(Special cable to The Daily Mail by the British United Press)

London, Oct. 7.—The national delegate conference of British Coal Miners today overwhelmingly rejected the Government's proposal for creating a national tribunal as a means of settling the dispute which has kept most of the pits idle since April 30.

It was announced before the conference today that the mining districts had rejected the Government's proposal by a vote of 737,000 to 42,000 whereupon the conference passed a resolution accepting this vote as the decision of the conference.

### BURPEE-PHILLIPS WEDDING

Wilmot Church Thronged Last Evening—The Bride and Groom Both Graduates of University of N. B.

Wilmot United Church was thronged last evening at 6.15 by the congregation gathered to witness the wedding of Miss Grace Ireland Phillips daughter of Mrs. R. H. B. Phillips of this city and Charles Miles Burpee, B. Sc., of Oneata, N. Y., son of Mr. and Mrs. S. C. Burpee of Edmundston. Both bride and groom being graduates of the University of New Brunswick, a university tone was added to the ceremony.

The ceremony was performed by Rev. F. H. Holmes, pastor of the church. Miss Isabel Babbitt of this city was bridesmaid and Bernard H. Hagerman, classmate of the groom at U. N. B. who returned from Illinois for the purpose, was groomsmen. Little Miss Dorothy Currie daughter of Mr. and Mrs. George W. Currie of Saint John was flower girl. Ushers were Kenneth Scott and Dr. John Edgecombe.

The bride entered the church on the arm of her brother R. Darrell Phillips of Toronto by whom she was given in marriage.

The church was beautifully decorated for the occasion palms and autumn leaves being used. The register was signed in a specially arranged and decorated booth.

During the signing "O Promise Me" was sung by Mrs. A. G. Coy.

### WAS SATISFIED THAT A GOD REALLY EXISTS

Conviction Attaches to Last Words of Cancer Expert.

WORDS OF LATE PROF. ADAMI

Paper Read by His Widow at a Church Congress.

London, Oct. 7.—Almost the last act of Dr. George Adami, cancer expert, Vice-Chancellor of Liverpool University and former professor at McGill University was to affirm as a scientific fact that there is a God. Pathos attended the revelation of this fact at a Church Congress in London today when his widow presented a paper written by her husband just before he succumbed to the illness which he had fought for years.

As a student wrote Adami (he was forced to reject the assumption there was no God, since without some directing principle nature and life were meaningless. Death he continued, was a necessity concomitant to life since were the world to be inhabited by beings capable of being maimed but not dying it would result in regression not possession.

It was possible for the student of science, through the discipline of science, to acquire a conviction of the eternal verities without making use of the beautiful symbolism which was essential for many for the realization of the Godhead he said.

Considering that Dr. Adami passed away after a prolonged struggle with a fatal disease such words as these written by him near the end of his life are considered specially poignant.

### DUNCAN REPORT LIKELY TO WAIT FOR THE SESSION

Ottawa, Ont., Oct. 6.—It now appears probable that the report of the Maritime Rights Commission will not be made public until parliament meets. The report was submitted at the time the Meighen government was going out of office and was left for the new government to deal with.

It is understood that the matter has been brought up tentatively in cabinet council, but the pressure of work awaiting cabinet has prevented any extended examination of the report. Premier King will leave here Friday for the Imperial Conference, and consideration of a number of matters will stand over until his return. It is understood now that the new government is in favor of holding the Maritime Commission report for the consideration of parliament, which means that it cannot be made public for a couple of months.

### ROCKEFELLER GETS A MOOSE

Halifax, Oct. 6.—According to news from the big game country around Caledonia, Queens Co., John D. Rockefeller, Jr., has bagged a moose and was today having the head prepared for shipment to his New York home.

Mr. Rockefeller, as in his previous visits to the Nova Scotia woods on moose hunting expeditions, registered under the name of "John Davidson" at the Caledonia Hotel, where he made his headquarters.

