N. Y. CENTRAL IS TRYING OUT RADIO

May be an Important Factor in Train Operation.

TESTS BEING CONDUCTED

Two Way Conversation Carried on by Railroad Men.

(Special to the Daily Mail by British United Press)

New York, June 17—Radio telephony may become an important factor in freight train operation if tests now being conducted by the New York Central Railroad prove successful.

In one test five hours continuous and satisfactory two way radio telephone conversation was carried on between railroad men stationed in the engine and others in the caboose at the rear of an eleven car freight train. The test was made in an effort to determine the value of the radio should the train break in two.

The tests were conducted on the western division of the railroad between Elkhart and Pinola, Indiana.

DIVISION OVER PEACE RIVER ELECTION CASE

Ottawa, June 17—The House of Commons tonight defeated a motion of Rt. Hon. Arthur Meighen, Conservative leader, that the Peace River election petition be received by a majority of eight votes.

It was after midnight when the House divided on Hon. Mr. Meighen's motion as follows: Against, 103; for, 95.

Three Progressives voted with the Conservatives in support of the motion. They were: Messrs. Fancher (Last Mountain, Sask.); Lucas (Camrose, Alta.); Boutillier (Vegreville, Alta.). Government members, Independents, Labor and Progressives apart from the three indicated, voted against the motion.

Result of Election.

Some weeks ago a petition in the name of James H. Collins was presented to the house. In the general elections, Mr. Collins was Conservative candidate in Peace River, D. M. Kennedy (Progressive) being declared elected by 17 majority. Subsequent proceedings before the Alberta courts revealed irregularities in the election. Conservatives pressed that, in view of these revelations, Mr. Kennedy should be declared ineligible to sit in the house and that he should be replaced by Mr. Collins.

In the petition described today, Mr. Collins asks that authorization be given to the electoral officer to secure return of the candidate who obtained the largest number of votes when the petition was referred to the examiner of petitions, he held that it should not be received. Today, Rt. Hon. Arthur Meighen moved that the petition be received despite the ruling of the examiner. Almost immediately after Mr. Meighen rose with his motion, Premier King took the ground that it was not in order. Speaker Lemieux ruled that it was for the house to judge whether the petition be received or not.

Meighen's Stand.

Mr. Meighen declared it was mockery for the house to tell Collins to go to the courts.

"The fact is," said Mr. Meighen, "that by the votes legally cast Mr. Kennedy was not elected."

WILL NOT LISTEN TO THE VIEWS OF EXTREMISTS

Orillia, Ont., June 15—Announcement that the Ontario government would go to the polls in about 12 months on "any policy which might be deemed the best for the people," and that there would be "no listening to extremist views" in the handling of the temperance question, was made by Premier G. Howard Ferguson, in his address to a monster Conservative picnic here today.

He declared his administration would persist in its efforts to bring Alberta and Maritime coal to this province. In this connection, Premier Ferguson expressed the opinion that there was no reason why the Dominion should import 15,000,000 tons of coal annually, when there are such rich fuel resources in this country. The matter was now before a Dominion and provincial commission and he hoped that some decision would soon be reached whereby it would be practicable to bring the Canadian coal to the Ontario householder.

After he had looped the loop and performed other stunts the airman's motor went dead. Hemmed in on all sides by mountains he could see no landing field, other than that afforded by the middle of the oval in which thousands of fans were standing. The aviator, Harry Yost, came down slowly. When within thirty feet of the ground he banked suddenly, burying the nose of the plane, and thus avoiding crashing into the crowds in the field.

N. B. WILL GET SUM OF \$119,000 IN NEW TAXES

St. John, June 17—Tentative agreement by the Canadian National Railways to pay \$250,000 annually in taxes to the Maritime Provinces has been reached with the respective governments of the provinces. Premier John B. M. Baxter said here today. Nova Scotia's share, as announced by Premier Rhodes, will be \$41,000, while Prince Edward Island's portion will be \$40,000 per annum. New Brunswick's allotment, Premier Baxter said, would be \$119,000 a year.

Premier Baxter added that such an agreement hinged on an understanding with the British Columbia government that there would not be any increase in taxes of the Canadian National in that province. "I feel morally certain," the Premier declared today, "that such an agreement as outlined will be definitely reached."

Efforts in this direction at the conference of premiers in Ottawa last week were successful and the additional revenue for the provincial treasury will be of material assistance. Successive governments in the Maritimes have for years endeavored to have the Canadian National pay taxes in the provinces but without avail until now.
