**DR. J. R. CAMPBELL, WELL KNOWN ST. JOHN LAWYER AND A FORMER M.L.A., DIED EARLY THIS MORNING**

St. John, May 25—Dr. J. Roy Campbell, K. C., prominent lawyer of Saint John, died at the Saint John Infirmary at 2.40 a. m. today after a brief illness.

Dr. Campbell had been a patient at the Infirmary for only a few days and it was not generally recognized that his illness was critical.

Mr. Campbell, K. C., was prominent in legal and political circles in the province and a leader in many educational and church activities as well as in various organizations and philanthropies. He was a man of brilliant attainments and won great distinction in his profession. Always an ardent Conservative in politics he headed the polls in 1917 when he was a candidate for election to the provincial house as a representative for Saint John city. In that election, Hon. L. P. D. Thiley, the late Mayor F. L. Potts and Hon. Dr. W. F. Roberts were returned from Saint John city. Dr. Campbell's extensive knowledge of law made him a very valuable member in the party.

Born in Yarmouth.

Dr. Campbell was the son of Rev. J. R. Campbell, D. D., now resident of Fredericton and his wife, the late Mrs. Anna Brough Campbell. He was born in Yarmouth, N. S., on May 16, 1866. His early education was obtained at the Fredericton Grammar school and his college studies were taken at Dalhousie University from which he graduated in 1888 with the degree of LL. B. Seven years later he received the degree of D. C. L. from the law school of King's College.

Dr. Campbell was called to the bar in 1889 and was created a K. C. in 1923. He has practiced his profession in Saint John with great success. He had been a member of the council of the New Brunswick Law Society and a past president of the Saint John Law Society of which latter body he was a council member at the time of his death.

Interest in Law School.

The law school of the U. N. B. formerly the law school of King's College, owes much to Dr. Campbell's unflagging interest and enthusiasm. He was the first secretary of the law school when it was opened in Saint John in the early 90's and he held that office for nearly 30 years. At the time of his death he was the secretary-treasurer of the faculty of law of the U. N. B. For many years he was a lecturer on "Real Property" and was the present lecturer on Roman Law.

Amiable and Cheerful.

Dr. Campbell was possessed of a very amiable and cheerful disposition, though very retiring. He was a staunchly loyal friend and was held in very warm regard by all his students. There are many of the barristers of the province practicing their professions with great success who owe much of their ability to Dr. Campbell's careful instruction, his kindly interest and his wise and timely advice.

An Anglican in religion, Dr. Campbell gave whole-hearted and devoted service to his church. He was for many years a representative at the diocesan synod and he held the office of church warden or vestryman of St. Paul's church for a lengthy period. He had the distinction of being the only layman ever elected president of the Church of England Institute in the city and he was always keenly interested in its welfare.

He was a past president of St. Andrew's Society in Saint John and it was largely due to his zeal and enthusiasm in the work of that body when the interest of others was flagging somewhat that the society owes its flourishing condition at the present time. He was also a life member of

**A Pimply Face Is Unsightly**

Miss C. C. M. Smart, South Battleford, Sask., writes:—"A while ago I was troubled with facial blemishes, especially pimples, and was really ashamed to go out with such a bad looking face."

I tried 2 or 3 different remedies, but they didn't help me any, so one day a friend, who had been troubled the same as I was, advised me to use

**Burdock BLOOD BITTERS**

After I had taken two bottles there wasn't a pimple of any kind left on my face, and I now have a clear, smooth, and velvety complexion."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

**EDISON GETS FIRST PEEP AT TALKING MOVIES**

Atlantic City, May 25—Thomas A. Edison and Dr. Lee DeForest met here today for the first time. To the 13-year-old inventor it was more than just a meeting. It was the occasion of shaking hands with the man who had succeeded in perfecting what he in all his years as an inventor had failed to perfect—the talking motion picture.

When Edison left his laboratories in West Orange yesterday morning to journey to Atlantic City to attend the annual convention of the National Electric Light Association, he had no idea in mind that he was journeying to see a demonstration of the one invention which he had failed to perfect. And so today, when he sat in the exhibit booth on the Million Dollar Pier and watched the reel upon reel of talking motion picture unfolded before him it was an experience such as he had never before had.

