## SUPREME COURT FINDS IT NOT PROVEN THAT R. B. HANSON ALTERED THE NEVERS DECREE

On Charge of Professional Misconduct, Mr. Hanson's Plea of Overwork Causing Negligence Not Accepted—Court Finds Misconduct and Suspends Him Twelve Months, as Barrister and Attorney.

The Supreme Court this morning, in February last when R. B. Hanson, K. C., appeared to show cause. The affidavit submitted by Mr. Hanson at that time was read in full by the Chief Justice who said that in view of the nature of the judgment the affidavit should be read.

Criminal Action Possible. The Chief Justice continuing said that the first charge of inducing an alteration involved a criminal matter as Mr. Hanson could be charged with perjury. There was a direct conflict in evidence between Dr. Allen and Mr. Hanson concerning the telephone conversation. The evidence of Dr. Allen touching on the telephone conversation and subsequent conversations which he had with Mr. Hanson were quoted in full by the court. The Chief Justice commenting on this evidence remarked on the fact that Dr. Allen said he thought the person speaking on the telephone said he was Mr. Hanson, further that it must have been someone who knew all about the Nevers matter. The Court states also that the evidence of G. F. Gregory Bridges was of utmost importance and deserved careful consideration.

First Charge Not Proven. If the evidence of Dr. Allen and Mr. Hanson alone were to be considered the court would not feel inclined to interfere with the finding of the committee of the council of the Barristers' Society, but the evidence of Mr. Bridges was of extreme importance. There also was the fact that the nature of the matter came before the court

Particular importance was attached to the evidence of G. F. Gregory Bridges concerning the conversation which he swore he overheard in the Barristers' Society Library here, between Dr. Allen and Mr. Hanson in which Dr. Allen admitted doubt as to identity of person to whom he talked over the telephone when he was told that Judge White had consented the change in the Nevers decree. By Chief Justice. Chief Justice Sir Douglas Hazen in the matter of Richard B. Hanson, delivered judgment. The case was reviewed by the Chief Justice showing how the matter came before the court
