## MARTIAL LAW IN SHANGHAI

### DIFFICULT TO ENFORCE CURFEW LAW

The Chicago Police Unable to Tell Old From Young.

### NO MARKS OF DISTINCTION

All Have Bobbed Hair, Rolled Stockings, Short Skirts.

(Special to the Daily Mail by the British United Press)

Chicago, Ill., Sept. 2.—Bobbed hair rolled stockings and short skirts are interfering with the police department's attempt to enforce the 10 p. m. curfew for girls under sixteen years of age here. After two nights of work among late promenaders the police reported to their chief that they could not tell the young ones from the old ones because they all dressed alike.

### PAID TRIBUTE TO MEMORY OF LATE MR. BOIVIN

Granby, Que., Sept. 1.—In the County of Shefford Premier Meighen today paid tribute to the memory of Hon. G. H. Boivin, former Minister of Customs in the King Government, who represented Shefford in Parliament.

"I remember Granby," he said, "not only as the birthplace of my wife, but also as the home of one who for many years I counted as my friend, though a political opponent."

"I bear to him," added Mr. Meighen "a tribute of respect and fond memory."

"The Conservative Party," Mr. Meighen declared, "has its face against war just as solidly as has the Liberal Party, and the best way is to preserve our position with the British Empire."

"And the party I lead will direct its every effort in its conduct of affairs within the Empire, that this Dominion of Canada may move along the ways of peace and know the ways of war no more."

### EX-PREMIER CAMPAIGNING IN P. E. ISLAND

Charlottetown, Sept. 1.—"These gentlemen have got hold of the treasury and are looting it day after day," Mr. Mackenzie King told his audiences on Prince Edward Is. today referring to the present government's securing of money by Governor-General's warrant.

"I feel pretty sure that Prince Edward Island is going to send up four instead of two members of Parliament this year," said Mr. King. Mr. King has now visited all the provinces of the Dominion in the tour which has lasted more than five weeks and involved nearly 10,000 miles of traveling.

### Great Rush to Boston.

The trains to Boston for some days past have been filled. Application for sleeping-car berths must be made several days in advance to be filled. A party of anglers at Queen today returning from Charles Cremin's territory in the north of the Province found it impossible to get sleeping-car accommodation for tonight. A rush of people back to the United States after vacation is assigned as the cause of the overcrowding.

### BETTER DEMAND FOR LUMBER IN THE U. S. MARKET

The Orders are Now Far Ahead of Production.

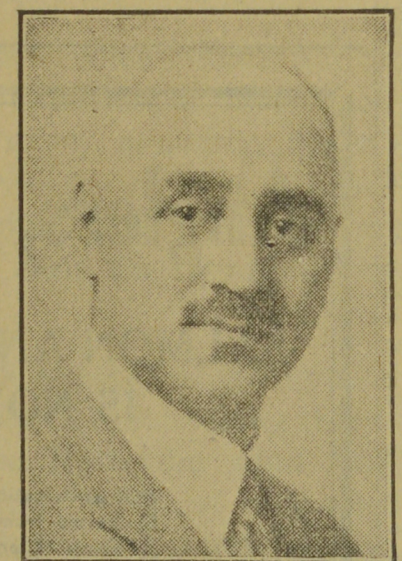

### PROSPECTS ARE BRIGHTER

Prices are Now Beginning to Show More Strength.

New York, Sept. 2.—Orders booked by the principal softwood mills of the country during the year to date have exceeded their production by about a quarter of a billion feet, and orders exceeded the shipments by 27,000,000 feet. These mills therefore have small stocks and good order files, where there are excellent prospects for expansion in sale to the farm trade, especially during fall, says the American Lumberman.

Retail yards and other buyers are only beginning to make provision for their requirements, though August volume is turning out heavier than it was expected to be. Southern pine continues to move very largely to the Southwest and South and there is a fine volume of orders from the oil fields. Pine boards and dimension have been strengthening and the producers believe that higher prices will be secured during fall. Recently bookings have exceeded mill output.

West Coast fir orders have fallen below output, largely because of the uncertainty regarding vessel rates in the intercoastal trade. Large production of automobiles and stimulation of furniture trade through August sales are causing active demand for gum, oak and birch from both industries. Both Northern and Southern oak flooring have been moving well to the building trades, which are also taking increasing quantities of millwork. Mill stock conditions are favorable and prices show more strength.

A. T. WELDON General Traffic Manager, Canadian National Railways, with jurisdiction in respect to Freight and Passenger Traffic. With this appointment Mr. Weldon will transfer his headquarters from Moncton to Montreal.

### SPAIN MAY DROP OUT OF LEAGUE OF NATIONS; COUNCIL MET TODAY

Application of Spain for a Permanent Seat on the Council May Hasten Withdrawal From the League—Will Await Formal Confirmation of Act of Council.

(Special to the Daily Mail by the British United Press)

GENEVA, Sept. 2.—When the League Council met today with foreign minister Benes of Czecho-Slovakia presiding the conspicuous absence of the Spanish delegate increased apprehension that yesterday's rejection of the Spanish claim for a permanent seat on the Council would hasten Spain's withdrawal from the League.

It was understood that Spain would soon advise the Secretariat of its intention of disinterested itself from the Council's activity. Informed observers believe that Madrid will await both the council's and the assembly's formal confirmation of refusal to give Spain a permanent seat before actual withdrawal.

It is believed that Quinoes De Leon, Spanish delegate, who for years had reserved a suite at a Geneva hotel in advance of the League gathering, has omitted, for the first time, to make such reservations.

### League Council Meeting

Geneva, Sept. 2.—Spain and Brazil were not represented when the League of Nations council assembled here at 11 a. m. today.

### PUPPY LOVE IS CHEAPER

Berlin, Sept. 2.—Recognizing with some limitations that modern mother love is often showered upon puppies instead of babies, the Board of Aldermen has reduced by 75 per cent the tax on those dogs "which in the hearts of their keepers supplant the affection that under normal circumstances would be lavished on human beings."

Pups owned by spinsters or by childless couples over 50 years old are to be taxed \$4 a year. Other less useful hounds, are to be assessed \$15. But, the new ordinance says, one dog is enough for petting purposes. For a second pet the owner must pay \$30 a year, for a third \$45 and each additional \$60.

### SPURS BRITISH TO PUSH USE OF THE TELEPHONE

London, Sept. 1.—Recent figures showing that the United States has 14 telephones for every 100 persons, while Great Britain has only three may have had something to do with the activity which the postmaster-general's office is now displaying by way of advertising the National Telephone Service, which that office controls.

Steps are being taken to educate children in the use of the telephone, it is announced, one form of instruction being the installation in commercial schools of telephone outfits with automatic dials for practical demonstration in the use of the instruments.
