PLANT YOUR POTATOES WITH AN EFFICIENT

## POTATO PLANTER

The first step toward a bumper crop is a Potato Planter which will plant the seed properly and distribute the fertilizer so that it will not damage the seed and give the best results.

With this in view we commend to you these well known Planters and invite you to call at our showroom, see them and make your selection—or drop us a line and we will have one of our agents call on you.

Made Arrest.

The Provincial Police arrested this morning a local young man wanted on a serious charge in Saint John. An officer will arrive from Saint John tonight to take him to Saint John where his case will be heard.

On Business Visit.

W. W. V. Foster of Saint John, who completed his third year at U. N. B. this spring is in the city today on business. Mr. Foster is employed by a Saint John bond house. He is here on a business trip.

## CIRCUS LEFT THIS MORNING FOR ST. STEPHEN

(Continued from page eight)

clowns afforded an abundance of good and clean humour. Among the events that attracted the greatest attention and applause was the opening spectacle entitled King Solomon and the Queen of Sheba. Dressed in magnificent oriental costumes the performers marched around the tent and took their places in the three rings. There followed some fine interpretative dancing that was probably suggested by some of the religious dances at certain Brahman Shrines in India. The lighting effects were superb. Miss Mable Stark's act with the tigers was thrilling and held the audience in suspense. There was an excellent act with the elephants that were exceptionally well-trained. Music was provided by the circus band which was generally considered as one of the best circus bands heard here in many years.

Only Three Towns.

John Robinson's Circus is only playing in three towns in New Brunswick—Saint John, Fredericton and St. Stephen—because of the earliness of the season. The circus fever has scarcely come to people yet and it is a busy season for the farmers who do not feel that they can leave their work to come into the city during the planting season. This fact probably explains the rather small audiences to which the show played here in Fredericton.

Evanston, Ill., May 30—Whoever heard of a Bachelor of Matrimony? And yet there'll probably be such a degree if the plan advocated by Prof. A. J. Todd, of Northwestern University, goes through. Prof. Todd's plan is that a department for instruction in matrimony be established at the university. He says that students leave college with no knowledge of matrimony, a subject which will occupy most of their future time and money.

## RENEWED FAITH IN OUR FUTURE URGED IN SERMON

(Continued from page eight)

few small fishes, but what are they among so many?"—St. John VI, 9. His subject was the need of a profound faith based upon experience in the actuality of God among us and of His ability to realize great ends out of our small means. The disciple who spoke the words of the text saw the great inadequacy of the resources he mentioned to the needs of the multitude but he had also "a lurking hope of faltering faith that somehow the Lord would develop from these a sufficiency." "All life," said the speaker, "is a challenge to the inner adequacy of things."

Principle of Faith

The Bishop applied the principle of faith to the nation and to the church. There is growing in Canada today, a national consciousness and faith—a recognition of God's presence and purpose among us and throughout our history. We are coming to realize that it was no accident or mere chance happening that led to the discovery of this country or to the foundation of the Canadian nation. The history of Canada shows the working out of the "eternal purpose of God among the nations as truly as does that of Israel of old." The Fathers of Confederation were doing bigger things than they realized when out of a few loaves and small fishes of the four original provinces, they laid the foundation for the great Canadian nation. God is building in this country a people with a new moral and spiritual outlook and characterized with capacities and potentialities almost limitless in significance.

The Church is to see its mission and future in the light of the future of the nation. It was not until 1885, after the Canadian Pacific Railway was completed and the east and west were united that Confederation was actually established. It was eight years after this completion that the General Synod of the Church of England was formed. Since this time the Church has taken on a national outlook, and has widened its vision and extended its work to its own foreign missionary fields. The small loaves and fishes of the early period have brought forth results that are amazing and astonishing for the shortness of the time.

Effort in Future

But if God has been in the history of the past that should lead us to greater faith in His presence today, and to a greater effort to co-operate in His purpose. We need "to put our hearts into the next stage of development of the Church in this land." We need a renewed faith "in the inner adequacy of things" and we need to see that nothing of this adequacy is lost by reason of our lack of faith or co-operation. There should be in our future history as there has been in our past a repetition of the original miracle; the attainment of great results of "the five loaves and the few small fishes." The Bishop's message was a challenge to spiritual insight and to co-operative activity. He made his audience feel that they were "laborers together with God" and that this fact gave courage and energy.

This morning the Bishop of Fredericton made his charge to the clergy. This charge will be found elsewhere in this paper. This afternoon there is to be a reception for the clergy and their friends at the Bishop's Court.

## MAIL CONTRACT

Sealed Tenders, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 6th of July, for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years 3 and 3 times per week on the route, Boiestown Rural Route No. 2, from the 1st October next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Boiestown, Bloomfield Ridge and at the office of the District Superintendent of Postal Service, St. John.

H. W. WOODS,  
Dist. Supt. of Postal Service,  
District Superintendent's Office,  
May 21st, 1928.

## SUPREME COURT JUDGES MAY GET AN INCREASE

Ottawa, May 29—As a result of the serious opposition that has developed to the proposal to increase salaries of judges it is expected that only a partial implementing of the special committee's report will be attempted by the government.

It is reported that the Minister of Justice, Hon. Ernest Lapointe, will introduce a bill to amend the Judges' Act to provide for an annual increase of \$3,000 each to the Supreme Court judges only.

This, it is expected, will pass the House with little difficulty. The recommendation for an increase of \$3,000 to Supreme Court judges and an increase of \$2,000 each per annum to County Court judges is likely to be ignored by the government in view of the practical certainty of its defeat in the House.