Vancouver, Oct. 6.—J. A. Fraser, Conservative candidate for the Legislature, in Cariboo, had a majority of 816 over Joseph Graham, Liberal, according to complete official returns announced today. The vote: Fraser, 7,200; Graham, 6,384.

### THINKS COAL STOPPAGE IN GREAT BRITAIN MAY PROVE TO BE A BLESSING

Policy of the Government During the General Strike in May Last is Endorsed by National Conservative Union — Dame Bridgeman is Hopeful That Coal Strike Will be a Death Blow to Communism.

(Special to the Daily Mail by the British United Press)

SCARBOROUGH, Eng., Oct. 7.—The coal stoppage might prove to be a blessing if it resulted in a death blow to communism in Great Britain, Dame Caroline Bridgeman said today in her speech as presiding officer of the 54th annual conference of the national union of the Conservative party.

The 2600 delegates adopted a resolution endorsing the government policy during the general strike last May. During the past two years said Dame Bridgeman "trade unionism so far as it concerned the industrial improvement of its members has been subordinated to political movements; it has failed to resist the temptation to embark on a policy of political revolutionary activity." In behalf of the Conservative party Dame Bridgeman expresses unbounded confidence in Premier Baldwin. She was the first woman ever to preside over a Conservative party conference. The conference unanimously adopted a resolution urging reform of the trade union law to make illegal any strike called without a secret ballot of at least two thirds of the union membership. The resolution also proposed the protection of trade unionists against intimidation and victimization. Proponents of this resolution said that it was not designed to weaken the legislative functions of trade unionism, but to safeguard the country's constitution and financial position.

### PATCHWORK QUILT EFFECT IS SEEN IN CLOTHES

Paris, Oct. 7.—The animated patch work quilt out of grandmother's bedroom has made its reappearance this time on Paris streets. The lavish use of embroidery for day-time clothes and three or four different colors and fabrics in one single frock are responsible.

Embroidery has invaded not only the pockets and necklines of frocks but covers a wide area of the gown or coat, or both.

One winter coat, in three colors, taupe, gray and black embroidered in silk and wool, silver and gold an idea of the color scheme now prevailing for autumn and winter wear.

### LOVESICKNESS WON ACQUITTAL FOR MOTORIST

Darnstaple, Eng., Oct. 7.—Lovesick motorists are a greater menace to the public than drunken drivers, if the testimony of Dr. James Coburn Anderson may be believed.

Dr. Anderson, driving his car on the wrong side of the road, ran down a motorcycleist and killed him. In his defense he said he was so infatuated with a young girl in North Devon that he had not been able to eat or sleep for days and his mind was a blank because of the infatuation.

The coroner's jury accepted Anderson's story and a verdict was rendered that he drove negligently, but not to the extent of criminality.

### MAKES MOVE TO GET MATES FOR LONE MAIDENS

Wallasey, Eng., Oct. 7.—The mayor of this town in Cheshire, which is filled with marriageable maidens, has struck upon a novel plan to get some of them married. Recently the mayor issued a statement in which he told of the surplus of beautiful girls in Wallasey. There followed an avalanche of letters to the mayor from young men asking for introductions.

After studying the situation for a few days the mayor decided that he would become a matchmaker on a whole-sale basis. He announces that he will give a dance in the town hall, where applicants for introductions to the girls will have a free-for-all opportunity to seek out life partners.

### DEAN SHERMAN WAS CHOSEN ON FIRST BALLOT

Calgary, Oct. 6.—Dean L. Ralph Sherman of Quebec was elected Anglican Bishop of the Calgary Diocese at a Synod meeting on Tuesday morning to succeed the Right Rev. Cyprian Pinkham. There were 12 other candidates. The election of Dean Sherman took place on the first count. The election took place in the Pro-Cathedral Church of the Redeemer, the whole proceedings being characterized by much solemnity.

