

G. B. RECOVERING FROM STRIKE

OLD COUNTRY GETTING BACK TO NORMAL

Work Was Resumed This Morning in Many Lines.

TRAFFIC IS RESTORED

Newspapers Able to Return to Their Usual Size.

Special cable to the Daily Mail by the British United Press.

London, May 17.—"Subject to limitations imposed by conditions of the coal strike, work was resumed this morning throughout Great Britain in almost normal conditions", the official Government communique on the strike said today.

It recounted that agreements had been signed under which railway omnibuses, tram car transportation had been subsequently restored; work at the docks was resumed today and an agreement between the publishers and employees "enables London evening newspapers to return to their usual size and appearance today".

FREDERICTON BOY HOME FROM SEA VOYAGE

Paul Currie, a Former High School Student, Back From Trip to Peru.

After a voyage in an oil tanker which took him through the Panama Canal and across the Equator to Talara, Peru, Paul Currie, son of Mr. and Mrs. Raymond Currie arrived home at noon yesterday. He was a member of the crew of the Imperial Oil Company's steamer Vancoillite, and after discharging her cargo at Halifax last week, she proceeded to New York and was turned over to the Standard Oil Company. Capt. Skinner of this city, first officer of the Vancoillite, has taken another steamer and will leave in a few days for Germany, but will return early in the summer to Halifax. Mr. Currie says that while at sea he devoted his spare time to the study of navigation and likes it very much. The voyage from Halifax to Peru and return occupied thirty days. Good weather prevailed the greater part of the time and the work on the steamer was not hard. The trip through the canal proved very interesting, and at one point some colored men engaged in shooting alligators, provided entertainment for the ship's crew. During the voyage down the Pacific Coast, they ran into thousands of wild ducks. They also saw many sharks and succeeded in catching a few of them. Mr. Currie while in New York had an offer to go on a six months' voyage to Australia, but declined it. He plans to join his uncle in Halifax early in the summer on an Imperial Oil steamer and make another voyage to Peru. During his southern voyage Mr. Currie crossed the equator twice and was rather disappointed in not receiving a visit from Neptune.

A WOMAN NAVIGATOR

London, May 17.—Miss Francis Knowles-Foster is such a skilled yachtswoman that she does not need any skipper to direct her movements about the world. She recently made a trip from Old Windsor to Stockholm with only her uncle and one other man to assist her, and will navigate the boat back to England herself.

REJOICING IN ROME OVER POLAR FLIGHT

Commander Nobile

Makes Report to the Chief of Staff.

DUTIES WERE CARRIED OUT

People Celebrated the Event With a Festival of Joy.

Rome, May 16.—The final lap of the Norge's historic flight from Rome to Alaska—that over the North Pole and the unexplored regions—covered 5,300 kilometers in three days, Commander Nobile has informed General Piccio, aeronautical chief of staff.

"The airship and crew fully carried out their duties," he added, laconically. A constant stream of messages has passed between Rome and Alaska, but thus far the minister of aeronautics has not received the report which the Italian airman promised in his message announcing that he had landed at Teller and all was well. Rome today presented a striking contrast to last evening—wild excitement which greeted the news of the Norge's safety, ending the anxiety.

Romans Celebrated.

The people of Rome last night celebrated the Norge's arrival in Alaska with a festival of joy. Flags were flying everywhere and processions filled the streets. There was much singing of National and Fascist songs, bells pealed forth and public buildings were brilliantly illuminated. The modest apartment in the Via Ferrari, where the North Pole hero Nobile resides with his young wife, Carlotta, and their 8-year-old daughter, Maria, was today transformed into a shrine of Italy's patriotic devotion.

Signora Nobile broke into a violent fit of weeping when the agony of waiting and hoping terminated last evening, Sunday was a joyous and proud day, but for little Maria, it was even more.

Unfair to Other Veterans.

The habit of a returned man who has been about Fredericton the last day or two, in approaching people for financial assistance, is not appreciated by other veterans. The man claims to have a seventy-five percent pension. That fact with the existence of funds for the assistance of returned men in straitened circumstances should make it unnecessary to make the appeals which he does.

Boy Held By Police.

A boy who has been under police observation for some time for refusing to stay at home, sleeping about sheds and outbuildings and on suspicion of theft, appeared before the police magistrate this morning in the Juvenile Court. He was given a remand for future consideration of his case. The boy had been complained of previously by his father.

Second Break in Class.

