"No, sir. The piano will always be in demand as a house furnishing if not as a musical instrument. It is a symbol of prosperity."

Twenty-One Years Of Leadership

VERY quality that is built into any product is measured finally by the degree of its acceptance by the public. Only the best can hope to win and hold the public approval, for approval has ever been based on confidence and confidence must be earned.

Public confidence has made the Ford the world's most popular car. It has pioneered motor transportation in every quarter of the globe and because of fundamental soundness has maintained an established leadership.

Today it is accepted throughout the world as the standard by which all transportation units are judged and its performance under ordinary and extraordinary conditions has made its dependability a matter of tradition.

WHEAT SAMPLE BROUGHT HOME THE BERRIES

(Special to the Daily Mail)

Montreal, Que., March 15—Wheat as a colonizing agent has just made its value known to Canada. Recently small souvenir bags of wheat were distributed by the Department of Colonization, Agriculture and Natural Resources many of the sacks finding their way across the water. In this connection Captain L. B. Boyd, Superintendent of the Land and Colonization Department at St. Paul, Minn., writing to Dan M. Johnson, western manager of these activities at Winnipeg, states, "I had a very amusing experience a few days ago. One of our agents in North Dakota returned one of the bags partly filled with \$160 in ten dollar gold pieces. In his letter he stated 'I am returning your bag filled not with wheat but with gold United States gold, which please apply as cash payment on two quarter sections of land. The bags are very useful'." During the autumn an important group of land agents from points in the western states were shown large areas of agricultural lands along the Canadian National lines. At that time considerable purchase were made and it is evident that the movement in that direction is continuing.
