SPEED WAS NO BAR IN WIFE CHASE

Pittsfield, Aug. 14—Speed laws do not apply to a man chasing his eloping wife, according to a ruling by Judge Charles L. Hibbard in Pittsfield district court.

Essie O. Reading of Lenox Road was arrested near here by two state troopers, who charged him with driving as so to endanger the lives and safety of the public. He explained in court he was pursuing a car containing his wife and a man from Pennsylvania, who were eloping.

Judge Hibbard found him not guilty. Reading has heard nothing of the elopers since he last saw them fading from sight when he was stopped by the troopers. He told the court he could have stopped the elopement if the troopers had not stopped him.

BATTLE THROUGH FIRE TO WIN RACE FOR GOLD

Manitoba Prospectors Risk Lives to Overcome Handicap.

VALUABLE FIND MADE

The Party Was Over-taken by a Fierce Forest Fire.

Winnipeg, Man., Aug. 14—Battling their way through flaming forests and harassed night and day by a fear that a rival party would beat them to their objective, a small band of Manitoba prospectors has won its way through to rich stakings and a possible fortune.

Their Objective.

This story has been brought out of the North by J. B. Burton O'Sullivan, who, with A. J. Demers and George and Frank McClatchy, has arrived in Winnipeg.

The objective of the prospectors is described as a fine outcropping of gold and antimony on an island in Oxford lake, 150 miles northeast of the Pas. A large party of Minneapolis men, headed by "Jim" Morrison of Manitoba, had got away to a flying start on the O'Sullivan party by catching a boat for Norway House.

Despite the handicap of three days, O'Sullivan and his friends traveled by rail and gas car, and, finally, plunged into the forest to make their way across the 175 miles to Oxford lake. There were long portages on the trip, which was mainly over lakes and rivers.

Cut Off Off by Fire.

Then the party was overtaken by a fierce forest fire which ate its way through the spruce trees almost with the rapidity of lightning. At one point the four men were cut off on a rocky point, and for six hours they had to lay flat on their faces on the rock, with the fire leaping between them and the mainland and the turbulent waters of a river flowing at their backs.

When the fire subsided, the party, traveling ankle deep in burnt spruce, at last reached Oxford lake to find that the Minneapolis men had not arrived and that the prize was theirs. Claims were quickly staked. A sample of the antimony taken is said to have assayed over 50 per cent. pure metal, while the gold assay ran around 77 a ton.

NO REST FOR SCREEN COMIC SAYS MURRAY

New York, Aug. 14—"No rest for the funny," says Charlie Murray, film funster de luxe.

Charlie, one of the charter members of the Commuters Club, trans-continent trotters, somehow can't get a day off, even between jobs.

Charlie rushed madly to Hollywood from New York, where he had just finished up in "Paradise," to hit the maddest, fastest scenes in "The Masked Woman."

He was stolen bodily out of the "Mismates" cast, several days before completion, to go to work in "Paradise," playing in scenes from both productions on several days.

And now, at the completion of the Mathis piece, he doesn't rate even a single day's rest—the Milton Sills picture, "Men of the Dawn," needs him at once, if not sooner.

HAS ONE MAJORITY.

Calgary, Aug. 13—Rejecting two ballots marked for Captain J. T. Shaw and two marked for Ben Plumer, Mr. Justice Hyndman, it was announced, allowed the other ballots in accordance with Judge McNeill's finding, the net result being that Captain Shaw is returned by a majority of one vote as member for Bow Valley constituency in the Alberta provincial house.

S. M. Dunn of Shediac is at the Windsor.

LOAFING STARS ARE CONSORT WITH PLANETS

Chicago, Aug. 14—Helium stars are easy going gregarious creatures. Nearly every one has a traveling companion and they amble together along the celestial by-ways while their speedier neighbors streak across the sky.

Helium stars, Dr. Edwin B. Frost, director Yerkes Observatory, observed, move at a rate of only four miles a second in some cases, a rate about one third of that maintained by the average yellow star. While he was making his discovery the astronomers found that about fifty per cent of the helium bodies have consorts which are not planets, but companion stars only slightly dimmer than those we see.

PATSY RUTH MAY WED A FILM STAR

New York, Aug. 14—There was a real jolt to old Broadway and to Mary Hay, demure dancer in the announcement from Patsy Ruth Miller that she was to become Mrs. Richard Barthelmess.

Fades From Cast. The news coming from Hollywood seemed to upset Mary who is at present Mrs. Barthelmess, even though separated from her husband and as far as Broadway knows there has been no divorce.

Following this choice bit of news from Hollywood, Mary failed to appear in the Broadway show where she has been dancing with Clifton Webb and all eyes are turned now toward Dick himself, to see what he is going to do in the wake of Patsy's bombshell that she was going to be Mrs. Dick No. 2 as soon as he is divorced from Mrs. Dick No. 1.

BOY BORN IN A BOYLESS G. B. VILLAGE

London, Aug. 14—The "boyless village of England" has a boy at last.

Beanworth, in Hampshire, north-east of Winchester, was known because it did not boast any boys in its population. The parish vicar had to content himself with a choir of girls. Now he soon can have a boy soloist, since Mr. and Mrs. Knight have a son.

The trouble is said to be a lack of cottages. None have been built in Beanworth for more than 50 years, so when the young men want to settle after marriage, they must usually find homes elsewhere. The young Knight boy has a slightly older sister, but the next in age among the young men of Beanworth is 16 years old.

The third box was believed to contain the most valuable of the missing gems.

CHOPPING LOGS IS A HOBBY OF GEO. B. SHAW

London, Aug. 14—Chopping up beech logs is George Bernard Shaw's nearest approach to a hobby. He repudiates, as is well known, all conventional forms of competitive sport. For exercise he will bicycle slowly from his summer place to the nearest green-grocer's shop for the inevitable vegetables which compose his diet. If he is at the seaside he will swim, in a severe, conscientious way, from the shore to the lifeline and back.

But for fun, England's leading playwright likes to take an axe and split up a section of a beech log.

"It is purely destructive," he explained. "It is tearing down, not building up, and so I like it."
