## GRAND FALLS WORK BEGINS

### Epoch Making Event In History of N. B.

Great Celebration at Grand Falls to Mark the Beginning of Power Development—Ideal Weather Graced the Occasion—Able Speeches by Governor Todd, Premier Baxter, A. R. Graustein, Hon. Raymond Fellows, Hon. R. J. Manion and Hon. R. B. Jones—A Note of Optimism and International Goodwill Sounded.

"The Work Begins" were the words used by Hon. J. B. M. Baxter, Premier and Attorney General of New Brunswick, when at Grand Falls yesterday, when, in the presence of three thousand people, he touched an electric button, thus giving the signal for the explosion of a blast to mark the beginning of actual development work by the International Paper Company of New York and its subsidiaries of this great potential water power. It was certainly an epoch making event in the history of New Brunswick and will mean the down of a new era of industrial development and prosperity for this province. All New Brunswick will rejoice that actual development of the great water power at Grand Falls has actually begun, and all will have cause for joy in the fact that this development work, as a result of an arrangement made by the government of New Brunswick with the International Paper Company of New York, will be carried on absolutely without cost to the province. The development of Grand Falls will be followed by the establishment of mammoth paper mills in this province, remunerative employment for thousands of people in the work of converting the products of our forests into paper for both home and foreign consumption.

VIEW OF GRAND FALLS.

#### An Initial Step

The harnessing of the water power at Grand Falls will be the initial step in development work in this province, which will involve an expenditure ranging from \$25,000,000 to \$40,000,000 and it will be mostly outside capital. All lines of business in every section of the province will benefit from this enormous expenditure.

#### Large Crowd Present

It is estimated that fully three thousand people, who came from all sections of New Brunswick, as well as the adjoining State of Maine, were present at the celebration at Grand Falls yesterday. Among the notables present were the Lieutenant Governor of New Brunswick, the Attorney General of Maine, who represented the Governor of that state, two members of the Dominion Cabinet, Premier Baxter and five of his colleagues in the provincial cabinet, and twenty-two private members of the New Brunswick Legislative Assembly.

Beautiful summer weather graced the occasion and the quaint old town in holiday attire for the occasion, never had a more inviting appearance and never in its history harbored so many strangers within its borders. It was the biggest day Grand Falls has ever seen and a day long to be remembered by the inhabitants and others who joined with them in the festivities. The proceedings took on an international tone, and a striking feature was the message of good will from the State of Maine delivered by Attorney General Raymond Fellows, the special representative of Governor Brewster, and the reciprocal message of Lieutenant Governor Todd.

#### Warmly Welcomed

The special train on the C. P. R. carrying President Graustein and of-

ficials of the International Company, Premier Baxter and large contingents from Saint John, Fredericton, Woodstock, St. Stephen and other points, arrived in Grand Falls at one o'clock, after a delightful and memorable trip. There was a large crowd at the station to greet them, and the Artillery Band, which had accompanied the St. John contingent, led a procession marshalled by Mayor Collins and composed of people in autos and on foot, to the grounds on the river bank just above the pitch of the falls.

#### Luncheon Served

The first thing was something to eat, and how well the Grand Falls ladies did supply it. In an improvised dining hall with canopied top, especially erected and seating 600 persons the vast throng was served. At the raised table at the end of the hall sat Governor Todd, the State Attorney General of Maine, Premier Baxter, President Graustein of the International Paper Co., and other notables. Down the long line of tables many from N. B.'s most representative families sat and partook of the delicious repast served by the ladies of the different churches, assisted by the Women's Association of the Church of England. The menu consisted of salmon and potato salads, biscuits, sandwiches, iced and hot tea and coffee, lemonade and several kinds of cake. The Artillery Band played during the meal. At 3.30 the speaking program began and the visitors and townfolk alike crowded the great natural hillside stadium to the number of thousands. Moving picture machines ground out hundreds of feet of film as the speakers addressed the multitude and applause of the heartiest kind greeted every speaker. Mayor David Collins, a former Indian-

#### LARGE CROWD LISTENED TO FINE SPEECHES

A spirit of optimism and international good will characterized the speeches delivered at the celebration in connection with the inauguration of water power development at Grand Falls yesterday. A crowd estimated at three thousand people listened and gave hearty applause to the sentiments expressed. The list of speakers included Lieut. Governor Todd, Premier J. B. M. Baxter, Hon. Raymond Fellows of Maine, Hon. R. J. Manion, Postmaster General, President Graustein of the International Paper Company and Hon. George B. Jones, Minister of Labor.
