## Of Interest to the Women

## NEW YORK FASHIONS

Taffeta has triumphed. One glance at the display of the Park and Fifth avenue shops or in the tearooms of the swaggar hotels confirms that fact, which was predicted in these columns three months ago. One smart new daytime dress is made with long, full bishop sleeves, a smartly gathered waistline and a short skirt which is given fullness and swing by wide gathers at either side.

Pleats have a stranglehold on fashion at present. They even clasp the necks of fashion's devotees. The newer scarfs imported from Paris are of georgette in all the soft spring colorings. They have the main portion of the scarf which is wrapped about the throat, pleated while the ends are left to flare open gracefully.

## Long and Short Of It.

A long lapel on a short coat. That is a fairly accurate description of the newest spring suits. The coats may be either double or single breasted, but they must have long peaked lapels and fit tightly about the hips. Sleeves, cuffs and shoulders are narrow and skirts are straight.

Green undoubtedly will be popular for spring this year with women as it has been with nature. But most of the tints are as artificial as the liquors they are named for. For example, there is julep green, with no bourbon whisky in sight; char-treuse green, of which only the label is good; creme de minthe green with a peppermint flavor and bottle green. The latter is legitimate for we still have the bottles.

## In Two Pieces.

Two-piece sports frocks are being almost universally worn in the Southern resorts. But the sweaters which have been holding sway as the upper part of these costumes are now giving place to blouses. The reason is that it is almost impossible to get a sweater to blouse in the back and a slight blouse effect at the back waistline is particularly desired.

## Spring Millinery.

The folds which have been a feature of the small hats have been adopted by the larger models for spring. The late English models are of ballbuntl straw with the crown creased and folded. The brim is wide in front and at the sides, but disappears entirely in the back.

## Jellied Orange and Prune Salad.

1 cup prunes  
2 cups orange gelatin  
2 cups shredded lettuce  
1-2 cup cream mayonnaise

Wash and soak the prunes in cold water for several hours; drain and dry on piece of cheesecloth; split and remove the stone. Put four halves of prunes into individual molds and fill with the orange gelatin, which is made as usual. When firm turn out on individual plates that

Fine for catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

## Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever. Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

**VICKS**  
VAPORUB  
OVER 21 MILLION JARS USED YEARLY

## RED ROSE TEA

"is good tea"

Order your grocer's best and he'll usually send Red Rose.

## GLASS EYES ARE MADE TO DO ALL EXCEPT SEE

Berlin, March 18—Movable glass eyes, which are hard to distinguish from normal eyes because they are subject to the control of optic muscles have been successfully fitted by Dr. Carl Mueller of Jena, noted artificial eye specialist.

Dr. Mueller found that in 90 out of 100 cases of the loss of an eye the muscle and nerves controlling the movement of the eye were unimpaired.

He said he fastens connective muscle tissue of animals to a glass eye and grafts these tissues onto the remnants of the human eye muscles. The extremely delicate operation requires about an hour and he has been successful in from 80 to 90 per cent of his cases. Success depends to a large extent, he asserted upon the condition of the eye socket after the loss of the eye.

Jay—So you picked out one of those places to spend your vacation where there were no mosquitoes?

Jean—Yes, but I was stung.

## WILL SPEAK NOT LECTURE

London, March 18—Gilbert Frankau, the novelist, has drawn a delicate distinction for visiting British literati in the United States. "On my trip to America this spring I shall speak, not lecture," he said.

"What is the difference?" he was asked.

"You lecture for money and you speak when asked," replied Mr. Frankau who will go to Hollywood to see how films are produced.

## THEN AND NOW.

"With you," he cried, "to cheer me on, I'll brush all obstacles away, And scale the height whereon is fame, And all the world shall praise my name And envy you some day."

But that was many years ago! He hasn't scaled the height. But if—oh, heaven!—if he were Not sorely handicapped by her, He often thinks he might.

## FERGUSON'S HOP BEER

A Real, Refreshing Tonic  
Buy A Bottle

Brewed Ginger Beer always on hand

STRICTLY FRESH EGGS  
from my own Hennerly

Fred. H. Ferguson

Corner Northumberland and Brunswick Streets.

## THE DAILY MAIL

Is on Sale at the following places of business in the city:

Box 928 FREDERICTON, N.B.

## Sometimes Grey Granite is Preferred for a Memorial

IF SO, our Native Granite has no superior when particularly Selected Stock is used. But selection is of the Greatest Importance, for considerable of our native grey is defective in color for Monuments. In buying a Monument of New Brunswick Grey Granite see it first or buy from a firm using only selected stock.

The above design is polished on both sides. The top is hammered to a fine smooth finish with the edges nicely turned. The sides are rustic; that is rough broken surface with the edges carefully chamfered in hammered finish. The ornamentation on the corners is cut in light relief not just traced. The Initial of the family name can be cut in the apex instead of the little design shown. The prices quoted below are for the Monument Completely erected on a concrete foundation in Fredericton or vicinity. The sizes are for the diepiece or top stone and the bases are in proportion.

2-6x1-0x3-0 ..... \$200.00.  
2-4x1-0x2-9 ..... \$175.00.  
2-2x1-0x2-6 ..... \$150.00.

This Monument can be made in smaller sizes with 8 inch diepiece at proportionately lower prices; but for the difference in cost, the larger sizes are recommended for a family lot. The best workmanship is put on all the above, and it is not claimed they cannot be made cheaper from inferior stock and with less careful mechanical precision. 50 per cent cash with the order is required and the balance is payable on completion of the order. Place your order now for May 1st delivery.
