BEAUTIFUL FURNISHED HOMES

When people think of furnishing a home, or only furnishing a few rooms, or getting some extra nice big pieces, they naturally think in terms of a lot of money—they think too much of the total cost. There is no reason in the world why they should. With the kind of credit we bring you, the splendid management and service that is offered you here, you don't have to think of the total cost, but you can think in terms of only a few dollars.

We are certain to satisfy you with a large and well assorted stock to choose from. THIS STORE IS NOTED FOR ITS LOW PRICES.

NEW BRUNSWICK PUBLIC WORKS ARE PUT THROUGH PARLIAMENT; ESCUMINAC VOTE IS \$50,000

Ottawa, June 17—A vote of \$279,150 for New Brunswick public works was considered by the House of Commons in committee of supply when estimates of the Department of Public Works came up this afternoon.

This sum includes an item of \$50,000 for harbor improvements at Escuminac.

R. B. Hanson (Conservative, York-Sunbury), criticised this proposed expenditure. He doubted whether the works at Escuminac harbor would be a success because of the ice conditions. He asked the Minister to consider the matter from a business, rather than a political point of view. This was the vote that had elected a Liberal in the constituency of Northumberland some years ago. Now the election was over, the matter could be regarded from a business point of view.

Approved By Engineers.

Hon. J. H. King Minister of Public Works, replied that these harbor improvements had been under consideration for many years. The Board of Engineers of the Public Works Department had approved the construction. The Minister pointed out that works on the lower St. Lawrence were subject to as severe

ice conditions as those in Escuminac harbor.

R. W. Grimmer (Charlottetown) and J. G. Robichaud (Gloucester) urged upon Minister additional works for the protection of the fishermen in their districts and Charles Fish, while favorable to the breakwater projected at Escuminac, doubted if it would be adequate to the needs of the harbor unless of much greater extent than the government proposed. The vote carried.

A vote of \$225,000 for Saint John harbor on capital expenditure account may not go through the House until next Monday.

C. N. R. Vote.

Ottawa, June 17—The House of Commons committee on the National rails today recommended the adoption of the estimate of \$31,000,000 for the railway.

It was explained by R. A. C. Henry, director of the bureau of economics for the company that this was the total vote asked for from parliament. About \$14,000,000 of this is for betterments to the system chargeable to capital expenditures and the remainder is made up of interest, retirements of loans, etc.

S., June 17—The following officers were elected at the concluding session here today to the annual convention of the Fire Chiefs' Association of the Maritime Provinces: President, George Ryder, St. Stephen, N. B.; first vice-president, A. Clark, Halifax, second vice-president, Walter Gow, Bridgewater, N. S., and third vice-president, J. L. MacIntosh, Milltown, N. B.

The Chinese are making ice cream of rice, or, obviously, rice cream.

MAJOR GENERAL P. E. THACKER IS HERE TODAY

(Continued from page eight)

Remembered by Many.

Many of the older residents of Fredericton remember General Thacker as a young officer here but of course recall him as Captain Thacker, adjutant of the local depot. Since soldiering on this station General Thacker has had a distinguished military career. He saw extensive service in the Great War and rose eventually to the rank of major general.

A number of Fredericton men serving in France served at times in the same sections as General Thacker.

CONSCRIPTION PROBLEM WAS CONSIDERED

Geneva, June 18—The problem of conscription and the possibility of France and other nations with big armies contributing to the cause of disarmament by restricting conscription loomed up as a big factor at the disarmament meeting today. France, which submitted a memorandum to the conference of experts, insisted that the question involved is essentially political, and therefore must be handled by the full Commission or an eventual conference, but did not declare herself opposed to its consideration. Interest has been created by the fact that France, at least, deems the limitation of trained reserves as a theoretical possibility.

Made Slight Error.

The story is told of a resident of Keswick who the other day made a slight error in the handling of his new car. The car was of a make to which he was not accustomed. He had run it into his barn all right. A neighbor came along and he offered to demonstrate the car. Unfortunately he made a slight mistake and the car instead of backing out went ahead and through the end of the barn. A little child who was in the car with him escaped injury. The car did not.

SPECIAL ATTRACTION
AT GAIETY THEATRE

"That's My Baby" is the photo play at the Gaiety for Friday and Saturday featuring Douglas McLean. Douglas MacLean and his associates wholesome fun is adroitly served by in "That's My Baby." It is amusing and delightful farce at its best with MacLean his usual debonair and ingratiating self. He is always agreeable in his manner and by reason of this occupies a position on the screen unique among comedians.

"That's My Baby" is one of the best pictures of its kind this season and additional merit comes from the fact that it is without pretentious or forced effort. It has the rare quality of modesty. It should not be missed.

For Discerning Tastes

WHITE STAR S.S. LINE HAS BEEN SOLD

New York, June 17—Control of the White Star fleet of ocean liners, which includes several of the world's largest passenger ships, will pass from the International Mercantile Marine Company to a British syndicate headed by Furness, Withy & Company, under the terms of a proposal approved by the stockholders of the American company today.

The action of the shareholders authorized the International Mercantile Marine directors to accept the British offer of between £7,000,000 and £7,500,000 for the stock of the Oceanic Steam Navigation Company, the official name of the White Star Line. The exact amount will depend upon amount of cash and the nature of deferred payments, but is expected to net the I. M. M. approximately \$35,000,000.

These funds, P. A. S. Franklin, president of the company, told stockholders, will be available for the acquisition of other property or the scaling down of bonded indebtedness. If the company decides to purchase additional tonnage, it is expected that it will reach out for the Leviathan and other well known American liners.

Thirty-three vessels with an aggregate tonnage of 500,000, including several owned by White Star Line subsidiaries, are involved in the projected sale. Among these are the Majestic, Olympic, Homeric, Adriatic, Baltic, Arabic and Cedric.

FARMERS LIFE WAS SAVED BY A MEDAL

Renfrew, June 16—A church medal which he wore probably saved the life of Stephen Whelan, an Adamston Township farmer, living a few miles from Renfrew. In broad daylight a couple of strange dogs began an attack upon his flock of sheep in a field. With gun in hand Whelan ran for the field. He located one of the dogs under a pear tree worrying a sheep. When Whelan was about to fire, the dog got behind a tree. Mr. Whelan found it necessary to climb a fence to get a clearer view of the dog, and in making the climb the gun discharged. The bullet struck the medal, glanced off it and made a slight breast wound, then went through Mr. Whelan's left arm. Both dogs still live. Much sheep-killing in the township is attributed to their activities.

Bass in St. John Harbor.

Saint John Globe—A fisherman reported today that he had caught several black bass in the harbor and that this season was the first in his experience, covering many years, in which he had heard of bass being taken in the harbor. He suggested that the fish may have come down from some stream in which young bass had been placed comparatively recently.

Notice

Winnipeg, June 18—George Kemp, who spent the winter at Norway House, brought to Winnipeg today the skin of what is believed to have been the largest grey wolf ever shot on the American Continent. The wolf, citizens of Fredericton that he is still which was shot by C. Herman a trap in the Concrete business, and after per, measured seven feet six inches years of experience, there is no job from tip to tail. The wolf was shot too big or too small for him to do. 200 miles northeast of Norway House. Prices Moderate.