Beside him sat Dr. DeForest, the man who has done so much in making radio what it is and who perfected "movies that will talk."

**CITY NOT TO BUY ANOTHER AUTOMOBILE**

(Continued From Page Eight.)

ment on request. He said that he was delivering a rush order of material for the Water Department in the car. The latter had no brakes and had none for two years. At the intersection of Regent and Brunswick streets he saw Ald. Thompson's car. The city car had been travelling about fifteen miles an hour. He could not stop and could not avoid the collision. Ald. Thompson's car was knocked over.

City Engineer McKay said Smith reported at once to him.

The facts of the case showed that all responsibility rested upon the city. There was a general expression of amazement that the car had been driven for two years without brakes. Smith when asked said he had not understood that he had been instructed to lay the car up and not drive it. Ald. Currier said that he had believed that he had made himself clear to Smith that the car should not be operated in the condition it was.

Ald. Thompson informed the Council that he wanted \$600 for damage to the car and for injury and shock to himself.

Items Refused.

General discussion on the subject ensued. Ald. Mitchell requested a statement of the basis of calculation or of the amount estimated for damage to the car and for injury to the person. Ald. Thompson refused to itemize the statement saying that \$600 was his estimate.

Ald. Mitchell said that a competent garage-man had offered to repair the car for \$200.

Ald. Thompson retorted that the offer was made because the car had been bought from another dealer. He considered that the car had been new when he bought it as it had been run but six hundred miles.

Ald. Mitchell said that he would not vote unless he knew the items and an alderman could not be forced to vote unless a claim was itemized.

Ald. Goodspeed seconded by Ald. Currier moved that an offer of \$400 be made. The motion was carried three to one.

Offer Refused.

Ald. Thompson refused to accept the offer.

Ald. Goodspeed suggested that a friendly case before a Supreme Court judge might be undertaken to decide the matter.

Ald. Thompson said that he would agree to have Mayor Clark decide upon the amount of claim.

The Mayor and Ald. Thompson withdrew and conferred.

The Mayor on his return suggested an offer of \$500. This was not acted upon but a motion for an offer of \$450 was made but there was no seconder.

The matter rested there. Further consideration is likely.

Married at Doaktown.

Two teachers of the staff of Fredericton schools are being congratulated upon their marriage which took place Saturday at Doaktown. They are Otto V. B. Miller of the High School staff and Miss Mary Palmer of the Model School staff. The ceremony took place at the home of Mrs. Swim sister of the bride.

Sign of Spring.

Pardo Doganieri is the harbinger of spring although the weather is not very springlike. He is the operator of a scissors-grinding machine and is about the streets today. The appearance of the outfit is a sure sign that spring has really arrived.

Miss Bessie McGinnis of the staff of the Admiral Beatty Hotel, Saint John, spent the week-end and holiday at her home here.

**PAIR KILLED BY THE FUMES OF MOONSHINE**

Steubenville, O., May 26—What was at first believed to have been a double murder, today, proved to be an accident. County authorities this afternoon announced that investigation revealed that Omar Miller, 30 and his wife Mrs. Ethel Miller, 20 who were found dead in a pit of a saw mill near their home at Bergholz, Jefferson county, were victims of fumes from fermentation of mash.

The two bodies were found this morning by neighbors after a search had been conducted as a result of the couple's disappearance Monday. Coroner Bell reports the Millers were preparing to operate a still and that poison fumes from the mash caused their deaths.

**N. H. L. TO AID NEW LEAGUE**

Moose Jaw, May 24—Lloyd Turner Calgary hockey magnate last night made application for a franchise for Calgary in the proposed five-team Prairie professional hockey loop, and Col. W. E. Seaborn, President of the loop declared that this action assures the success of the circuit. He announced that Deacon White and Barney Stanley have sent in applications for a franchise for Edmonton and Moose Jaw respectively. Saskatoon and Regina have already secured franchises.

Col. Seaborn stated that Frank Calder, President of the National Hockey League, has given assurance that the clubs in the Prairie Circuit will be recognized and players protected from contract-jumping offers and that the winner of the circuit will be eligible for Stanley Cup play-offs.

Col. Seaborn said that, while the applications of the Edmonton and Calgary teams were subject to approval by the league executive he had no doubt that they would be granted.

It is expected that the recruiting of players for the new circuit will commence immediately.
