## PROVINCIAL ROADS ARE CLOSED NOVEMBER 1ST TO VEHICLES OVER 10,000 POUNDS

Order of Chief Road Engineer in Accordance with Motor Vehicle Act—Bus Lines Affected, Also Heavy Trucks—Inspection Shows that Roads Suffered From Big Rain in Many Sections.

Saint John, Oct. 29—All the roads of the province outside of cities and towns will be closed to motor vehicles having a gross weight of more than 10,000 pounds from Monday, November 1, according to notification received yesterday by Geo. L. Ingram, provincial tax inspector, from B. H. Kinghorn, chief highway engineer of the Department of Public Works. This order will affect all the large buses which have been operating as well as the heavy commercial trucks.

Mr. Kinghorn's letter contained the following:

"In accordance with the provisions of our Motor Vehicle Act, no motor vehicle having a gross weight of more than 10,000 pounds should be permitted on the public highways outside cities and incorporated towns after the 31st day of October."

Mr. Ingram explained that this precaution was being taken by the highways branch in order to protect the roads of the province from damage during the heavy fall rains and the coming of the frost, which were found to create as much or more havoc than the spring thaws.

### Damage by Storm.

Mr. Ingram has just returned from a tour by automobile over the circuit Saint John to St. Stephen to Fredericton and back to Saint John. He said that he had found much damage done to the road surface, to many of the culverts and several of the small bridges en route. Between here and St. Stephen the worst spot was near Five Fathom Hole where a culvert had been undermined and washed out carrying some of the road with it. On Tuesday, the day after the storm, there was nearly a foot of water on the highway about eight miles west of St. George and the road surface was badly pitted and furrowed.

Going from St. Stephen to Fredericton, he found that near Dumbarton the road was more than one and one-half feet under water for a stretch of more than 200 feet. All the streams in the vicinity were filled to the top of the banks with the water trickling over the covering of many of the bridges. This was on Wednesday.

Returning to Saint John yesterday, he found that the road was not quite so bad as the others he had passed over early in the week, although between Harvey and Long's Creek, despite the fact that it is nearly all elevated ground, the highway showed many great scars from the water's scourge. The Broad road was not quite so badly affected as the river road, although the latter escaped the effect of the storm remarkably well.

The paved stretch on the main road between Saint John and Rothesay was practically unaffected by the rain, although great quantities of gravel and earth were washed onto it from the branch roads leading down from the high ground which skirts. At Riverside many tons of material came down from the Golf Club grounds and similar conditions were evident at Renforth and Rothesay.

### Ditches Overflow.

Nearly all the ditches of the roadways of King and Queens counties are deeply furrowed and washed out as a result of the heavy rains. Streams and brooks are still raging torrents, carrying off the great weight of water which fell throughout the woodlands. Culverts and pipe drainage on the new government roadway systems were sorely taxed and in some instances the crest of the road is cracked conveying a true impression of weakness. It is this weakening of certain spots the road patrolmen are checking up quickly before the frost gets a rake at them.

A resident of the Jerusalem section of farm country lying between Hampstead Wharf and Welsford, on the C. P. R., was caught in the terrible rainstorm that did so much damage, while shopping at Oak Point. Proceeding home by the Hamilton mountain route he was confronted with a washed out bridge about ten miles inland. Returning and taking another devious route he was checked by a fallen tree and though night was now drawing near he drove his car through the gale and waterswept roads by a roundabout road through Upper Hampstead, covering possibly 50 extra miles before reaching his home late at night.

## INTERNATIONAL MEETINGS MAKE GENEVA FAMOUS

Geneva, Sept. 29—How steadily Geneva is increasing in importance as the centre of international activities is shown by the large number of conferences to be held this autumn here, and an already long list has been added to by the announcement that the Twenty-fifth Universal Congress of Peace would be convoked within Geneva's walls this month.

As far back as 1867 the first World Congress of Peace was held at Geneva on the suggestion of Victor Hugo whilst the great French writer was under exile by Napoleon III. Great figures in the liberal life of Europe participated in this great congress, and the people of Geneva acclaimed enthusiastically the Italian patriot Garibaldi as he arrived at the railroad station. So delicious indeed was the welcome that the multitude unhitched the horses from his carriage and themselves triumphantly conducted Garibaldi down the Rue du Mont Blanc to his hotel.

It is regarded as significant by many people that this year's congress will concentrate upon economic problems, thus giving the impression that international peace is more in danger from economic conflicts than from direct questions, and the difficulties arising out of the fluctuations in exchange—both figure in the agenda; while in a broad way will be discussed the question of the sovereignty of states, believed by many to present a widely different aspect in modern days, when people of various nations are more dependent one upon another than they were when Garibaldi came to Geneva.