At a roll-call held before the election took place, it was stated there were 40 clergy present out of 44, and 102 lay delegates out of 165. The Very Rev. Dean Paget, administrator of the diocese, presided.

### DEFINITION OF A GENTLEMAN GIVEN BY JUDGE

Applicable to a Well to Do and Educated Person.

WOMEN MUST WEAR HATS

Will Not be Admitted to Court to Show Marcel Waves.

Hamilton Ont. 7.—Goodness knows how many tailors it takes to make a modern man. But what makes a gentleman—fine linen and the purple or a noble heart even though its owner be clad in motley

Tennyson had his own ideas on the matter when he spoke of the negative qualities of cornets and Norman blood. Bobbie Burns also set forth his convictions with clarity and force.

Mr. Justice Mowat threw further light on the question at the Assizes this afternoon. A witness giving character evidence for James Wood, charged with manslaughter said: "Wood was a gentleman."

His Lordship mildly rebuked the witness for such a loose application of that sacred term. For a gentleman according to his Lordship is "a well-to-do, well educated man, whose father was a gentleman before him." The term had no rightful usage when applied to men in the manual planes of life the Court held.

His Lordship also insisted today that all women attending court must wear hats. Those coming hatless, the better to show their marcel waves, boyish bobs shingled locks and domed craniums would be barred.

"I notice some women come to the Assize Court without their hats," his Lordship said. "Women must come to court as they go to church—with their hats on. Mr. Sheriff will you please tell your constables not to allow women in this court unless they are wearing their hats."

### HAS PRAISE FOR CARMAN AND ROBERTS

In a review of the Letters of Louise Imogen Guiney, Richard Le Gallienne says: "These letters must be especially pleasant reading to Bliss Carman, of whom we get many characteristic glimpses, as Miss Guiney introduces him to several English friends. As Mr. Carman will probably never see this, I will risk outraging his modesty by quoting this admirably sketch of him in a letter to Clement Shorter:

Bliss Carman, an old colleague and great friend of mine, a dear gentle fellow, an admirable critic and student, as well as poet. He is a queer fawn to look at, and not American in our sense of the word; Canadian, argal, English. Long ago, he was entered at Merton; and got horribly homesick, and broke away. And he has been, ever since, as then, shy, abstracted silent outwardly. But he has fire and activity; they are in the "Vagabondia" lyrics, and they are in him, too. All our young guild of letters, over here, look to him and to his cousin, C. G. D. Roberts, as to the best voices and spirits we have.

KNEE WATCH FAD.

London, Oct. 7.—A new garter watch has been introduced by the elect of Mayfair. They are about a half inch in diameter and are "set" in jeweled garters about three quarters of an inch in width. The garters have a buckle and a strap, like an ordinary wrist watch and fasten just below the wearer's right knee—the watch face appearing on the left-hand side.

### A NATIONAL TRIBUNAL IS NOT WANTED

British Miners Conference Reject the Government's Proposal.

ALSO REJECTED BY DISTRICTS

Government Had Hoped to Settle Strike by a Tribunal.

(Special to the Daily Mail by British United Press)

Boston, Oct. 7.—George Washington should be one of Great Britain's national heroes according to Prof. David Vaughn of Boston University. Speaking here last night Prof. Vaughn declared the rebellion of the American colonies jarred England out of her lethargic conservatism, set her an example of practical democracy and started her on her way to world dominion.

The time would come it is thought, when the United States would come to the side of England, Australia and Canada in an alliance of English speaking people in defense and support of the principles of liberty and democracy.

Visiting Western Points.

Five freight agents from the Atlantic division of the C. N. R. left Moncton Tuesday on a trip to the Pacific Coast during which they will visit the principal cities and study traffic conditions in the west. This is an educational trip to give the men an opportunity to become familiar with conditions in the west and to learn at first hand of their own railway system. George C. Poole, chief clerk in the district freight office, is the Saint John representative in the party. The other four are Messrs. Newnham, Trites and Crockett of Moncton, and Shirley of Halifax.