In the death of Dr. Howard Fritz which occurred at Saint John during the week-end, the second break in the Class of '84 of the University of New Brunswick has occurred. At a dinner held in this city in 1920 the class attended in a body no break having occurred. The first break was the death of John R. Dunn of Gagetown. C. W. Hall of Fredericton is a member of the class.

Little Child Strayed Away.

The little child of Mr. and Mrs. R. K. Nevers, Lansdowne street, strayed from its home Sunday morning and was believed to have followed Mrs. Nevers when she went to morning service. The police were notified and other searches also looked for the little one. The child was found between two and three o'clock in the afternoon and taken to its home.

PAVING THE WAY FOR GERMANY'S ENTRANCE TO LEAGUE OF NATIONS

The Council Has Approved a Plan for Handling the Situation—Permanent Membership on the Council May be Increased by Three—Poland, Latin America and China May be Given One Each.

(Special to the Daily Mail by the British United Press)

GENEVA, May 17.—A plan under which it is believed the controversy which prevented Germany from becoming a member of the League of Nations at the recent Geneva meeting, will be settled was approved today by the League of Nations council commission handling the question.

The plan would increase by three non-permanent memberships on the League Council, of which it was tactily understood Poland, China and Latin-America would be given one each.

The commission expected to adjourn until June for the final adoption of the plan, and also to permit diplomatic exchanges intended to induce Spain and Brazil to withdraw their candidates for permanent memberships.

Germany failed to become a league member when a controversy arose over council memberships.

THE BUDGET DEBATE MAY END TOMORROW

Ottawa, May 16.—Both Premier King and Rt. Hon. Arthur Meighen, Conservative leader, plan to speak on the last day—Tuesday, of the budget debate.

In Liberal circles, expectation is that the budget resolutions will carry by a majority of about ten. Hon. J. A. Robb, Minister of Finance, will have some amendments to bring down. But these, it has already been announced, will not make any changes in principle. One of them will propose a change in the definition of automobile parts for customs purposes.

How long the session lasts following end of the budget debate will depend upon a large extent on the customs inquiry committee. A large field still remains before the committee and the taking of evidence is not likely to end before the close of the present month. Little supply also has been voted by the House.

There is talk of prorogation by the third week in June.

WOMEN SCORE AS BICYCLE RACERS

New Brighton, May 17.—Women as bicycle riders have come back in England after a lapse of 25 years.

Thirteen fair riders made cycling history here when they competed in the first race for women only ever held under the rules of the English National Cyclists' Union. There were 12,000 spectators, the event having attracted much attention because many sport and society officials had said that cycle racing is too strenuous for both girls and women.

The race of one mile was won by Miss Carrie Garrett age 18 of Aintree, in 2 minutes 49 4-5 seconds.

TO VISIT MONTREAL.

Montreal, May 16.—Rt. Hon. Arthur Meighen has accepted the invitation of the Montreal Conservatives to visit the eastern metropolis during the present session and he will address a meeting here on June 4.

MINERS MAY REMAIN OUT FOR SOME TIME

London, May 16.—The last members of the general strike are dying down and with the exception of the miners who are likely to remain out until a satisfactory agreement is reached the country is rapidly resuming normal conditions and the people and the government are beginning to count the cost.

No final estimate is yet possible but the general impression in governmental circles is that the loss will be less than the cost of the coal strike in 1921 which is generally thought to have been in the neighborhood of £200,000,000.

Winston Churchill, Chancellor of the Exchequer, in his recent budget statement announced that in the event of such a labor movement it would be necessary to revise his budget proposals and this subject is now under consideration by the treasury.

FRENCH AND BELGIAN FRANCS ON THE SLUMP

(Special to the Daily Mail by British United Press)

New York, N. Y., May 17.—French and Belgian francs dropped to a new record low at the opening of the foreign exchange here today. French francs were sold at 2.99½ cents off three points from Saturday's last price, while the Belgian currency fell off to 2.9312 cents, a loss of more than one tenth of a cent over the week end.

ANGLER WAS CHARGED BY DEER

Hibbing, Minn., May 17.—When three deer found their way blocked on a road near here by a small touring car they charged the machine, knocked it off the highway and so badly damaged it that it had to be abandoned. One deer was seriously injured. The others fled.

NEW GOV'T OF POLAND IS RECOGNIZED

Foreign Legations Used Good Office in Its Behalf.

REVOLT WAS SUCCESSFUL

Legations Raised National Flags to Get Immunity.

