FEMALES OF  
THE SPECIES  
IN TROUBLE

Bronx Police Raided a  
Gambling House  
Early Today.

HUSBANDS HAD  
COMPLAINED

Twenty-five Women and  
Five Men Were in  
the Place.

(Special to The Daily Mail by the  
British United Press.)

New York, N. Y., June 5—Women  
dived for windows and under beds  
and several fainted early today when  
detectives raided an apartment in the  
Bronx.

Twenty-five women and five men  
were in the place. Police arrested Mrs.  
Gusbie Brunberger wife of a real  
estate man, on a charge of keeping  
a gambling establishment.

Husbands of numerous Bronx wo-  
men had complained to the police that  
their wives were losing heavily in the  
place and wanted it raided.

Two of the husbands volunteered to  
sit in the game to get evidence, which  
enabled the police to raid.

FRASERS' DRIVE  
ON TOBIQUE IN  
SAFE WATER

Plaster Rock, June 4—Stream driv-  
ing conditions on the Tobique wa-  
ters although unusually late are favor-  
able, as far as the Fraser Companies  
Ltd., cut is concerned. The entire cut  
of about 22,000,000 feet is considered  
in safe waters and will probably be  
in the booms within the next ten  
days.

Rumors are current in the village  
as to the significance which can be  
attached to the purchase by Donald  
Fraser, of the Fraser Companies, Ltd.,  
from George Ridgwell, of a 200-acre  
property which fronts on the very  
centre of the village. The residents  
are hoping that this may mean a new  
industry for the place.

KIWANIS  
PAY VISIT TO  
JASPER PARK

(Special to The Daily Mail)

Jasper Park Lodge, Alta., June 5—  
Two hundred Kiwanians from Cali-  
fornia who are travelling over Cana-  
dian National Lines to Montreal  
where they will attend the Interna-  
tional Convention of Kiwanis stopped  
off at Jasper Park Lodge and while  
their special train waited for them  
they motored over the new Cavell  
Highway to the Glacier of the  
Angel at the foot of Mount Edith  
Cavell. There with bowed heads  
they paid a silent tribute to the  
gallant nurse in whose memory  
Mount Cavell was named. The  
Kiwanians are going via Toronto  
and Niagara Falls where they will  
be joined by other branches of the  
order before proceeding to Montreal.

QUEBEC BEER  
FOR THE LIQUOR  
COMMISSION

A Seizure Made Yester-  
day at C. N. R. Station  
in Moncton.

WAS PUT IN  
BOND ROOM

Was Consigned to Fic-  
titious Parties in  
Moncton.

Moncton, June 4—Sensational dis-  
closures came to light here today as  
a result of a raid made by prohibition  
officers at the C. N. R. local freight  
sheds, when it was found that Que-  
bec beer, shipped here allegedly in  
violation of the law, was being given  
"bond room" protection at the local  
sheds. The discovery was made by  
District Chief Prohibition Officer W.  
N. Goodwin, of the New Brunswick  
enforcement squad, accompanied by  
Inspectors J. J. Bourgeois, J. R. Sul-  
livan and Douglas Keiver, when they  
paid a visit to the sheds to see if any  
such beverages was being brought in  
"underground." Their efforts were  
fruitful, for they arrived on the scene  
at the physiological moment when  
what turned out to be the last barrel  
of a consignment they believed to be  
Quebec beer, was being wheeled into  
the bond room by freight handlers.

The inspectors requested that the  
barrel be put down and this was done.

The man standing at the bond room  
door immediately locked it and when  
asked by the chief inspector to open  
it so they could continue their search,  
he informed them that he could not  
do so and that they would have to  
see Mr. Ayer, the freight agent. Mr.  
Ayer was immediately called and he  
responded to the request of Mr. Good-  
win, who thereupon telephoned the  
C. N. R. police department. Railway  
Officer Joseph H. Wedge responded  
and assisted the inspectors in opening  
up six barrels and six cases of what  
turned out to be Frontenac and Dow's  
Ale.

## Billed as Soda.

Upon examination of the waybills  
covering the consignment it was found  
that it contained seven barrels and  
seven cases of "soda" and apparently  
a barrel and a case had got safely  
away before the arrival of the en-  
forcement officers.

The six barrels contained approxi-  
mately five dozen quarts apiece or 360  
bottles and the six cases had approxi-  
mately four dozen pints in each or 288  
bottles. The estimated retail value  
here is figured at \$350. The goods  
were afterwards sealed up again and  
consigned to the New Brunswick  
liquor commissioners at Fredericton.