## CHRYSLERS MAY TAKE OVER DODGE WORKS

New York, May 29—Directors of the Chrysler Corporation have approved a plan to acquire the entire property of Dodge Brothers, including its subsidiaries in this country and abroad through an exchange of stock.

Under the terms of the merger one share of Chrysler common stock will be exchanged for each share of Dodge Brothers preference stock and one share of Chrysler common for each five shares of Dodge Brothers Class "A" common and one share of Chrysler common for each ten shares of Dodge Brothers Class "B" common.

The combination becomes the third largest in the automobile industry, with a total capitalization of nearly half a billion dollars at the current market value of Chrysler stock.

## BOURASSA WITHDREW HIS MOTION

Ottawa, May 29—Debate in the House on the amendment to supply, moved by Henri Bourassa, continued scarcely more than an hour. Mr. Bourassa's amendment was one of "regret" that proper steps had not been taken to give full effect to the equality of status as between Great Britain and the Dominions, recognized at the last Imperial Conference. Technically a motion of non-confidence, Mr. Bourassa did not press it as such and, declaring that his purpose had been served by the discussion, withdrew his amendment.

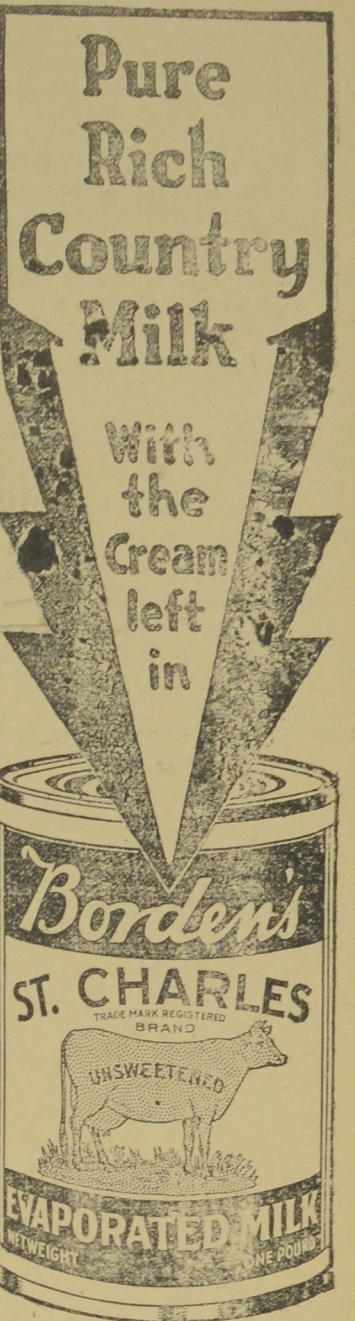

T. L. Church (Conservative, Toronto, Northwest) declared that Canada was not going to be talked out of the British Empire by the Bourassas, the Atkinsons, Ewatts or anybody else.

## HE MARRIED THE LAW BUT BRINGS SUIT

Galesburg, Ill., May 30—George H. Lewis attracted wide notice when he married Miss Helen Carr, the fair justice of the peace, who fined him for bootlegging. She is 32, Lewis, 21. The pair went separate ways recently, and Lewis has now filed suit for \$25,000 against Dennis Sullivan, 65, on the grounds of alienation of affections and "interfering in family affairs."

SPECIAL ATTRACTION  
AT GAIETY THEATRE  
\*\*\*\*\*  
"On Your Toes" is the photoplay at the Gaiety for Wednesday and Thursday, featuring Reginald Denny.  
"On Your Toes," pretends to be no more than orthodox prizefight stuff, but as much is an enjoyable and frequently exciting picture.

Both Denny and his leading lady Barbara Worth, succeed in fringing an air of comparative freshness to their antics. Mary Carr gives her usual capable performance but is cast as a twinkling old grandmother.

Addressed Rotary Club

Canon H. A. Cody, well-known novelist, of Saint John, addressed the city Rotary Club at their weekly luncheon meeting yesterday. He mentioned the old Deanery of this city, built in 1789 and the old Loyalist burying ground. He spoke of the old barracks and of the old English regiments that were there and of those who took part in the war of 1812. Canon Cody also read some of his own poetry on subjects concerning the history of this province.

## EVERY LIVING THING KILLED

The Historic Miramichi Fire

In 1825 Forest Fire burned along the valley of the Miramichi river and on a belt 80 miles long and 25 miles wide almost every living thing was killed. One hundred and sixty people perished, 1,000 head of people were killed and a number of towns, including Miramichi, Chatham, and Douglastown, were destroyed. The damage to the forest could not be even estimated. Damage to other property was placed at \$300,000. The money loss to those thrown out of work was beyond calculation.

## New Brunswick Forests-in Danger!

The fire menace is always present.

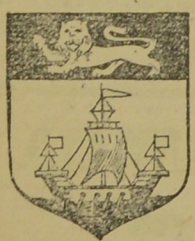

Carelessness with matches and cigarettes cause many costly fires every year.

Fire means loss of valuable material—loss of work—and often loss of life and misery.

There is only one way to prevent a forest fire—Don't let it start!

Be careful!—Make the people around you feel that carelessness with fire is disgraceful, in fact criminal.

The value of products manufactured from wood is made up mostly in labour charges. Thus destruction of our forests means a money loss to our working people.

This is the fourth advertisement in an educational campaign to impress upon the people of New Brunswick the value of our forests, and the necessity of the conservation and preservation of our natural resources.

New Brunswick.