(Special cable to the Daily Mail by the British United Press)

Warsaw, May 17.—Recognition of the government of Marshal Joseph Pilsudski in Poland, set up as a result of his apparently successful revolt, which forced the resignation of the previous government was virtually accomplished today.

It was done through the representatives of numerous foreign governments visiting the heads of Pilsudski's regime.

The American, French and Soviet legations were among the first to take up connections with Pilsudski's government.

During the heat of the fighting which marked the revolt all legations raised their national flags to assure immunity from attack.

Through an alleged misunderstanding Pilsudski's troops entered the French legation. It was understood, however, they withdrew immediately and Pilsudski expressed his regret. The Soviet legation refrain from hoisting a red flag but barricaded its premises. It was not molested.

EXPLOSION OF BOMB NEAR U. S. EMBASSY

Special cable to The Daily Mail by the British United Press.

Buenos Aires, May 17.—The explosion of a bomb placed near the front door of the United States Embassy here last night slightly damaged the structure. A part of the outside wall was wrecked and a passerby was injured though not seriously.

CROWN CLOSES ITS SIDE OF MURDER CASE

St. Andrews, May 16.—In the case of Lloyd Johnson, being tried on the charge of murdering James Lord at Deer Island on Dec. 5 last, which is being heard here before Mr. Justice Byrne, the Crown completed its evidence on Saturday afternoon. Witnesses on Saturday gave some very damaging evidence against the accused, brothers of the victim of the shooting giving details of the drinking bout and other incidents of the night the shooting took place. One of the brothers, Charles Lord, stated in effect, that the accused had deliberately shot his brother, James Lord, after picking a quarrel, and also threatened the whole party, afterwards again threatening other members of the party if they mentioned the affair. This evidence was corroborated by Hazen Lord, another brother of the victim of the affair. Both witnesses were subjected to a grueling cross-examination by counsel for the defence.

Audley Butler, another witness for the Crown, said Johnson had admitted on the day of the inquest, that he did the shooting and meant to, but had no intention of killing Lord.

The case for the defence will open Monday morning.

Has Resigned Position.

Miss Marguerite Porter instructor in reading and expression in the Provincial Normal School, has tendered her resignation, which has been accepted by the Department of Education.

CZARINA'S FURNITURE WILL BE SOLD

Fifteen Carloads are Being Forwarded From Leningrad.

ARTICLES OF GREAT VALUE

Several Hundred Thousand Rubles Expected to be Realized.

Special cable to the Daily Mail by the British United Press.

Moscow, May 17.—The bedroom furniture of the late Czarina of Russia will be sold at auction here, with other valuables of the former royal household.

Fifteen carloads of these goods are enroute here from Leningrad, the shipment contains the Imperial bedroom suite, paintings, glassware, gobelet tapestries and carpets.

Some articles of particular value will be exported to western European markets.

The sale is expected to realize several hundred thousand rubles.

POTATOES BARRED FROM SOME LANDS

Canada Excludes Them From Parts of United States Because of the Wart Disease—Corn Borer.

The imposition of a quarantine on New Brunswick potatoes and on potatoes from other provinces of Canada has been imposed at various times in the past by the United States ostensibly as a means of protection against disease but it is not generally known that Canada retaliates on other countries by imposing similar quarantine. At the present time a quarantine is on against Europe, Newfoundland, California, West Virginia and Maryland in the matter of potatoes. Wart Disease is what is feared from the Southern States. Some years ago it was Powdery Scab which the New Brunswick potatoes were accused of having.

The Canada Gazette carried the following official notice:—

The importation of potatoes into the Dominion of Canada from Europe, the Azores Islands, the Canary Islands, Newfoundland, the Islands of St. Pierre and Miquelon, and the State of California of the United States of America is prohibited.

Shipments of potatoes from the states of Pennsylvania, West Virginia and Maryland, shall be accompanied by a certificate duly signed by a state or federal official, stating that such potatoes were grown outside any quarantined areas within these states and have been found on examination to be free from Wart disease (Synchytrium endobioticum Perc.) and have not come in contact with infected potatoes, containers or materials.

Shipments of potatoes from all other states of the United States of America shall be accompanied by a certificate duly signed by the consignor stating the name of the state in which the potatoes were grown.

Also Against Corn Borer.

Cumberland and York Counties of the State of Maine, much of Massachusetts, Rhode Island, Vermont and New Hampshire also is quarantined because of the European Corn Borer. A like quarantine also is applied against parts of the Province of Ontario.
