WILL CRUSH OPPOSITION IN THE RANKS

Communist Leaders Take Steps to Advance Campaign.

WILL CURB ZINOVIEFF

A Resolution Condemning His Course is Adopted.

(Special cable to The Daily Mail by the British United Press)

Moscow, Oct. 28—Josef Stalin and his colleagues in the control of the Communist party and therefore of the Soviet Union government today, advanced their campaign to crush opposition within party ranks by obtaining the approval of the communist party conference for the recall of Gregory Zinovieff from control of the Communist internationale.

A resolution condemned the opposition of Zinovieff, Leon Trotsky and their lesser supporters and also expressed the party's displeasure with Ruth Fisher, the German Communist leader, and others who have swung away from the unadulterated revolutionary principles of the clique now securely in power.

FOUR KILLED IN A COLLISION ON THE C. N. R.

The Accident Occurred Thirty-one Miles West of Edmundston.

(Special to The Daily Mail.)

Edmundston, N. B., Oct. 28—Four laborers in the employ of the Canadian National Railways were killed this morning in a head-on collision between a work-train and a freight-train some thirty-one miles west of this place this morning. The accident occurred at about eight o'clock and the road bed suffered considerably in the smash. Auxiliary trains were sent to the scene from Edmundston and Monk and it is expected that the line will be cleared by night.

Reports are that the two trains came together in a heavy fog which prevented the drivers seeing the approaching trains until too late. It is uncertain how the two trains happened to be travelling on the one line at the time. Investigation will follow.

TO COMMEMORATE BATTLE OF THE RESTIGOUCHE

Campbellton, Oct. 27—Announcement has been made that Dr. J. Clarence Webster, of Shediac, the New Brunswick member of the Historic Sites and Monuments Board of Canada, will be in Campbellton on Thursday, Nov. 4, to hand over to the town in a formal manner the cairn recently erected in Riverside Park to commemorate the Battle of the Restigouche. It is planned to have the formal ceremony in the town hall after which Dr. Webster will give his lecture, illustrated with lantern slides, entitled "Stirring Times in Old Acadia."

The meeting will be open to the public and it is expected a large audience will be present. The occasion is one of particular interest as the Battle of the Restigouche was the late battle of the Seven Years' War, between England and France, fought in America. As a result of this war and the Treaty of Paris which followed it Canada became part of the British Empire.

DISTINGUISHED MUSICIANS CANNOT AGREE

Kreisler and Hoffman Give Views on Broadcasting.

VIOLINIST THINKS IT MAY DO HARM

Noted Conductor Says the Radio Popularizes Music.

London, Oct. 28—The charge made yesterday by the lessee of the famous Queen's Concert Hall here that radio broadcasting is undermining the concert business and that Queen's Hall was in danger of becoming a movie theatre today resulted in two distinguished musicians taking opposite views on broadcasting.

"I haven't broadcast," said Fritz Kreisler, "because I think broadcasting may do an artist a great deal of harm."

On the other hand, Josef Hofmann who sailed for the United States said:

"I do not think that it does any harm to broadcast."

Albert Coates, the English conductor expressed the opinion that broadcasting popularizes music and makes people want more of it.

ASTOR-ASHER ROMANCE GOES ON THE ROCKS

Hollywood, Oct. 28—Out here in this vale of joy and laughter absence does anything but make the heart grow fonder, if recent events be criterions. Mary Astor, star of the silver screen, and Irving Asher, a studio executive, were looked upon in the light of perfect lovers.

Then Mary went down in Texas on location. Nothing was thought of that, for, since first the game became prominent, omissions have been a necessity. But it wasn't long before something went wrong, for now the engagement's broken, and all because of the absence Hollywood says.

Take the case of Bess Meredyth, who writes scenarios. She and Wilfred Lucas had managed to get along with one another, as wife and husband, for a considerable period. Then Wilfred went off to Italy, on location. Bess shortly received a letter wherein it was set forth he loved somebody else. A divorce followed.

BOOZE DEALERS ROUNDED UP IN MADAWASKA

Edmundston, Oct. 27—Liquor Inspector Aurele Berube laid five more informations against the following yesterday: Seraphine Hagibes, Catherine Laurier and Henry Socy, all of Edmundston; Chas. Devillers and Octave Fournier, of Green River. These five cases are the result of seizures made this month and were not included in the cases on hand when Mr. Berube was officially appointed inspector.

Mr. Berube has laid 30 informations so far, and he has secured 29 convictions out of that amount. Only one case remains on the docket, that of Maxime Albert, of St. Hilaire, which will be argued this week.

