QUEEN MARY
APPROVES OF
MODERN GIRLSays They are Well Be-
haved and Very
Pretty.HAS WATCHED
THEM CLOSELYHer Views in Sharp Con-
trast With Press
Reports.(Special cable to The Daily Mail by the
British United Press.)

London, June 23—Queen Mary, most conservative of Queens and mothers, has witnessed the procession of debutantes at two Royal Courts has observed young women at recent sporting events and has ended by putting the stamp of Royal approval on the modern girl of 1926.

"They are well behaved, very pretty and they are learning to walk as gracefully as girls did in my day," she is said to have confided to her entourage in surprised tones, after the Royal Courts had been held.

The Queen's surprise seemed due to newspaper and magazine reports which she had read and which attacked the shingled, cigarette smoking, sometime mannish girl of today.

MAY PROBE
ACTIVITIES
OF THE K. K. K.

Toronto, June 22—Hon. W. F. Nickle, Attorney-General of Ontario intimated today that if the facts warranted it, his department might conduct an investigation into the enigmatical activities of the Ku Klux Klan in this province.

This decision follows the arrest of William Skelly here yesterday in connection with the explosion in St. Mary's Roman Catholic church, Barrie, Ont., on June 10 and the alleged statement of Skelly that he had been hired by the Klan to do the act.

Imperial officials of the Klan whose offices are situated in Toronto are said to be in conference this afternoon, the situation being under discussion.

Two additional arrests were made here today in connection with the dynamite explosion in St. Mary's Roman Catholic church here on June 10. The names of the two men arrested are being withheld by the police for the moment but both are said to be prominent in Barrie.

ITALY'S ENTRY
TO OIL FIELD
IN RUMANIA

Bucharest, Rumania, June 23—Significance is attached in some quarters to a report from Rome that Michael Manolescu representing the Rumanian Government has succeeded in securing a loan of 200,000,000 lire, negotiated through the Italian General Petroleum agent under which it is believed Italy will realize her desire to secure a foothold in Rumania's oil field.

It is pointed out in these quarters that if it is definitely decided to grant Italy oil concessions in Rumania this will practically mean that Premier Averescu's government is preparing to discard Premier Bratiano's famous mining law, enacted in 1924 which prohibited further entry of foreign capital into Rumanian oil fields, except under Rumanian control.

BUSINESS IN
LUMBER IS A
LITTLE EASIERThe American Dealers
are Proceeding with
Caution.WANT GOOD
CROPS ASSUREDThe Demand May be
Very Brisk Before
Autumn.

Boston, June 23—Business in lumber during the week ended June 5 eased off somewhat under holiday influences, but according to reports reaching the American Lumbermen there has since been a steady gain in activity. An increasing proportion of the business is coming from country points. City building continues to be handicapped by labor disputes and poor weather, but it is believed that the situation will be much improved in the course of the next few weeks.

While small town and country yards are ordering lumber in greater volume they are proceeding cautiously until crops are assured, and Federal Reserve Bank reports indicate that their lumber stocks are at least 5 per cent. below last year's. The present condition of farm crops contains a promise that toward fall these yards will be buying lumber much more actively.

For Southern pine the North and East are being heard from more frequently. Prices remain low and unsatisfactory and business is not yet of sufficient volume to bring them to a remunerative basis.

Though sales of West Coast mills during the first twenty-two weeks of this year amounted to 146,000,000 feet more, and production to only 80,000,000 feet more, than in the corresponding period of 1925, fir prices have remained too low. Many mills are curtailing production even before the annual shutdown for overhauling that is made July 4, and there is probability that their action may add 50 cents or \$1 to prices. Both the Atlantic coast and California markets seem well supplied for present needs, but the Middle West has large purchases to make.

Southern hardwood production has been sharply curtailed, while demand is making steady if slow gains in volume. Quotations remain low, but show more firmness. Sales of Northern hardwood mills have recently been at a high level and prices are steady.

FOR LADY M.P.

London, June 23—A smoking room all to herself is to be assigned to Miss Susan Lawrence, one of the four women members of Parliament. Lady Astor and the three other women Members do not smoke but the Laborite member for East Ham enjoys a cigarette.

Miss Lawrence was a member of the House in 1923 and 1924 and was re-elected in East Ham last April.

The Beilhartz brothers hastened to a camp to get a rifle while Grexton headed out into the lake to occupy the attention of the beast till they returned. Becoming enraged the animal attacked the boat but Grexton beat it off with one of the heavy oars. During the fight the others returned with a rifle and killed the animal which was nearly seven feet long.
