JACK DELANEY IN GREAT DEMAND FOR MATCHES

**Real Name of Canadian
Fighter is Oliver Chap-
delaine—Tex Rickard
Anxious to Sign Him.**

New York, April 19—The lure of the footlights has caught Jack Delaney, Canadian challenger for the light-heavyweight championship. Delaney has been booked for a week's vaudeville engagement in New York, beginning May 3.

The most prominent figure in the world of boxing today is Jack Delaney of St. Francis, Que., where he is better known by his baptismal name, Oliver Chapdelaine. Delaney is unquestionably the most aggressive and accomplished of the whole glove brigade, irrespective of weight classes. Promoters everywhere seek his services, the most promising bout being with Paul Berlenbach. Three New York boxing impresarios are now engaged in a controversy as to which of the trio is entitled to the contest. Tex Rickard, most powerful and influential of the lot, even went to the length of appealing to the New York State Athletic Commission for assistance in signing the Canadian. Rickard wants that bout pretty badly when he will do a thing of that kind. With good management, and the exercise of care by the boxer himself, Delaney is destined to reach the top, and that soon. He has said that he will keep at "work" until he gets a chance at the heavyweight title.

FIRPO SAYS HE IS STILL GOOD

Buenos Aires, April 19—Luis Firpo, the Argentine heavyweight, announced that he has definitely decided to liquidate immediately all his interests in an automobile agency here and to devote his entire time again to a career in the ring.

"I am only 31 and healthy, and am still confident," he said, "I still have a future in pugilism."

The Argentine heavyweight attributed his poor showing in his recent bout with Erminio Spalla, whom he defeated on points in a disappointing exhibition, to overweight and lack of training. He asserted he is now training hard and expects to scale down to 210 pounds within 60 days, after which he plans to sail to England.

We might call the young people of today the self-rising generation on his way to the shipbuilding plant.

DARTMOUTH PRESIDENT ON COLLEGE SPORT

**Says Athletics Necessary—Opposed to Gam-
bling Pools on Results
of Games—Discusses
Professionalism.**

New Britain, Conn., April 18—Intercollegiate athletics are a defensible and essential part of college life, President Ernest Martin Hopkins, of Dartmouth College said in an address at a joint meeting of civic clubs here. He put the responsibility for maintaining the higher ideals of intercollegiate athletics up to the public.

"Unless these are maintained as by products of colleges for the purpose of promoting team work," he said, "men will not go out into life with the cooperativeness they should have. Inter-college athletics are probably more in a critical situation now than ever due to parasitical growths which the colleges are unable to control."

"I don't care to go into the question of the effectiveness of prohibition but if the public is going to enter as guests at intercollegiate contests, there is a responsibility on the part of the public not to attempt to demonstrate that the Volstead act does not work."

"GAMBLING is another problem. If an undergraduate feels that his team needs the support of his financial waver, I have no particular objection to that phase, but the big objection is to the gambling pool."

Professionalism. Speaking on professionalism President Hopkins said: "Boys who are entrusted to colleges should acquire a sense of proportion. What would happen if it were universally conceded that a professional athlete rendered the greatest service to the country?"

All America thrilled with pride when the President Roosevelt stood by and rescued those drowning sailors in the face of grave hazards. In New York, Capt. Fried and his men were given tremendous ovation. But Capt. Fried draws a year's salary less than Red Gange gets for one single game.

"Do you want your sons to believe that the contribution made by the professional athlete in 90 minutes rendered a greater service to the world than Capt. Fried?"

If Jack Dempsey had been arrested for speeding during the war, he could have pleaded that he was on his way to the shipbuilding plant.

MONCTON TAKES GRIP ON TITLE AT HALIFAX

**Pawnees Won From
Halifax Y 41 to 32—
Next Match Played at
Moncton.**

Halifax, April 18—The Moncton Pawnees, intermediate basketball champions of New Brunswick, won the first of a home and home series with the Halifax Y. M. C. A. last night, 41 to 32, taking a nine-point lead in the series for the Maritime title involved.

VanBuskirk, Trites and MacFarlane were leading scorers for the visitors scoring 39 points between them, while Bevil Piers was the star performer for the Halifax team, scoring 14 points, his teammate, Loye, coming second with eight points.

BOSTON POLICE AFTER PAID BALL ON SUNDAY

Boston, April 18—Passing the hat or requiring payment in any form in connection with Sunday baseball games this season will not be allowed by the Boston police it was announced yesterday.

