Master Bootleggers of the U. S. in Counterfeiting Plot

Secret Service Detectives Discover That Phoney Money is Being Circulated in the Rum Running Game—Bootlegger with Bogus \$100 Bills in His Possession—Liquor Law Violators Double Cross One Another.

(Special to the Daily Mail by the British United Press)

WASHINGTON, Nov. 18—The United States Secret Service has unearthed a counterfeiting plot among master bootleggers.

It became known today Federal agents had arrested one bootlegger with sixty one \$100 bills part of the output of a ring engaged in making spurious money wherewith to traffic in rum.

Evidence so far unearthed leads the powerful secret service under Chief W. H. Moran to believe it can run down more of the bootlegging counterfeiter who can only cheat each other with false money, but put some of it into general circulation.

But their task is perilous and difficult. Moran revealed that Government operatives who go into underworld districts after counterfeiter are now suspected of being prohibition agents and are doubly watched by liquor law violators and counterfeiter.

To combat this new development, Moran will probably request Congress to increase the secret service personnel.

BEER WITH A KICK BOUGHT IN GOOD FAITH

Newcastle, Nov. 17—An interesting case is before the magistrate here, in which the enforcement of the N. B. Prohibition Act is involved and in which the regulations under that act are under discussion. The case arises in a charge against Edward Dalton, proprietor of the Miramichi Hotel, for having liquor stronger than the law allows in his possession other than in his private residence. The seizure made a short time ago consisted of beer which under analysis proved 8.40 per cent. alcohol. The purchase of the beer, it came out in evidence, was made by Mr. Dalton in good faith as 2 per cent. beer, having been ordered by him as such from a local bottler, one E. J. Gallivan, whose label stated the contents were certified not over 2 per cent. alcohol, as permitted by the Provincial Act.

It also came out in the evidence that Gallivan had purchased the beer from a provincial brewery, in barrels, and that he bottled the beer on his own premises. Gallivan, it appears, besides his wholesale bottling establishment here, runs a retail place in Chatham.

The case was adjourned from last week to Thursday of this week, but it has since, by arrangement, been further adjourned to next week.

IMMIGRANT BOY OF 1900 OPENS THEATRE

Schwartz' mother en route from Russia to New York in 1900, had to leave 10-year-old Maurice behind when steamship officials decided he was too big to travel half fare. Two years later an advertisement in the "agony" column of a London paper brought about his reunion with his parents, who lived on the proceeds of an old rag shop. Some time afterward he resolved to become an actor and build a theatre of his own. Schwartz was paid \$8 a week by the first stock company in which he played.

London, Nov. 17—The Dominion premiers today at Cardington inspected the structure of the new airship which is to bring Canada within two and a half days of London, as referred to by Sir Samuel Hoare, head of the British Air Ministry, at the Imperial Conference about three weeks ago.

The structural work on the ship so far has only advanced sufficiently to give an idea of its immense size. Nearly was R-33 the military airship which flew above the German fleet when it surrendered on the conclusion of the armistice. Great as the R-33 appeared it could pass within the framework of R-101, the airship now under construction.

To Carry 100 Passengers.

The R-101 with a sister ship, will have accommodation for 100 passengers each and their baggage and 10 tons of mail matter. They will each have sleeping cabins of two or four berths (promenade decks, lounges, smoking rooms and dining rooms capable of seating 60 people at one time.

For the benefit of visitors today R-33 was taken from its shed and made an ascent. It flew round and round, now visible like a huge silver torpedo, now hidden among the clouds. The ship was to have released aeroplanes while aloft but the clouds were so low that this part of the program had to be abandoned.

Premier Mackenzie King with the other premiers visited the mooring masts and inspected their operation both above and below. Premier King has already indicated the intention of the Canadian government to proceed with the erection of a mooring mast in Canada for the reception of airships.
