## Settlement Proposals Of British Coal Strike

### Conference Between Mine Owners and Miners' Executive Concluded at Three O'clock This Morning—Proposals for a Settlement of Seven Months Old Dispute Referred to Miners' Delegate Conference.

(Special to the Daily Mail by the British United Press)

LONDON, Nov. 11—The executive of the Miners' Federation today decided to refer without recommendation to the miners' delegate conference the proposed terms for settling the coal dispute which was in its seventh month today.

Meanwhile, it was officially announced by the mine-owners that the owners had not seen the settlement memorandum devised by the miners and the Government until it appeared in today's newspapers and that the memorandum did not represent any agreement between the owners and the Government.

If a settlement was reached today it appeared that the Government would be compelled to pledge itself to legislation effectuating any causes of the settlement which would require concessions by the owners.

Memo For Settlement

London, Nov. 12—After lengthy conference between the cabinet coal committee and the coal mine owners' and miners' executive, which were concluded shortly after 3 o'clock this morning, the government handed to the miners' executive a memorandum of proposals for settlement of the coal strike.

This memorandum, it is understood will be submitted to the conference of miners' delegates today but it is not known whether the executive will recommend that the proposals be accepted.

## THE ENGLISH AIR SLOWS UP U.S. WATCHES

London, Nov. 12—American visitors to England must set their watches ahead at least three minutes as soon as they land because of the effect of the enervating climate on the works. Many visitors find it necessary to adjust their watches at least twice a week.

Inquiry among watchmakers disclosed that change of altitude was more likely to affect watches than change of temperature. "It is likely, however that the watches of American visitors, used to a dry crisp climate, find London a trifle enervating and react accordingly," one manufacturer said.

St. John, Nov. 12—Nearly 300 overseas officers from all over the Maritime Provinces with a few from Upper Canada, gathered at the Admiral Beatty Hotel last evening to celebrate their second Armistice Reunion and to hear stirring messages from General Sir Arthur Currie, president of McGill University and former commander of the Canadian Corps; from Lt. Col. the Hon. J. L. Ralston, C.M.G., D.S.O., Minister of National Defence, and from Capt. F. M. Lockary, M. C., of Woodstock, a former chaplain in the Canadian Expeditionary Force. All three speakers pronounced definite opposition to the observance of the Armistice Day on any other date than Nov. 11, the date in 1918 when the truce pact was signed.

General Currie stressed the upholding of the ideal for which the Canadian forces fought. He called upon the whole of Canada not to forget the sacrifices which were made in the upholding of that ideal and to work towards a deeper national and Empire spirit.

Col. Ralston paid a high tribute to the men who formed the Canadian units and expressed his confidence that they would assist in the great work that was still before them.

## BRITISH PRESS ON THE SPEECH OF COOLIDGE

### Disappointed Over Reference to the World's Court.

### COMMENTS OF DAILY NEWS

### Thinks U.S. Must Participate in European Affairs.

(Special cable to The Daily Mail by the British United Press)

London, Nov. 12—The British press generally gave evidence of disappointment today in its comment in President Coolidge's armistice day speech in Kansas City. The disappointment concerned his reference to the improbability that the United States would become a member of the world court.

## WANDERERS DUE HERE TONIGHT WITH ROOTERS

### One Halifax Paper Predicts Doubled Score by Visiting Team—Richie MacCoy is Uncertain.

The Wanderers A. A. C. rugby team of Halifax is expected to arrive here tonight preparatory to the match with the University of New Brunswick Saturday. A number of rooters are accompanying the team and others are coming by motor.

W. J. Foley sports editor of the Halifax Chronicle on Thursday was very sanguine in his forecast of the result here. He stated:—

Our prediction is that the Wanderers will at least double the score in Saturday's game with U. N. B. Paste it in your hat, and we'll check up Sunday.

Wanderers' lead of eight points over the University of New Brunswick rugbyists may not prove enough to carry the Reds through their second game with the Fredericton boys at the latter town on Saturday. The "weakened" U. N. B. team will be greatly strengthened, while the "strong" Wanderers' outfit may be without the services of Ritchie MacCoy.

The "Mighty Atom" told us last night that he "hoped" to be in Saturday's game. Ritchie's right leg is badly swollen, and his injured shoulder, dislocated in Monday's game, is still very painful. He'll be in Fredericton anyway, and if it is at all possible will be in the fray.

Ritchie tells us that the Reds are very eager for Saturday's battle. Not a man on the team but feels that Monday's exhibition was not by far on a par with other games during the season. With fifteen men Saturday, Ritchie back in the game and any of the "breaks" at all, the Reds should deliver another victory.

Quite a number of Wanderers' supporters are making arrangements to leave tomorrow for the scene of the battle by motor and train, and it is expected that the Reds will be well represented among the rooters when the teams face each other in the second and deciding tilt.

## NOT ABLE TO ENTERTAIN THE VISITING TEAMS

### Neither Wanderers nor McGill Will Remain 'the Night After the Games—Banquet Arranged.

The University of New Brunswick undergraduates received word from the McGill English rugby team that it is the intention to arrive by C. P. R. at 9.50 Monday morning and to leave at 7 p. m. the same day. The shortness of the stay will prevent any attempt at entertainment. A banquet as a return for courtesies received in Montreal last November had been arranged but cancellation or some change must be made, as the result of the message from McGill. By immediate return to Montreal the McGill players will reduce loss of lectures to a minimum.

The McGill squad will be just the number required for a team, fifteen. The names are Ramsay, Noble, Donald Reed, Gareme, Angevine, Starkey, Redpath, Brown, Kincaid, McRoberts, Butler, Sterling, Cradall. The latter also is manager.

This also will prevent any entertainment of the visitors.