It is said that at a recent Saturday afternoon game, tags were sold good for admission to see the same clubs play again Sunday afternoon. The police say that so far as they know no admission was charged last season for Twilight League games on Sunday.

It is understood that club officials and members will be expected to co-operate with the police in preventing any money collections in any form. Wherever the law is violated, the police are to secure names and addresses of offenders.

Montreal, April 18—While Montreal has won the Eastern basketball title, and has been invited to compete for the Dominion championship to be staged here, there seems very little possibility that this will come to pass.

Coach Nicholson of the Montreal Amateur Athletic Association team, which won the Eastern title last night waited on the City and District Basketball League and was assured of their moral support in holding the title finals here, but nothing more substantial than this. As expenses would run to about \$2,500, there is little probability that the games will be played.

It has struck a Kansas paper as funny that the telephone bill never goes to the wrong number.

LEGAL TANGLE IN QUEBEC HOCKEY TO STAND LATE

**St. Francois Xavier Case
Not for Trial Until
November Next—
Over Issue of Cards.**

Montreal, April 19—The amateur hockey legal tangle is not likely to be untangled till some time next November, according to the opinion of Walter A. Merrill, K. C., who is handling the legal end of the quarrel for the Quebec Amateur Hockey Association, as represented by Finch, Leo Burns and Frank Morrissey. The roll of cases to come up before the court for the month of May is already complete and the June roll will be made up on May 15th. Therefore it is highly probable that the hockey case not being a summary case, will not reach the courts till the autumn sessions in November.

The St. Francois Xavier Hockey Club, represented by Maurice Forget, have added two amendments to the writ they caused to be served on the Q. A. H. A. officials last Saturday. The amendments were made on Wednesday, and in brief state that the Sons of Ireland were not issued Q. A. H. A. amateur cards until after the protest was filed, also that a certain official was known to admit that the Sons of Ireland were ineligible for the Allan Cup play-downs.

According to the rules of legal procedure, the Q. A. H. A. are given six legal days to return the writ to court, six days after which they must enter a plea, if there is no further delay. The St. Francois Xavier are then given six legal days wherein to answer the plea. Then the case is allotted a place on the court roll, and if there are no further developments the case rests until the actual hearing in the courtroom.

BILL PHILLIPS HAS OIL AND GAS STATION

Bill Phillips of the Montreal Maroons will operate a gas and oil station at Thessalon, forty miles from Sault Ste. Marie. The great Montreal centre player owns a fine summer resort and can tell more fish stories about fishing than can the average athlete. Phillips, the idol of the Soo, has become equally popular in Montreal, where most of the critics laughed in derision when the suggestion was made that he would not make the grade. He succeeded, however, and also made it possible for the Maroons to win the Stanley Cup.

Great Interest Shown In First Aid Study

Twenty-six blue-coated, brass-buttoned, be-medalled, Canadian Pacific Railway policemen were on hand to greet Lord Edmund Allenby, conqueror of Palestine, when the famous soldier visited Montreal recently. They stood smartly at attention while the English general laid a wreath on the monument to the fallen soldiers in the Windsor Station and acted as his escort after his tribute.

Every one of these constables is a certified St. John Ambulance Association First Aid graduate. They are among the best first aid teams in the country.

Since the inauguration of the Canadian Pacific Railway Council of the St. John Ambulance Association over 25,000 employees have been instructed in the art of rendering first aid. This includes every branch of the service.

Exclusively employed on Canadian Pacific Railway trains, some two hundred and sixty-two employees of the sleeping, dining and parlor cars recently passed the first aid examination prescribed by the St. John Ambulance Association. This group of men consists of conductors, stewards, chefs, waiters, porters and others who are employed on C. P. R. trains only.

The men who passed the examinations studied in their own time and without a shadow of compulsion. They voluntarily underwent a two months' course of instruction by one of the Company's First Aid instructors.

In all, 421 employees took these classes, but a number of these men were engaged on long-run trains and so were unable to attend all the classes owing to absence from town. Accordingly they did not present themselves before the medical examiner, as they felt they were hardly prepared to pass the searching test involved. The knowledge they have

gained, however, will stand them in good stead when the next series of classes is held.

The foregoing information came in the form of an announcement at the headquarters of the Canadian Pacific Railway in Montreal and is striking illustration of the enthusiasm with which First Aid instruction is regarded by the railway employees. First Aid classes are now being held at Quebec, Three Rivers, Montreal, Ottawa, Hull, and Smiths Falls in Eastern Canada and are being well attended by employees in all branches of the C. P. R. service.
