WINDSTORM CAUSES HAVOC AT LA PLATA, MARYLAND; SCHOOL HOUSE BLOWN DOWN; THIRTEEN DEAD

La Plata, Md., Nov. 9—A twisting wind struck suddenly out of a sultry sky today and shattered a schoolhouse here in which about 50 children were studying.

Eleven perished in the ruins and two others died while being rushed to Washington for treatment. At least 20 more were injured, some critically. A negro man and woman were killed in their dwelling, one of three caught in the narrow mile-long path of the storm.

Eleven of the torn bodies of children lay tonight in the town's undertaking establishment or at their homes while two were in Washington hospitals which were reached too late. Their ages ranged from eight to 12.

Town Dazed by Disaster

La Plata, which has a population of only 500, was dazed by the disaster. At 3 o'clock only a little rain was falling and everything was calm. Two minutes later, the wind, driving a torrent of rain before it, descended upon the village. Dr. G. D. Heath, Maryland health department official whose office was across the street from the school, saw it twisted into a mass of splinters and closed his eyes to shut out the horror. A moment later, John M. Burr, 11-year-old pupil, rushed sobbing with terror and pain from his injuries, to the home, nearby, of the Rev. W. S. Heighan, Episcopal rector. "Please tell everybody," he cried, "the whole schoolhouse has blown away."

The whole town soon was rushing up the little knoll on which the school house stood. Injured children lay in the twisted wreckage, which was strewn over a wide circle. Other children were running about dazed and crying for help. Some had been carried by the wind several hundred feet others had fled, stumbling and weeping.

Although several houses had been smashed in the storm's path, its greatest force seemed to centre in the one small spot on which stood the little

schoolhouse. The wind and rain came out of the southwest and up the Potomac River, which flows not far away Cutting a northeasterly path, it missed the greater part of the town.

Framework Shattered

Miss Ethel Graves, one of the two teachers of the school, called the children about her when the first inkling of the storm was given. As they gathered, the building began to move and then the framework was sheared from the foundations as if cut by a scythe. The larger part of the building was carried 50 feet away. Every living thing within its walls went with the wind.

Within 10 minutes after the storm calls for aid had been sent to Indian Head and Dahlgren, Maryland, and Washington. Medical aid was dispatched at once. The physicians and nurses first on the scene found only a measure of order restored, but most of the severely injured had already been started to Washington, and for others, the town's two hotels and newspaper offices served as hospitals.

One of the few children within the school who was able tonight to give an account of the disaster was Muriel Hardesty, 13, one of the oldest in the classes. She suffered only a few bruises.

"The first time I knew what was happening," she said, "was when the window panes began to chatter. Then there was a thunder-clap and a roar. The stove began to wobble about the room and then the whole building went over. The next thing I knew, I was in the Bowling Hotel."

Some described the storm as first hitting the house of Mr. and Mrs. James Padgett, demolishing it and injuring Mr. and Mrs. Padgett and their two children. Next in its path was the home of Mrs. Charles Jamieson. It, too, was wrecked and she was injured. The school house was then in line and from there the storm swept down a ravine and smashed the home of Rufus Watts, negro. He was killed, and Eliza Watts was injured.

TO CELEBRATE CANADA'S 60TH ANNIVERSARY

Ottawa, Nov. 9—Plans for the 60th anniversary of Confederation are maturing.

The Association of Canadian Clubs, through its executive committee, has put forward a series of proposals:

1—That their Majesties the King and Queen be invited to visit Canada during Jubilee week of July 1.

2—That the Governments of Great Britain, the United States, the Republic of France, the Indian Empire, the Irish Free State, and the British Dominions be invited to send representatives.

3—That there should be an issue of commemorative postage stamps.

4—That motion pictures of the events leading up to Confederation be made by the Government Motion Picture Bureau.

5—That there be a national organization to arrange the celebration, the chairman to be appointed by or from the federal cabinet.

All-Canada Salute

Incidental to the general suggestions, it is proposed that a simultaneous salute be fired throughout Canada by electricity from Ottawa at noon on July 1, 1927, and that 10,000 beacon fires be lit from coast to coast in the evening of Dominion Day. A national celebration is suggested in Ottawa with other events in the provincial capitals. All the racial groups in the Dominion will be urged to participate. As well as field days, picnic, militia and veteran reviews, there will be a distribution to the 30,000 school houses in Canada of pictures of the fathers of Confederation.

Dominion Day, 1927, will fall on a Friday, and it is proposed that on Saturday programmes of Canadian sports be arranged and on Sunday, special services in the nature of a thanksgiving in all the churches.

When making turnback cuffs for a man's shirt, sew the smallest sized snap on the cuff about one inch from the edge and at the proper place on the sleeve and you will find this quite a time saver. The cuff will not have to be tackled after each laundering.

A man doesn't need a dog when he starts out to hunt trouble.

FINANCES OF HOSPITAL ARE IMPROVING

(Continued From Page Eight.)

of the late Dr. Moore's books. Some of these were received today; these were mostly recent medical publications.

The Trustees expressed themselves as very grateful for this valuable contribution and will make acknowledgment of same.

Finances Improved.

In her report for October Miss Hunter, office clerk, submitted her accustomed detailed statement of the financial condition of the several departments. The report proved very satisfactory to the Trustees and exhibited care in detail of each department. The chairman of the finance department, Col. Loggie, took occasion at this stage of the proceedings to declare that the hospital never was in a better position professionally or (for several months past) financially. He claims that from the Superintendent down through all the officials and nurses no better or more carefully conducted public institution can be found. To prove this he showed by statistics that every department is being kept up to date and that for some time past there has been a monthly out of several hundreds of dollars, and instead of being discouraged by continually increasing monthly deficits, the hospital is steadily wiping out its overdraft.

