he was serving under Pre-

CALVE TO SELL CHATEAU HOME

Paris, July 28—Emma Calve is advertising her castle home for sale. The advertisements describe it as the historic castle of Cabrières, in the Cévennes mountains, 2000 feet above the sea level, with garage, grounds, garden, vineyard and a farm of 300 acres. The price is 2,000,000 francs or something like \$60,000 at the recent exchange. The chateau is about eight miles from the town of Millau and 16 hours by train from Paris.

Some people get more pleasure from saving money for a vacation than they get out of the vacation itself.

President Garfield he was with his chief at the Washington railway station when the latter fell wounded from a pistol shot; in 1901 he attended the public reception for President McKinley at Buffalo, when he arrived just in time to see the President shot.

In recent years Mr. Lincoln lived during the summer at Manchester, Vt., where he died yesterday, and in the winter months at Washington. His wife was Mary Harlan, daughter of ex-Senator James Harlan of Iowa.

CARLETON COUNTY SPORTSMEN COMPLAIN OF POACHING ON SOUTHWEST MIRAMICHI RIVER

(Woodstock Press.)

At a largely attended and enthusiastic meeting held in the Community Hall at Juniper, N. B., Thursday evening last, it was decided to form a branch at Juniper of the N. B. Fish and Game Protective Association, and the following officers were elected:

President—Murdock McKenzie. Vice-President—Sprague Flemming. Secretary-Treasurer—James Kelly. Dr. L. DeC. McIntosh, President, P. S. Marsten, Secretary-Treasurer, and Dr. G. F. Clarke, Asa O. Thornton and R. L. Daniel, of the Carleton Branch of the Association, were present and the meeting was opened under the auspices of that branch. After the minutes of last meeting of the Carleton Branch had been read and approved, and correspondence read and discussed, Dr. McIntosh outlined briefly the aims and purposes of the Association and the results so far attained. The Association was particularly anxious to protect our trout and salmon streams from illegal fishing. The using of salmon nets with a mesh under five inches, netting out of season, the catching and marketing of thousands of small grilse under the legal weight of 3 pounds—these were the things the Association hoped to eliminate. And it was only through the active co-operation of all fair-minded sportsmen that anything worth while could be accomplished. The Association was also active in securing the establishment of government fish hatcheries, and in recommending the appointment of non-resident wardens, men who would be trusted to carry out their duties without fear or favor.

Poachers Busy. "Murt" McKenzie, the genial and popular guide, told the gathering that very few salmon were now caught at or near the Fork, although a fair number of grilse were being taken. The reason was that poachers on the lower Miramichi were netting grilse and salmon wholesale and selling them by the truckload. If this could be stopped he was of the opinion that the upper waters of the Miramichi would be in the same class as a salmon stream as the famous Restigouche. The Miramichi was really the only stream left in the

province with free fishing on it.

Dr. Clark—Many small farmers on the lower Miramichi make their living in summer from illegal salmon netting. They warn each other of the approach of a warden by blowing dinner horns.

Mr. McKenzie—Yes, and if they forget to blow the horn the fish warden blows it for them himself.

Dr. McIntosh—It is only by co-operation that we can do anything. We started very modestly but now have over 2000 members, and the number is constantly increasing. We are entirely non-political. We are out simply to protect our fish and game.

Dr. Grant, on being called upon said he did not wish to take up too much time as the work of organization had yet to be taken up. We have, he said, a wonderful river, potentially the equal of any salmon river in the world. Juniper sportsmen now had the opportunity of co-operating to see the river's possibilities realized. It meant not only better sport, but dollars and cents to everyone in that section. The doctor then moved that the meeting adjourn and re-open for the purpose of organizing a branch of the Association.

Mr. McKenzie was appointed chairman and the motion to form a branch to be called "Juniper Branch" having been passed, the election of officers was carried out.

The new branch is off to a flying start with a membership of 42, and many more have signified their intention of joining.

Probably no branch has as great a proportion of members who are thoroughly acquainted with every phase of outdoor life, on lake and stream and in the hunting camp, as the new Juniper branch. With such men back of the Association good results are bound to make themselves apparent at an early date.

After the meeting the members of the newly formed branch entertained the visitors to a spread which, for its excellence, will not soon be forgotten. On behalf of the Carleton branch members who were present we take this occasion to express their appreciation for the hospitality so generously extended.

BOOTLEGGER IS ARRESTED ON CHARGE OF MANSLAUGHTER

Toronto, July 28—Source of the wood alcohol which brought death to sixteen persons in Ontario will be uncovered, Provincial Police officers predicted last night.

Bert D'Angelo, the Hamilton Italian who is in custody at Milton on a charge of manslaughter in connection with the death of two of the victims furnished the clue which, it is expected, will take Provincial Police officers to the place of supply. Coupled with the report that the police are aware of definite information that the source of the wood alcohol is known came a statement that an arrest of importance is imminent.