JOHN D. ROCKEFELLER  
ADVISES PEOPLE TO  
USE COMMON SENSE

The Standard Oil Millionaire Will Celebrate His  
Eighty-Seventh Birthday Next Month—Just  
Back From the South He is Going Strong on  
the Golf Links—Tells People How to Live  
Long.

(Special to the Daily Mail by the British United Press)

TARRYTOWN, N.Y. June 5—John D. Rocke-  
feller gave away some advice Friday regarding  
the attainment of such wealth as he possesses and  
good health. "Don't worry, don't hurry, eat spar-  
ingly and take your time about it", advised the  
multi-millionaire. By the application of these  
principles Rockefeller disclosed he had been able  
to live 86 years. Next month he will celebrate his  
87th birthday. Rockefeller returned to Pocantico  
Hills from the south a few days ago. He is playing  
nine holes of golf in 44 from time to time accord-  
ing to reliable information and feels quite spry.

Asked by a friend as to his diet, he replied  
petulantly:

"I'm not on a diet; I eat what I like but eat  
moderately. Then too I never get up from the  
table in a hurry. If people will use common sense,  
their stomachs will benefit."

"Sometimes an old friend dies, but I try to  
make new ones" he continued.

"There is too much trouble in the world. I try  
to spend my worries". Rockefeller is still giving  
away souvenirs—bright new dimes.

BEAR HAD  
A COOL RIDE  
ON ICEBERG

New York, June 5—A polar bear  
on a mammoth iceberg floating in  
the Atlantic 1,180 miles from New  
York, was reported by passengers of  
the Hamburg American liner Ham-  
burg, which docked yesterday.

The iceberg, 2,000 feet long and  
rearing its apex 100 feet out of the  
water, was seen when the liner was  
off the Grand Banks of Newfoundland  
at 2 a. m. Friday. Commander Kjaer  
said. The vessel was at one time with-  
in eight miles of the berg.

IT AIN'T GONNA  
RAIN NO MORE,  
WEDDING MARCH

Miami, Fla., June 5—Aboriginal  
America met modern America half  
way at Musa Isle, near here, today  
when Tommy, a chieftain of the Sem-  
inole tribe, married Edna John, his  
girlhood sweetheart of the Ever-  
glades.

Chief Tommy, however, softened the  
tribal customs somewhat. He marched  
to the "altar" with his bride to the  
once popular jazz tune, "It Ain't  
Gonna Rain No More," played by a  
mechanical piano. The actual cere-  
mony complied with the Seminole  
law.

CAN MIX SOME  
NEW DRINKS

New York, June 5—Harry Craddock  
once popular bar-tender in New York,  
now in London, wrote friends here  
that he has learned to make 280 new  
drinks since he left here in 1920 and  
wants to come back and show his new  
tricks. He has been informed the time  
isn't ripe.

EARLY RELIGION  
SOUGHT IN LAND  
OF HITTITES

Chicago, June 5—An expedition of  
the University of Chicago Oriental  
Institute to the Hittite country in  
search of the first traces of a religion  
of ethical content is announced by  
Professor James H. Breasted,  
Egyptologist, for the University of  
Chicago.

"We feel confident of finding there  
the evidence of man's earliest feel-  
ings, a new chapter unfolding the prin-  
ciple of right and wrong and a re-  
ligion which contained the command-  
ments, 'thou shalt not.'"

A WARNING  
TO BACK SEAT  
CAR DRIVERS

San Francisco, June 5—"Back-seat"  
automobile driving is a just cause for  
divorce. The state supreme court so  
rules.

Claude H. Harman of San Fran-  
cisco, locomotive engineer, sued in  
the lower courts for a divorce on the  
grounds that his wife belittled his  
ability as a driver by telling him from  
the back seat just how he should  
negotiate the curves ahead.

The trial court refused the decree,  
and Harman appealed with success.

INFANT BORN  
IN TAXI CAB

Chicago, June 5—A driverless cab  
halted traffic on a busy street. A pa-  
rolman went to investigate. He found  
the driver had left his car to care for  
his passenger, Mrs. O. E. Anderson,  
and a 7½ pound baby which had been  
born in the cab en route to the hos-  
pital. Both mother and baby are re-  
ported as "doing fine" at the hos-  
pital.

HARRY THAW  
ONCE MORE IN  
LIMELIGHT

Dined With Wife and  
Son Yesterday at At-  
lantic City.

WILL DENY A  
CHICAGO STORY

Evelyn is Stirred by a  
Press Report Concern-  
ing Her Son.

