GERMANY IS OUT FOR SEAT ON COUNCIL

Delegation Will Not Go to Geneva Until Notified.

STAND TAKEN BY CABINET

Must Have Permanent Seat on Council of League.

(Special cable to The Daily Mail by the British United Press.)

Berlin, August 13.—The newspaper Vossische Zeitung in a news article, claims that the German delegation to the League of Nations will not go to Geneva until Germany is notified that she alone will obtain a permanent seat on the council of the League.

CONSERVATIVE CHIEFTAIN AT BRANDON, MAN.

Brandon, Man., Aug. 12.—Right Hon. Arthur Meighen, speaking here last night, reviewed the situation in regard to the Hudson Bay road and the late government's attitude towards it, and declared he was opposed to the statutory enactment of railway rates, while there was a railway commission to handle them. "I am not going to take any step," he proceeded, "that will result in raising the railway rates in the country, but I am going to see that the Maritime Provinces of our Dominion are put on a parity with respect to this matter with the western provinces of Canada.

He asserted that he was in no brick-for-brick tariff policy with the United States, except on farm products.

A heckler interrupted, "Has the American tariff made the American farmer prosperous?"

Mr. Meighen: "Do you know what the value of agricultural production is in the United States? The wealth of the rest of the world in agricultural production would hardly equal theirs."

Mr. Meighen declared that Robert Forke stood arraigned "as having, for absolutely partisan purposes, taken a course designed to lower public life in this Dominion, designed to make the party which he was commissioned to lead, nothing but an adjunct, nothing but an annex to the Liberal machine. "I have listened to his benevolent words of censure which wouldn't hurt a kitten," Mr. Meighen proceeded. He described Mr. Forke as a "faded negative," who had not taken a step in Parliament which was not designed to enable the King government to stay in office.

NO TRACE YET OF GIRL MISSING AT GAGETOWN

Gagetown Aug. 12.—Although search parties have continued their efforts again today no definite trace has been found of Miss Eva Coy, of Upper Gagetown, who disappeared from her home on Tuesday afternoon. Parties going through the woods did find footprints near a lumber camp three miles from her home, which may have been made by the missing young woman; but they were so indistinct as to make dependence on them unreliable as clues. Miss Coy was wearing low heeled canvas shoes when she left her home.

It is probable that somewhere in the vicinity of fifty men are scouring the countryside in the search, comprising about 18 from this place and considerably more from Upper Gagetown. The search will be continued.

Miss Coy is stated to have been somewhat melancholy for a period before her disappearance and previously had been known to make long excursions into the woods. MEXICO PUTS THE BAN ON CHARLESTON

Mexico City, Aug. 13.—The department of health has issued orders forbidding the dancing of the Charleston in public dance halls. The ground taken is that it constitutes such violent exercise that it is apt to cause heart failure.

The department order adds that the dance is ugly and ungraceful, that it consists of contortions and the loosening of the joints, which are prejudicial to health, and that it is antagonistic to all artistic appearances.

The department's control is only over dance halls where admission is charged. It has, however, appealed to cafes and organizers of private halls to abandon the Charleston for the foregoing reasons.