### Left For Montreal Fruit Show.

A. G. Turney, Provincial Horticulturist, has left for Montreal where the New Brunswick Fruit Growers' Association will exhibit a carload of apples at the Montreal Fruit Show to be held all next week in the New Eaton Building. W. W. Hubbard, President of the Fruit Growers' Association, is also attending.

## LIBERALS TO BACK FERGUSON'S LIQUOR POLICY

Toronto, Oct. 29—J. A. Pinard, former member of the legislature for Ottawa east, and one of the sponsors of the manifesto which announced that a small group of Liberals would support Premier Ferguson's government control policy, said today: "The issue is the government control measure and that is what we are supporting."

"As the manifesto states, we will support any government which is behind the amendment to the Ontario Temperance Act."

He declined to express an opinion on possible party divisions in the legislature.

T. Proulx, former Liberal member for Prescott said: "The situation with me is that I am not in accord with the Liberal leader on the liquor question. If I can agree more with the policy of Mr. Sinclair at a later date than I can with that of Mr. Ferguson I will support Mr. Sinclair."

Mr. Proulx pointed out that his constituency was on the Quebec border, "where possibly I see more abuses under the prohibition system than some of the other countries do."

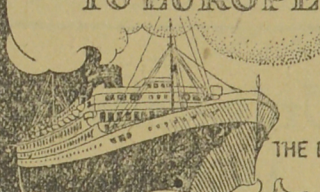

## BIG INCREASE IN CANADA'S TRADE

Ottawa, Ont., Oct. 29—Canada's total trade in the past 12 months is \$281,000,000 greater than in the preceding 12 months.

Both import and export figures show marked advances over the totals for the past two years. In the exports from Canada, agricultural products and wood and paper products lead. Imports show sharp advances in metals and textiles.

The total trade for the 12 months ended Sept. 30 was as follows:

1924	\$1,912,000,000
1925	2,023,000,000
1926	2,304,000,000

## P. J. GALLAGHER WELL KNOWN HERE DIED IN NEBRASKA

Moncton, Oct. 29—Patrick J. Gallagher, formerly a resident of this city, died Wednesday, Oct. 27, in Lincoln, Nebraska, where he had made his home for several years. Words of his passing was received here this week by relatives, who said that the funeral would be held on the arrival of the Maritime Express on Saturday morning, with service in St. Bernard's church, and interment in Fox Creek cemetery.

Mr. Gallagher for many years ran a meat business on Main street and at one time occupied a seat on the aldermanic board. He took part in many civic activities and after he retired from the meat business, conducted the Minto Hotel at the corner of Robinson and Main streets. In this way Mr. Gallagher became very widely known throughout the provinces and his death will be learned with great regret by the older travelling public.

After the Minto Hotel was burned Mr. Gallagher lived in the city for a few years, but later went to Woodstock, where he conducted the Carlisle House. Selling this out, he removed to Nebraska.

Mr. Gallagher paid a visit to Moncton about a year ago and was welcomed warmly by many of his old friends. On his return to his home in the west he was compelled to undergo an operation, one leg being amputated. He never fully recovered from the shock. Mr. Gallagher was born in Mount Charles, County Donegal, Ireland, 80 years ago, and was twice married. He is survived by his second wife, formerly Miss Driscoll, two sons, Justin, in Boston; Dr. Patrick, in Winnipeg, and one daughter, Mrs. McGrath, wife of Dr. R. H. McGrath, Fredericton. One son, Walter, was reported missing from a Montreal regiment during the war and was never heard from again. It was presumed that he died in action.

(Mr. Gallagher spent much time in Fredericton and was well known here)

### WEEK-END MARKET.

There was a large market assembled at the Phoenix Square this morning. Apples and vegetables were very plentiful. Prices ruled as follows:—

Potatoes, per bbl.,	\$3.

## RHEUMATIC PAIN AND THIN BLOOD

Liniments of No Avail—The Trouble Must be Treated Through the Blood.

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears. There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these is Mr. Robt. A. Smith, Mersey Point, N.S., who says: "Some years ago I was attacked with rheumatism, which grew so bad that I could not walk and had to go to bed under the doctor's care. It is needless to say that I underwent a great deal of suffering. The doctor's medicine did not seem to reach the trouble, so when I was advised to try Dr. Williams' Pink Pills I did so, and after taking them for some weeks I was able to get out of bed. I continued using the pills and was soon able to work, and I have not been troubled with rheumatism since. In other respects also I derived a great deal of benefit from these pills and I think them a wonderful remedy."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

### MORE RUSSIAN AID.

Moscow, Oct. 29—Another million rubles is on the way from Russia to help the striking miners in Great Britain. The announcement that the central council of the Soviet Labor Union was sending this money was made by the semi-official Russian News Agency today. (A ruble is worth about fifty cents.)