Mrs. Daniel Richards made a further report upon the lack of operation of the Gas-Oxygen plant, one of the gifts of the hospital aid society to the hospital.

It was decided to continue the committee and after conference with some experts it hoped this important medical invention will soon be available for public service.

PRO FOOTBALL CLUB WITHDRAWN

New York, Nov. 9.—Harold Hansen manager of the Newark professional football team has withdrawn his team from the American League because of financial difficulties. Three rainy week-ends in succession have piled up losses, he said. Cleveland withdrew from the C. C. Pyle circuit earlier this week, but has since decided to complete its schedule with fresh financial support.

ANOTHER EGG LAYING CONTEST IS UNDER WAY

Began on November 1st
at Experimental Farm
With 20 Pens Entered.

The seventh New Brunswick egg laying contest began at the Fredericton Experimental Station on November first with twenty pens entered. The list includes 12 Barred Rock pens five of White Leghorns, two of Rhode Island Reds, one of White Wyandottes and one of Brown Leghorns. Of the 20 pens only 11 produced eggs last week, the Experimental Station pen leading with 30 and 22.4 points. A pen owned by Harry Patterson was second with 16 eggs and 11.1 points. George Danby's pen was in third place with 14 eggs and 10.7 points. The pen of George Wood, the winner of last year's contest laid 9 eggs and was given 6.3 points.

Following is the names and addresses of the contestant and the breed of birds entered:

Experimental Station, Fredericton, N. B., B. R.

L. B. Johnston, Nashwaakasis, N. B., B. R.

George Danby, North Devon, N. B., B. R.

James Monahan, Elmsville, N. B., B. R.

A. T. Reed, Rollingdam, N. B., B. R.

Harry Patterson, Hoyt, N. B., B. R.

N. W. Eveleigh, Sussex, N. B., B. R.

John Woods, Bloomfield Station, N. B., B. R.

George Wood, Carter's Point, N. B., B. R.

W. E. B. Taft, Dorchester, N. B., B. R.

C. M. Peart, Lewisville, N. B., B. R.

R. A. Snowball, Chatham, N. B., B. R.

A. D. Fownes, Moncton, N. B., W. W.

H. G. Harrison, Saint John, N. B., R. I. R.

Arthur Pringle, Stanley, B. L.

A. Vye Gibson, Moncton, N. B., W. L.

Mrs. Leo Hayes, North Devon, N. B., W. L.

Miss Helen Parks, Saint John, N. B., W. L.

E. M. Balkam, Milltown, N. B., W. L.

Hayfield Bros., Oromocto, N. B., W. L.

GENIUS IN PEN GETS PARDON

Hartford, Conn., Nov. 9—The sincere will of a mathematical genius to shun evil and do good has been recognized by the state board of pardons. It has freed Charles Bassett after 21 years in prison for murder. He only discovered his talent three years ago and now he is to be an engineer.

CASCARETS KEEP BOWELS REGULAR AND STOP COLDS

No Headache, Sour Stomach, Bad Cold or Constipation by Morning.

Get a 10-cent box.

Colds—whether in the head or any part of the body—are quickly overcome by urging the liver to action and keeping the bowels free of poison. Take Cascarets tonight and you will wake up with a clear head and no doubt you will wonder what became of your cold. Cascarets work while you sleep; they cleanse and regulate the stomach, remove the sour undigested food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember the quickest way to get rid of colds is one or two Cascarets at night to cleanse the system. Get a 10-cent box at any drug store. Don't forget the children. They relish this Candy Cathartic and it is often all that is needed to drive a cold from their little systems.

LITTLE PRO HOCKEY CLUBS IN TROUBLE

(Toronto Globe.)

Already the small leagues that will experiment with pro hockey this season are feeling the baleful influence of the arrogant big fellows. Yesterday's meeting of the Western Ontario pro circuit dealt with the intimation that the New York Americans had secured control of the Niagara Falls team, and, according to The Hamilton Herald "it is their intention to use the Power City as a dumping ground for their excess material." The league will endeavor to prevent the consummation of the deal. The little league would be well advised to keep away from any such entanglements. The powerful big loop can hardly be expected to be altogether altruistic and any member of the Western Ontario circuit unable to summon the support of one of the Calder league clubs in players or funds would be at a decided disadvantage. Troubles are appearing early.

FOOTBALL GATES ARE BIG AT HARVARD

Harvard will have a million-dollar football gate, from all present indications. This will be the first time that the receipts will reach that figure, judging from available records. The last three games with Princeton, Brown and Yale will be sell-outs, according to Carroll Getchell, ticket manager. The official attendance figures are not yet available, but, according to Getchell, they will be approximately as follows: Geneva, 19,000; Holy Cross, 33,000; William and Mary, 20,000; Dartmouth 53,000; Tufts, 20,000; Princeton 53,000; Brown, 53,000; Yale, 75,000.

Miss Margaret Lynds formerly of the Normal School staff, returned to her home at Hopewell Cape, this morning after a pleasant visit to friends here.

Don't Squeeze Black- Heads—Dissolve Them

Squeezing and pinching out blackheads make the pores large and cause irritation. Blackheads are caused by accumulations of dust and dirt and secretions from the skin, and there is only one safe and sure way and one that never fails to get rid of them—a simple way, too—that is to dissolve them. Just get from any drug store about two ounces of peroxide powder—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly for a few seconds—wash off, and you'll be surprised to see that every blackhead has disappeared, and the skin will be left soft and the pores in their natural condition.

Cook's Regulating Compound

A safe, reliable, regulating medicine for women. Sold in three doses of strength No. 1, 2, 3. No. 1 is sold by all druggists. No. 2 and 3 are sold by the COOK MEDICINE CO., Toronto, Canada. Write for particulars.
