

HISTORIC DATA OF U. N. B. EMPLOYED

Reproductions of Hand- writing of Rev. S. D. L. Street in Endow- ment Fund Pamphlet.

The pamphlet which has been issued by the committee engaged in connection with the Half Million Dollar Endowment Fund of the University of New Brunswick includes in its contents some historic facts of interest. A number of very interesting reproduction of pictures are shown.

The first college building in Brunswick street near the present C. N. R. station is shown in the reproduction of a water color of the original Parish Church. This wooden building later was the collegiate school building and is remembered by many.

There also are reproductions of fly-leaves of books bearing the handwriting of Rev. S. D. L. Street the first graduate of the College of New Brunswick.

The handsome memorial window placed in the Memorial Hall by the Countess of Ashburnham in memory of the late Earl is reproduced as well as the exterior and interior of the various university buildings.

The pamphlet is particularly for the purpose of appealing to the alumni and public for support in regard to the Endowment Fund the establishment of which is largely the result of the efforts of Sir George E. Foster.

City Affairs

Supper Bridge.

Miss Molly Barry entertained at a Supper Bridge of nine tables last evening. The prize winners were Miss Annette Campbell, and Miss Nan Fraser and Mrs. H. R. Babbitt.

Returned Home.

Mr. James M. Scott, M. L. A. who accompanied his wife to New York, a short time ago, returned home yesterday. Mrs. Scott and Miss Jennie Mitchell are expected home tomorrow.

Making Good Progress.

Satisfactory progress is being made with the removal of the Holly engine from the pumping station. The work will be well advanced by tonight. Electric wiring has been carried on also.

Died at Moncton.

Mr. Frederick E. Whelpley, treasurer of the C. N. R. died suddenly at his home at Moncton yesterday. He was a native of St. John and a brother-in-law of Mrs. W. T. Whitehead of this city. He is survived by his wife, one son and one daughter.

January Thaw Arrives.

The January thaw materialized last night accompanied by heavy rain. The result was streets in bad condition today and walking very bad. Much damage was done by ice falling from roofs and by ice causing roofs to leak. Colder weather is coming tomorrow.

Resided in Kingsclear.

C. H. Gray, president of the Farmers' & Dairymen's Association referred to the fact that his grandfather when a resident of Kingsclear had imported the first Clyde stallion ever brought into the Province. For years the stallion was known as "the Scotch horse" and many of his get were known by the same name.

Died in Toronto.

The death of Robert Colwell formerly of this city occurred on Sunday at the home of his daughter Mrs. Jan McLean, St. Clement's Avenue, Toronto. The funeral took place there today. The deceased for many years operated a carriage factory here. He also was famous as a cricket player. R. S. Barker is a nephew.

Mr. C. J. Milligan Dead.

Mr. C. J. Milligan, regional counsel of the C. N. R., died at his home in Moncton last night after a brief illness from heart trouble. He was a native of St. John where he practiced law for some years. He also served as manager of the Telegraph and was at one time employed as a Liberal organizer for the province. Before joining the C. N. R. staff he practiced law for a time at Winnipeg. The deceased was also a graduate of the U. N. B. A widow, two sons and three daughters survive.

FARMERS' & DAIRYMEN'S ASSOCIATION OPENED ITS 50TH ANNUAL SESSION

President C. H. Gray of Woodstock in Chair — O. C. Hicks Delivered Paper on N. B. Seed Potato Growers' Association and Dr. H. J. Pugsley Spoke on Common Livestock Ailments — Large Attendance of Delegates.

The fiftieth annual meeting of the N. B. Farmers & Dairymen's Association opened this morning in the gymnasium of the Provincial Normal School. Registration of delegates is not completed but the attendance is large and is expected to be one of the largest in the history of the Association.

President C. H. Gray of Upper Woodstock occupied the chair and after the registration and routine the program was followed. O. C. Hicks of the Soils and Crops Division, New Brunswick Department of Agriculture spoke on The New Brunswick Seed Potato Association and Dr. H. J. Pugsley, Provincial Veterinarian on Animal Diseases. A. D. McCain of East Florenceville, President of the Potato Growers' Association who was scheduled to speak on Marketing the New Brunswick Potato Crop, was unable to attend and his paper was cancelled.

Seed Potato Growers' Assoc.

O. C. Hicks, secretary of the N. B. Seed Potato Growers' Association in his paper pointed out that co-operative action toward market farm produce always was forced by depression in the market. Co-operative cheese factories were established in 1890 because the price of butter dropped too low. In 1918 the "wool pool" was formed for similar reasons. In 1924 the producers of seed potatoes organized because the price of potatoes dropped below profit as the result of overproduction. The directors were elected in April, 1924 and seventy-one growers went into the pool. The secretary was sent to Long Island and other districts to book orders. He found that other sections offered keen competition but buyers from Virginia, New York and Maine visited New Brunswick and inspected fields in the summer of 1924.

It would be remembered that the market broke badly that year because of big crops. Many who declined to go into the November pool

later regretted it. Prices produced by the November pool were \$1.44 for Cobblers and \$1.14 for Green Mountains. The March-April pool in the following spring produced the following prices, \$1.45 for Cobblers and \$1.25 for Green Mountains.

In the spring of 1925 the secretary again went to Long Island. He found that the growers were well satisfied with New Brunswick seed stock. A tendency was observable with a rising market to drop out of the Association. The Association had found the value of Federal inspection and also appreciated business ethics as means to success.

Animal Disease.

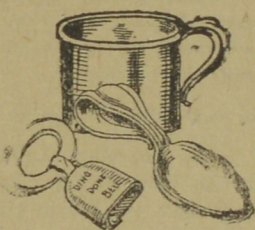

Dr. H. J. Pugsley, Provincial Veterinarian spoke on Contagious, Abortion and Common Live Stock Ailments. He described the methods of treatment in cases of abortion and cautioned against the use of patent medicines for this. Common salt solution was strongly recommended. Dr. Pugsley advised isolation of affected cows during treatment. If the diseased condition were not cured he advised beefing of the animal. Vaccination was advised in cases in which contagious abortion had appeared but not in the case of herds in which it was not suspected.

Discussion ensued. Dr. Pugsley said retention of afterbirths occurred in good as well as poor cows. There was no way of preventing it. The speaker said he did not believe that it could be prevented by feeding. A number of other diseased conditions were discussed.

M. A. McLeod expressed the opinion that steps should be taken to prevent the sale of cows affected by contagious abortion.

In the latter part of the session Mr. McLeod introduced cattle breeders who were in the audience. He mentioned President C. H. Gray of Woodstock, breeder of Ayrshires, Mr. Roach of Sussex breeder of Ayrshires, Mr. McCarthy of Jeffrey's