(Special to the Daily Mail by British  
United Press)

Atlantic City, June 5—The Thaws  
appear to have buried the hatchet.

Harry K. Thaw slayer of Stanford  
White and Evelyn Nesbitt, the wife  
over whom he killed White resumed  
the role of friends again today after  
almost twenty years.

With them was their fifteen year  
old son, Russell Thaw whose paternity  
Thaw questioned when he and Evelyn  
were divorced.

Both refused today to discuss whe-  
ther they had effected a complete re-  
conciliation or simply had decided to  
end the state of "armed neutrality"  
which has kept them apart.

Atlantic City was astonished last  
night when Thaw, Evelyn and Russell  
with a lawyer appeared at a big hotel  
and dined together, like friends after  
a long separation.

The purpose of the meeting, both  
Evelyn and Thaw declared, was to  
frame a strong denial of a Chicago  
story that a boy named Russell Thaw  
had entertained feminine companions  
in a lavish fashion, and neglected to  
pay his hotel bill.

There have been many troubles—  
only this is too cruel for my son has  
never been in Chicago except when  
he was with me, was the text of a  
signed statement given out by Evelyn  
after the dinner.

HARRY THAW  
WRITES A BOOK

Philadelphia June 5—Harry K.  
Thaw has written a book.

Now that he is free from the  
complications that arose from his  
killing of Stanford White, Thaw  
has taken to print.

Those who have read the first  
proofs say it is one of the strangest  
pieces of literature ever to be run  
through a press. The title is being  
published here.

"I never wanted to write but I  
had to write this," says Thaw on  
his last page.

It is a frank story of himself his  
former wife, his victim, his friends  
and enemies.

## Classification of Eggs

In Saint John a couple of days ago  
a dealer was convicted of exposing  
eggs for sale by retail without having  
them marked according to their clas-  
sification under Dominion Statute. A  
fine of \$20 was imposed. Greater care  
is being exercised in the sale of eggs  
and the law must be observed. An in-  
spector is at work watching for viola-  
tions of the law. The size of the eggs  
and their freshness determines the  
classification which they may be given.  
Eggs may be shipped marked "un-  
graded" but must be graded before be-  
ing offered for sale. No action in re-  
gard to the enforcement of the law  
has been taken in Fredericton so far.  
In struction in the provisions of the  
law are given before enforcement of  
them is made.

## Growing Peanuts

W. L. Anderson of this city has an  
unusual crop seeded in his garden.  
Mr. Anderson planted them last year  
and was successful in growing the  
nuts. The latter are tubers and are  
produced underground by the plants.  
Col. J. J. Bull of Woodstock formerly  
grew peanuts on his farm and was  
successful in producing the nuts in  
matured form.

oned by Eating  
Headcheese.

A SAD STORY  
FROM OSHAWA

The Coroner Now Con-  
ducting an Investi-  
gation.

(Special to the Daily Mail by British  
United Press)

Oshawa, Ont., June 5—One child is  
dead and seven persons are in a hos-  
pital in more or less serious condi-  
tion, the result, it is believed, of eat-  
ing poisoned meat in the form of  
headcheese.

Kathleen Gravelle, aged 9 years is  
dead. Mrs. Gravelle, mother of the  
child, her nursing baby and five other  
children are in the hospital. Michael  
Savich, aged 10, and Alex. Kebernic  
are the other victims. Coroner J. F.  
Runde is at present conducting an  
investigation of the case having or-  
dered an examination of the contents  
of the dead girl's stomach. The result  
will determine whether an inquest is  
to be held.

DRIVER OF CAR  
WAS GIVEN  
THIRTY DAYS

St. Stephen, June 4—George Low-  
den, who was on trial in Milltown,  
having been arrested on a charge of  
driving a car while under the influ-  
ence of liquor, was today sentenced  
to 30 days in jail.

Lowden was the driver of the car  
which struck and fatally injured a  
Milltown lad named George Brewer  
on Saturday, May 22. At the inquest  
into the death of young Brewer the  
jury rendered an open verdict declin-  
ing to place responsibility for the  
death of the boy.

A CLOSE CALL

Worcester, June 5—Eight freight  
cars, some of them loaded, passed  
over Martin Burns, 38, of South Bos-  
ton, this morning, but left him unin-  
jured. Burns told the police he was  
looking for work and tried to board a  
freight train. He fell, but in such a  
manner that his body was lengthwise  
between the rails. His coat was torn,  
but the frightened railroad men who  
hurried him to City Hospital, were  
told that he was not even scratched.