There were seven cases before Justice of the Peace J. A. Charest, of St. Jacques, yesterday, and fines of \$100 and costs were imposed in each case.

One of the cases laid yesterday is said to be the first of its kind in Madawaska, the charge being for unlawfully giving liquor without the license required by law.

Mrs. G. Hannington of Halifax is registered at the Barker House.

THE AUTUMN DIVORCE CROP IN OLD COUNTRY LIKELY TO BE HEAVY

More Than One Thousand Husbands and Wives Digging Away the Coverings From Family Scandals—The Peerage, and European and American High Society Well Represented in the List.

(Special to the Daily Mail by the British United Press)

LONDON, Oct. 28—More than 1,000 husbands and wives, tired of married life, are digging away the coverings of family scandals in preparation for England's autumn divorce courts season.

The opening of the Earl of Cowley's suit for divorce from his wife, the former Casymay Pickard, a New York chorus girl, on Tuesday, brought to the attention of society the fact that there were at present 876 petitioners for absolute divorce.

The peerage, the stage and high society generally both British and American, are represented in these pleas. The high court judges already have started the task of deciding whether or not the irksome shackles of matrimony shall be removed.

Of the petitioners 630 are undefended and unless the King's proctor, a sort of official snooper whose job it is to keep divorce petitioners honest, finds reason to oppose these suits, the divorces will be granted automatically.

SOME LIBERALS MAY SUPPORT GOVT. CONTROL

Toronto, Oct. 28—The Mail and Empire publishes the following in its news columns this morning dealing with the Liberal Convention in Toronto yesterday:

The greatest tribute which has yet been paid to the government control policy of Hon. G. Howard Ferguson is the confusion it has created in the Liberal ranks. Last night while the main body of Liberal delegates were banqueting Mr. Sinclair, the French-Canadian wing were holding a separate meeting. They had made it known earlier in the day that they could not approve of the prohibition policies of the Liberal leader, and when all efforts at negotiations failed, the representatives of 10 or 12 constituencies withdrew, declined to attend the banquet and went into a session of their own.

Up to a late hour last night they were still in conference and E. P. Tallier, ex-M. P. P., of North Essex, and a former follower of Mr. Sinclair, acting as spokesman for the French-Canadian group, stated that they would go into conference again today, at the end of which they would have some statement to make. The ridings of North Essex, Prescott and Russell, all held by the Liberals in the last legislature, are involved in the split as well as others along the Ottawa River, northern Ontario and the border.

CLOW TO BE LET OUT ON BAIL

Pictou, Oct. 27—In Supreme Court today, Mr. Justice Mellish granted that James Clow, who was recently acquitted on a charge of murder and is now held on a charge of attempted murder, may be released on bail as soon as Rod G. MacKay, counsel for Clow, arranges for \$4,000 security. Clow is to put up \$2,000 and there are to be four other sureties of \$500 each.

Mrs. R. N. Campbell and daughter Jennie have gone to St. Stephen where they will spend some months.

EXPLAINS WHY HE FAILED TO FRUSTRATE THEFT

Chantilly, France, Oct. 28—Marshal Petain, hero of Verdun is the curator of the chateau of Chantilly where burglars recently stole priceless treasures, including the famous diamond known as the "grand conde" valued at several million francs.

Economies are being rigidly enforced at the chateau and the number of watchmen, guards and other employes is down to the lowest limit. They are engaged by the Institute de France, under government control.

A friend of the marshal chided him about the theft, saying:

"It is strange that a man who could keep Verdun against the entire German army should get the worst of it in an encounter with a few burglars."

"I appointed my own watchmen at Verdun," replied the marshal.

BAKER BROOK MAN DROWNED AT BLACK RIVER

Edmundston, Oct. 27—Felix Hebert of Baker Brook, was drowned early this morning at Black River. Mr. Hebert was employed as scaler by Fraser Companies, Limited, and was coming down the river in a canoe accompanied by Frank Conlon, another scaler. Although full reports of accident have not yet been received it appears that their boat was swamped and drifted. Conlon managed to hang on to the boat and was drifted ashore, but on his recovering consciousness no trace of Mr. Hebert could be found. In 1911 the late Mr. Hebert had been awarded the Carnegie medal for having saved the lives of two drowning men.

The victim was 37 years old and is survived by his wife and two children. His mother is also living.

Up to a late hour today the body had not yet been recovered. Fraser Companies have sent out searching parties in an attempt to find the remains.

MONSTER SEA LION TAKEN OFF CAPE COD

Is Reported to Have Weighed Six Hundred Pounds.

TAKEN NOT FAR FROM SHORE

One of the Largest Ever Taken in Cape Cod Waters.