Inspector Stringer of the Criminal Investigation Department, Provincial Police, spent yesterday morning, in company with Chief of Police David Kerr of Oakville, in an interview with the prisoner D'Angelo. Considerable police activity followed the interview.

Developments Expected. There was a discovery of cans of wood alcohol at the home of one of the victims, which were seized and held for analysis. From Oakville Inspector Stringer at noon left for a point in Western Ontario where important developments are expected to take place.

The death toll is now sixteen in Ontario. William Johnston, St. Catharines Street, Hamilton, John D. Wallace, Nelson Street, Brantford, and a Hamilton carpenter named Robert Little, who died at Bridgeburg, were yesterday's victims. In addition to these, eighteen men and women are dead in Buffalo and Lockport, N. Y., where, the police believe, there is an actual connection between the deaths there and those in Ontario. Buffalo police have already taken vigorous action.

There was a series of conferences yesterday at the Parliament Buildings, presided over by Acting Attorney-General Price, and attended by General Williams, Commissioner of the Ontario Police; James Hales, K. C., Chairman of the License Board, and Deputy Commissioner of Police Alfred Cuddy.

Inquiry May Be Held. Following the conferences, General Williams and Mr. Hales left to investigate the situation at Oakville, Hamilton and Allanburg. The Ontario Gov-

ernment desires from these officials a special report which may result in the holding of a Provincial inquiry into bootlegging activities and particularly the sale of wood alcohol. General Williams and Mr. Hales spent considerable time in Hamilton yesterday afternoon.

Two autopsies were performed in Toronto yesterday. The post-mortems were on the bodies of Mrs. Olive Guertin and William Maybee. Dr. M. M. Crawford, Acting Chief Coroner, gave instructions to Dr. I. H. Erb to make thorough examination, including microscopic inspection of tissues which are effected in cases of wood alcohol poisoning. Dr. Erb will take several days to complete his report.

The Acting Attorney-General desires the fullest information respecting the deaths of the fifteen persons, and if autopsies at Toronto, Oakville, Hamilton and Allanburg disclose wood alcohol poisoning it is believed that there will be but one inquest, and this at Oakville, which was opened on Saturday and adjourned until Thursday night.

Removes Warts

"ENGLISHWOMAN" writes to the Montreal Star:

"I read a letter in your paper asking for a remedy for warts, and as I found one that took an ugly one off the side of my forehead I will give it to you. I had a bottle of Minard's Liniment in the house that I use for rheumatism, and casually reading directions I saw it was a good thing for corns and warts, so being so simple I tried it. Just dab it on with the cork two or three times a day letting it dry on. Well it all went away in about two weeks, dried up and came off by degrees."

"Another also appeared on my cheek not so large, but I applied the same remedy and could pick it off like the other."

MINARD'S
"KING OF PAIN"
LINIMENT
YARMOUTH, N.S.

Train de luxe of the Canadian National Railways, the Continental Limited leaves Montreal daily at 10.15 p.m. for Winnipeg, Edmonton, Jasper and Vancouver. This famous train follows the scenic route across Canada, crosses the Rockies in view of the mightiest peaks, at the easiest gradient and lowest altitude of all transcontinental trains. Equipped with Radio and every other modern invention that tends for greater travelling safety and comfort—it is the Luxury Train to the Coast.

BLUNDERS

WHY IS THIS WRONG?

Thousands of letters are delayed in delivery from two to ten hours in big cities because business men do not place their return street address on letterheads and envelopes. Even though a company may be an important one, all postal employees do not have its address committed to memory. Consequently its mail will surely be delayed if persons who must reply to its letters are given no street address.

"41⁹⁸ as Advertised"

HOW do you spell 'financially?' asked a college student of his roommate.

"F-i-n-a-n-c-i-a-l-l-y," said the roommate, spelling out the word slowly. As an afterthought, he added: "And 'embarrassed' has two r's and two s's."

How often have you said to a salesman, "That's more than I care to pay"? If you had known the price in advance you would have been spared this little embarrassment. That's one of the great services rendered by newspaper advertising.

By reading the newspaper advertisements before going to the stores, you know what you will have to pay for an article. You need not reveal your financial status to a salesman. You perhaps do not like to ask the price of goods anyhow. If the merchant has told you the price in his newspaper advertisement, you do not have to ask.

Any way you figure it out, IT PAYS YOU TO READ THE NEWSPAPER ADVERTISEMENTS. REGULARLY! The one advertisement you skip may contain just the news you would have welcomed. READ ALL THE NEWSPAPER ADVERTISEMENTS. KEEP INFORMED.

The intelligent way to shop is to read the newspaper advertisements and then go to the stores that offer the best values. Make notes beforehand of the articles that interest you. That's the way to get the most for your money. That's the way to save time.
