WEEKLY CROP REPORT OF BANK OF MONTREAL

Halifax, Sept. 11—Early threshing returns are favorable both as to yield and grade over large areas in the Prairie Provinces, but harvesting operations have been held up by heavy rains for the greater part of the past week. Some sprouting in stocks has taken place for several days of clear cool weather are necessary before the threshing can be resumed generally. In Quebec crops in general are satisfactory with average yields. In Ontario harvesting has again been interrupted by heavy rains which have done further damage to late grains. All other crops are doing well but dry weather is needed. In the Maritime Provinces weather conditions generally have been good and crops are making satisfactory progress. In British Columbia favorable weather continues and grain and apple crops are averaging up well.
Maritime Provinces.
In all parts potatoes are promising well especially as to quality. In New Brunswick oats may be short and there has been some frost damage. In Nova Scotia more rain is required. Apples are coloring well and the quality is improving but the crop will be short. In Prince Edward Island all crop conditions are good.

JEWS ARE PLENTIFUL IN THE U.S.

New York, Sept. 11—There are more Jews in the United States than in any other country in the world, says David Trietsch, a German-Jewish scholar and authority on Jewish statistics, in the Jewish Tribune today.
Estimating the Jewish population of the world at 18,080,000—an increase of 150 per cent. since 1881—Mr. Trietsch says the number of Jews in this country is 4,400,400. Poland has a Jewish population of 4,000,000, and Russia is next, with 3,600,000.
New York leads the cities of the world with a Jewish population of 2,000,000. Warsaw is next, with 400,000, followed by Chicago and Vienna, with 300,000 each.

ROYAL BABY CANNOT TOUR WITH PARENTS

Duchess of York is Paying the Price of Prominence.

WILL VISIT AUSTRALIA No Place for Babies on Official Tours of Royalty.

(Special cable to The Daily Mail by the British United Press)
London, Sept. 11—The Duchess of York is paying the price of prominence. Only a few months ago she gave birth to a baby princess who some day may be Queen of England and now she is looking forward with sorrow and probably accompanying tears to what will seem to her an interminable parting. She and the duke, the King's second son are going to Australia on a long official visit in January, and there is no place for babies on royal official tours.
So wherever the Duchess goes now, the baby goes too. She is seldom parted from her for an hour if she can help it. "I must make the most of her," she said to a friend recently. It will seem like a life time while I am away from her."

BROADCASTING THE FACE LATEST EXPERIMENT

London, Sept. 11—"I knew it was you by the sound of your face" may soon become a common salutation. Already radio listeners all over England know the sound of Capt. Hutchinson's face. It is a low, droning sound like a far-away airplane.
Capt. Hutchinson has been broadcasting his face on a 200-metre wavelength for several weeks, experimenting in the new science of "television" sending motion pictures by radio broadcast.
His face registers in ordinary receiving sets only as a continuous hum, but when the "television" apparatus is hooked in, his face is shown on a screen so that the hearer of his words can tell, while he listens, whether the captain is smiling or serious.
The British government has just issued the first two "television" licenses on record, one for the London office of the company, Television, Ltd., the other for the company's experimental shop at Green Gables, Harrow.

CLAIMS HE IS A SCOTCHMAN

Camloops, B. C., Sept. 11—With reference to a dispatch from Ottawa to the effect that his right to run as a candidate had been questioned on the grounds that he had been born in the United States and that there had been no record of being naturalized in this country, Jos. Graham, Liberal candidate in Cariboo constituency, today declared that he was born in Ayrshire, Scotland, and, although he spent a short time in the United States as a minor he never took out papers and automatically continued his British citizenship on his return to Canada.

Good Town For Beggars.
An observant citizen says that this seems to be a good town for beggars and that he happened into a bank the other day when a man who had been begging for a couple of days on Queen street, came in to get the silver he had received changed into bills. He says that he was amazed to see the amount of silver the man had collected.

ANOTHER ATTEMPT MADE ON THE LIFE OF ITALIAN DICTATOR

Bomb Hurled at His Automobile as He Was Leaving the Public Works Department Building at Rome — His Assailant Was Promptly Arrested—Premier Was Unhurt But Five Others Were Injured.

(Special to the Daily Mail by the British United Press)
ROME, Sept. 11—A bomb was thrown here today at Premier Mussolini. He was not injured however. This was the second recent assault on the Italian premier. A few months ago he was shot through the nose by a British woman, but was only slightly injured. The bomb was thrown in front of the Public Works department building. Mussolini was unmoved by the attack, and calmly directed his chauffeur to drive him to the foreign office.

Two more bombs were found in the pockets of the Premier's assailant who was promptly arrested. The attack was made shortly after Mussolini had left Villa Torloia, his summer residence.

Five Were Injured
Berlin, Sept. 11—A telegraphic union dispatch from Geneva says that five persons were injured by the bomb which was thrown at Premier Mussolini of Italy in Rome today. The dispatch specified that Mussolini escaped unhurt.