(Special cable to The Daily Mail by the British United Press)

Provincetown Mass., Oct. 28—A six hundred pound sea lion, one of the biggest ever taken from Cape Cod waters—has been killed off this port. It was bagged by Ernest Butler and Captain N. Rogers, not far from the shore.

It is ever seldom that sea lions of such enormous size are seen on the Atlantic coast, although smaller ones are taken quite frequently by fishermen.

COMPLAINT WAS FOLLOWED BY SEARCH

Mrs. Eliza Greer Whose Premises were Searched will Defend Charge Should One be Laid.

The complaint of Mrs. Della Shields that property belonging to her was in the premises of Mrs. Eliza Greer from whom she was a sub-tenant of premises in King street, resulted in a search-warrant being issued. The police executed it on Monday with the result that a number of articles claimed as hers by Mrs. Shields were taken in charge by the police.

Further action in the matter is awaited. Mrs. Greer in whose premises the articles were found has retained counsel and will put up a defence if any charge is brought against her.

FLOWERS OF ARTIST TO BLOOM ON SPRING DRESS

New York, Oct. 28—Flowers drawn from the canvas of Van Dongen, great modernist of the French school will bloom on the garments of women next spring, declares New York looking ahead as winter comes. At the "spring opening" of a great silk house these new designs revealed themselves as a brilliant reproduction of the technique of brush and oils, applied to silk.

Van Dongen's women, with their characteristic elongated eyelid, haunt the flower faces that the silk designer has borrowed.

Late Mrs. Mary Robinson.

The funeral of Mrs. Mary Hyde Robinson widow of Col. John Robinson took place this afternoon from the home of W. H. Robinson 725 George street, and was largely attended. The body was taken to Christchurch Cathedral where service was conducted at three o'clock by Very Rev. Dean Neales. Interment was made at Forest Hill Cemetery. The mourners were G. E. Theodore Roberts, W. H. Robinson, C. Sterling Brannen, Dr. Wainwright, Dr. F. M. Brown, C. R. Hawkins, Col. H. M. Campbell, Dr. W. T. Raymond, J. S. Armstrong, George Stoppford, John Black, J. J. F. Winslow, Dr. H. V. B. Bridges, Rupert Taylor, D'Avray West, Thomas W. Rainsford, G. N. C. Hawkins, Le-Baron Bull.

BIG DEPOSIT OF CYANITE DISCOVERED

Estimated to be Worth One Billion Dollars.

FIND MADE IN THE SOUTH

The Quantity is Estimated at Ten Million Tons.

(Special cable to The Daily Mail by the British United Press)

Burnsville, N. C., Oct. 28—Discovery of a deposit of Cyanite estimated to be worth a billion dollars, two miles north of here, has been announced by J. A. Pollard, President of the Chamber of Commerce.

Cyanite which belongs to the group of aluminum silicates, is valuable in making crucibles for the manufacture of steel, Pollard said.

He quoted geologists as estimating the deposit contained in three mountains within view of the town at ten million tons.

A ton of pure cyanite is valued at approximately \$100, Pollard said.

The state geologist has inspected the deposits and reported that they are of unusual purity, the chamber of commerce president added.

NO ESTIMATE OF DAMAGE IS POSSIBLE YET

Hon. D. A. Stewart, Minister of Public Works, Here Today—Tenders Considered.

Hon. D. A. Stewart, Minister of Public Works, is here today engaged in departmental business. The Minister says that it is not yet possible to estimate the damage done by the heavy rain of last Monday. The reports have been pretty well received but there must be some checking up on repair costs.

No additional loss in roads or bridges was reported today. The south of the Province and Gloucester County are the sections which suffered.

The tenders for material for flooring a number of bridges in the Province have been received and are now receiving consideration from the Minister.

WILL BE CARRIED OUT.

Churches and School Board With Y. M. C. A. to Secure Physical Instructor.

The proposal to secure an instructor in Physical Training for churches and the public schools now appears to be on the way to fulfillment. The School Board declared in favor of it at the regular meeting Wednesday and the Y. M. C. A. directors also have approved. The latter are in communication with Toronto and elsewhere in an effort to secure a competent man.

The churches which have signified their intention of entering into the arrangements are Wilnot United, St. Paul's United, Brunswick street Baptist and Christchurch Cathedral. Wilnot Church is handicapped by lack of a gymnasium but will try to make some arrangement. St. Andrew's Presbyterian and St. Dunstan's Church were not in position to enter into the arrangement although sympathetic.

The instructor is to be available for the School Board four afternoons a week. He also is to supervise playgrounds in the summertime.
