LOSS IN THE BAHAMA ISLANDS FROM HURRICANE WAS SERIOUS; NO LOSS OF LIFE AT PENSACOLA

Miami, Sept. 21—Reports reaching here today indicated that the Island of Bimini, 135 miles from Nassau, in the Bahamas, was devastated by the tropical hurricane of last week which ravished the east coast of Florida. Nassau was not hard hit but felt the effects of the hurricane, the report said.

The reports that Bimini had suffered severely were confirmed by crew members of tugboats which arrived here today from the vicinity. They did not attempt to land or check for dead or injured.

Efforts have been made repeatedly to gain information by radio as to the effect of the storm in the Bahamas. Nassau was heard but not clearly. It was learned then, however, that only property damage had resulted there from the wind and waves.

Damage on Gulf Coast.

New Orleans, Sept. 21—Some loss of life and property and crop damage estimated into the millions resulted along the Gulf Coast from the tropical hurricane which veered north westward from Southern Florida and careened across the western tip of that state and lower Alabama before spending its full force late tonight in southern Mississippi.

Pensacola, which was cut off from communication with the outside world for more than 24 hours after the hurricane, blowing 100 miles an hour, had struck it, did not suffer any loss of life, but there was heavy property damage, according to brief direct communications established late today.

Mobile People Escape.

A telephone line was repaired to Mobile and over this a report was sent out telling of the escape of the residents of the city. Previous reports from railroad circles had said that there had been some loss of life in Pensacola and that railroad tracks had been washed out for some distance north of the city. The message described the destruction of the railroad's depot and other property north of the city and estimated that it would be days before trains could get through.

The coastguard cutter Tallapoosa, which rode out the blow in Pensacola harbor, reported to the naval station by radio that many vessels in the harbor were damaged but no details were given.

Railroad men who get through a brief message describing the destruction of the railroad's depot and other property in the town say that the railroad tracks were washed for some distance from Pensacola and it was estimated that it would be two days before trains could get into the town.

Air Station Damaged.

Washington, Sept. 21—Severe damage to the naval air station at Pensacola during the tropical hurricane was reported to the Navy Department tonight in a message filed there by radio at 9.36 and relayed here from the radio station at Algiers, near New Orleans.

No Life Loss Reported.

New Orleans, Sept. 21—No loss of life from the tropical hurricane which

swept Pensacola yesterday had been reported to the Pensacola naval radio station late today, according to a message received at the Algiers naval station here tonight.

Property Loss Heavy.

Birmingham, Ala., Sept. 21—Fragmentary reports received here over a shaky railroad wire on the Louisville & Nashville Railroad into Pensacola late today indicated that there had been some loss of life in that city as a result of the tropical storm, that numbers had been injured and that property loss was very heavy.

Death Toll up to 400.

Miami, Sept. 21—At least 400 dead; 150 or more missing; 5,000 injured and 50,000 homeless—this was the known sum tonight of human life and suffering in cities and towns along Florida's south-eastern coast in the tropical hurricane.

At Miami the death total increased as Biscayne Bay gave up more of its dead. Authorities said the list probably would reach 250, although it was around 200 tonight. Hospitals and Red Cross stations here treated more than 3,000 injured during the day, many of them only slightly hurt.

At Hollywood the list of known dead was 32 with possibly eight other bodies to be brought in and with 70 persons listed as missing.

BAITING HOCKEY PLAYERS WITH THE BIG RING MATCH

Port Arthur, Sept. 21—Clarke Whyte, clever right wing player of the Fort William hockey team, left yesterday for New York and will be a guest of the Rangers Hockey Club at the Dempsey-Tunney fight next Thursday. Alex. Gray, forward, and Lorne Chabot, goal-tender of the Port Arthur Allen Cup team, also hold invitations to attend the Philadelphia fisticuffs with all expenses paid both ways but have declined to involve themselves in such a manner with the New York management, having previously turned down offers to sign for the coming season with the new professional team being organized by Colonel Hammond and Conny Smythe. It is not altogether certain that Whyte will not be back, but even if he does not come, Fort William will not be so badly off for they have as candidates for the position. Jimmy Ward, of Kenora, one of the finest young players every seen in this district, a lad who seems very likely to fulfil Kenora's hope of contributing to the hockey world another player of the character that made their town famous two decades ago, the late Tom Phillips. In addition to Ward, Ingram, brilliant forward of the former Regina team, junior champions, is also available.

Mr Bruce Burpee of Saint John, district passenger agent of the C. N. R. is here attending the exhibition.

SPECIAL ATTRACTION
AT GAIETY THEATRE

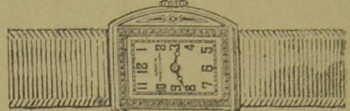

"Old Loves and New" is the photo play at the Gaiety for Wednesday and Thursday starring Lewis Stone. Barbara Bedford is the little Irish girl who marries the weak-charactered brute in order to provide for her brother, crippled in the war. As usual, she gives a thoughtful, precise performance, pleasing to those who appreciate correct workmanship. Mr. Stone is his usual self; perhaps if we may say it, even more so. Walter Pidgeon fits well into the character of the weak villain, but Katherine MacDonald seems out of place in the role of a worldly vamp.

WOMAN SWAM AROUND ISLAND OF MANHATTAN

New York, Sept. 20—Miss Lottie Schoemmel, New York City's only woman life guard, yesterday swam the 40 miles around Manhattan Island in the unofficial time of 14 hours and 21 minutes. This time betters the record held by Mrs. Amelia Gade Corson, successful swimmer of the English channel, by 36 minutes.

Miss Schoemmel entered the water at 8.45 in the morning at Spuyten Duvel on the Hudson, swimming down the Hudson. According to an unofficial observer she completed the swim at 11.06 last night.

Gruen Cartouche, White gold reinforced case, Precision movement, \$45

The meaning of Gruen Precision

The name 'Gruen' on a watch is in itself a promise of timekeeping satisfaction. But when the Precision mark is added, you have the assurance that the watch is the finest production of the Gruen Guild—marked Precision to denote highest quality, greatest accuracy and finest finish.

Pay a little more and get the best! Gruen watches available in Precision grades for ladies at \$45—for men at \$60.