OLD ANANIAS AN APOSTLE, NOT A LAWYER

Damascus, Sept. 11—Every American who comes to Damascus is told: "Don't fail to visit the house of Ananias."
Although after three in Syria, visiting Beirut, and other large cities, and listening to some of the tales that are being related by the various sects and parties, one begins to feel that Ananias was greatly overrated and were he living in these days, in these parts, he could not hold down a berth in Class D of Liars League, one feels that he cannot leave Damascus without calling on the patron of prevaricators.
He occupied a fine house, as far as houses go in Damascus, and must have been a prosperous old gentleman.
Did he have any other profession besides that of a liar? a guide was asked.
"Lawyer, he was not a lawyer, there were no lawyers in those days," the guide who learned his English in England replied reprovingly.
"Liar! Liar!" was the emphatically repeated query.
"Aah! a fibber, you mean," came back the Anglo-Syrian with a look of intense surprise surprise. "Why this man is not known because he was a liar but he is the man who converted Saint Paul."
They have never heard of Ananias the liar, in this part of the world.

A MIDGET CHANGES NAME

Washington, Sept. 11—"Midget" is hardly an appropriate name for a man six feet tall, Thomas O'Neal Midgett, Jr., told the District of Columbia supreme court hearing his application that it be changed.
Because of embarrassment he suffered, the court granted his petition. Today he is officially Thomas O'Neal Jr.
S. J. Robinson if Montreal is at the Barker House.

STRAW HAT FASHION HAS BEEN REVIVED

London, Sept. 11—Straw hats are almost obsolete in England, but they have just received a last-minute revival through the appearance on the streets of Prime Minister Baldwin topped with a "boater", as the straws are called in England. The premier's political audacity in sponsoring a form of headgear which has almost passed out of the book of styles has caused much comment.
While straw hats are in disfavor, however, the "topper" is enjoying a boom. Not since the beginning of the war have so many shiny tall hats and collapsible opera hats been seen in London. The manufacturers are busy, not only meeting the demand of the male dressers, but also satisfying a new fashion in women's millinery, which suggests that a crown of the same material of which "toppers" are made will supersede the interminable felts this winter.

MAINE ANGLER PLEASED WITH N.B.

Mr. H. M. Hanold of Standish, Maine, who recently visited this city with a party of friends and afterwards made a successful fishing trip to the Miramichi has written the following letter of appreciation to Mr. Raymond M. Currie:
"No doubt Mr. McDonald has told you of our trip to Boiestown and the results. We certainly enjoyed ourselves greatly and the only drawback to the trip was that we did not have more time to enjoy it.
"I want to thank you for the courtesies rendered and if you ever come to our country and this section we would like very much to have you look us up. Another season and I shall certainly make another trip to New Brunswick."
Miss Jean Tennant who is studying nursing at Lynn, Mass., is spending her vacation with her mother Mrs. Matthew Tennant.

BAKERS AHEAD AS SWIMMERS OF THE CHANNEL

Have One on Butchers and Candle Stick Makers.

MICHEL HAS SHOP IN PARIS French Enthusiasm May Put Him on His Feet.

(Special cable to The Daily Mail by the British United Press)
Paris, Sept. 11—The bakers are now far ahead of the butchers, candlestick makers and all others in the free for all art of channel swimming.
Ernest Vierkotter the German who recently broke Gertrude Ederle's record was a baker boy, of Cologne. He has since made enough money to buy himself a first class bakery.
Georges Michel, who broke Vierkotter's record, operates a small bake shop in Paris. French enthusiasm over his feat may mean enough money to provide him with a whole chain of bakeries.

HON. MR. STEVENS MAKES REPLY TO HIS CRITICS

Vancouver, Sept. 10—Replying to what he termed "personal bitter attacks directed against him by a local newspaper and imported individuals," in connection with the franking of personal mail and his connection with an oil company, Hon. H. H. Stevens, Minister of Customs, in addressing a political gathering here last night declared: "They accuse me of franking personal mail as though it was a heinous offence.
He explained that franking was a privilege extended to, and enjoyed by all members of Parliament, and "his traducers knew this as a fact," he added.
He declared that the charge of using government stationery was equally baseless. Every member uses House of Commons note paper, he said.
Mr. Stevens again explained the so-called oil scandal. This was merely a bad investment such as many business men or private individuals are liable to make. He did not promote the company having started in it merely as a share holder and afterward accepting office as a director.

DUNC MUNRO NOT RUGBY COACH

Montreal, Sept. 10—Many rumors have been making the rounds of local rugby camps lately that Dunc Munro, well-known Maroon hockey captain and previous to turning professional, star backfield player of Toronto Argonauts, would take over the coaching reins of either Canadian Nationals or the Quebec Rugby Football Union, or Loyola College in the Quebec District of the Intercollegiate series. These rumors are, however, all unfounded, as The Star learns on good authority that the hefty athlete will not take any active part in rugby this season.
Munro never really considered linking up with the Canadian National team but had practically decided to look after the Loyola boys four afternoons each week. He has now given up the latter proposition and due possibly to ill health which has been dogging his footsteps since the hockey season, has definitely decided to "lay off" athletics until the hockey training season gets underway.
T. P. Goodwin a well known commercial man of Montreal is in the city today.

SOME MORE OUTRAGES REPORTED

British Gunboat and Merchantmen are Fired Upon.

FLAGSHIP IS DUE IN HANKOW Her Commander Will Formulate Plans of Action.

(Special cable to The Daily Mail by the British United Press)
London, Sept. 11—The Daily Mail's Shanghai correspondent has reported further outrages to British warships and merchantmen. A British gunboat has been fired upon, and hit while every foreign ship entering Hankow has been fired upon, according to the Despatch.
The 10,000 ton flagship, H. M. S. Hawkins, is expected momentarily in Hankow, and it is understood its commander will formulate plans for action to be put in force if necessary.
