Summerside, Aug. 19—Hon. J. A.
Robb, former Minister of Finance,

speaker, further reductions in taxation
would be made, and he believed the
people would vote for these reduc-
tions.

The former Finance Minister spoke

A BOOTBLACK MAKES APPEAL TO MUSSOLINI

Rome, Aug. 20—How Mussolini in-
tervened to save a Roman bootblack
from losing his stand in narrated by
the shoe-shine himself in an interview
published here.

Antonio Morichini, ex-police officer,
had worked for a number of years a
profitable stand on the Corso, the
Broadway of Rome. New traffic regu-
lations, recently carried into effect,
deprived him of his money-making
stand. The authorities ordered him
into a back street, where few custom-
ers passed.

Antonio Morichini saw his earn-
ings dwindle away. His daughter,
moreover, fell sick. In desperation the
old police officer decided to write to
Mussolini himself, which he did, set-
ting out his case.

In two days he had an answer. A
sergeant of police called upon him,
made a few inquiries as to his past
conduct, looked up his record, and
then gave him a new license to pur-
sue his calling at an even more favor-
able position than the one he lost.

"Things are going fine," said the
bootblack pointing to a button he is
wearing, bearing the photograph of
Mussolini.

BRITISH TO USE PLANE IN COPPER PROSPECTING

London, Aug. 19—An airplane, for
the first time in history, as far as is
known, will supersede the diving rod
in prospecting for precious mineral
deposits when the British Aviation
Company undertakes an aerial sur-
vey of 20,000 square miles in northern
Rhodesia for a mining company.

Copper deposits are thought to un-
derlie the region and an air photo-
graph of the territory will reveal the
location of copper by showing the ab-
sence of vegetation, it is believed.
Special aircraft with the new Nimbus
engine will be used and the work has
begun at the aerodrome base. As this
country is not suited to forced land-
ings, spaces are being cleared and
leveled to serve as emergency land-
ing grounds.

THE KITCHENER HOAX HAS BEEN EXPLAINED

London, Aug. 19—The Daily Sketch
today prints over the signature of
Singleton Gates a long story bluntly
stating that Gates invented the
whole story of the discovery of Field
Marshal Lord Kitchener's body in
Norway in conjunction with Frank
Power, a British newspaper man. It
was Power who announced that he
had found Lord Kitchener's body and
who brought a case to London sup-
posed to contain the remains. Offi-
cials of the Home Office who opened
the case said it was empty. Power
contended that some one had tamper-
ed with the Kitchener coffin.

Gates asserts in his story that Power
was interested in a moving picture
entitled "How Kitchener was betrayed,"
which was badly in need of pub-
licity. He says the film was made as
long ago as November, 1921, when it
was shown privately in London to
Lord Kitchener's sisters and several
members of the House of Lords and
the Commons, who, after seeing it,
bitterly denounced it. The promoters
of the film therefore decided to ad-
vertise it to the utmost and the alleged
discovery of Kitchener's body was the
invention to aid in the exploitation.
