## HON. MR. BENNETT MAKES PLEA THAT CANADIANS BE GIVEN AN EVEN BREAK WITH OTHER NATIONS

Chatham, Aug. 21—An eloquent  
plea for an even break for Canadians  
so that they may be given an equal  
opportunity to develop their country  
and compete with the other nations of  
the world and insure for Canada the  
prosperity which is its destiny, was  
made here tonight by Hon. R. B. Ben-  
nett, leader of the opposition in the  
House of Commons in Ottawa, when  
he addressed a meeting attended by  
people from all over the county of  
Northumberland, to the number of  
1,200. A policy of Canada for Cana-  
dians first, last and all the time, the  
more selfish it was the better, was the  
policy which he advocated to bring to  
an end the seeming prosperity which  
today was Canada's and to produce in-  
stead a real and lasting prosperity.

Hon. J. B. M. Baxter, Premier of  
the province, in a short address said  
there were many developments in ad-  
dition to the pulp and paper program  
that were in the process of completion  
but because it had never been his pol-  
icy to make any definite announce-  
ment until the thing was completed  
he would say nothing about them.

Charles E. Fish, former M. P., for  
Northumberland, and C. P. Hickey,  
former candidate for this constituency  
and Miss Mildred Bennett were heard  
in short addresses. Miss Bennett was  
presented a bouquet by little Miss  
Gallop, a granddaughter of George E.  
Fisher who was one of Mr. Bennett's  
most intimate friends when he lived  
in the town. George M. McDade was  
chairman and introduced each of the  
speakers.

### History of Canada.

Mr. Bennett in his address briefly  
reviewed the history of Canada prior  
to Confederation in its relation to the  
United States and pointed out how  
after the signing of peace after the  
Civil War the pledge of the United  
States to Canada respecting a recip-  
rocity agreement was broken and a pro-  
tective tariff adopted which shut out  
the products of Canada from the  
United States market. He attributed  
the prosperity of this country to the  
crops which made for large purchas-  
ing power and resulted really in only  
a seeming prosperity. He termed the  
people of Canada tenants for life and  
said that it was their concern to look  
to the future and adopt a policy of  
government that made for continued  
prosperity in the future. He reviewed  
the tariffs placed on Canadian goods  
by the United States and said their  
policy was right. Their government  
was concerned with one thing only  
and that was the prosperity of the peo-  
ple of the United States.

It was high time, the speaker said,  
that the government of Canada awoke  
to its responsibilities and adopted a  
policy which was for the good and  
prosperity of the people of Canada ex-  
clusively and concerned themselves  
not with any other nation of the earth.  
When that time came and that policy  
was adopted then there would appear  
and develop real and lasting prosper-  
ity. The more selfish was that policy  
the greater would be the prosperity he  
declared.

### Trade Matters.

Reviewing the trade statistics the  
speaker pointed out in several cases  
where Canada could have been pro-  
ducing those things which were im-  
ported from abroad had there been  
the right statutes in force. He dealt  
with coal, iron, farm machinery, but-  
ter and products of the farm with the  
same reasoning. Why, he asked, was  
Canadian money going into the United  
States to buy goods which Canada  
could and would produce if given an  
opportunity. Legislation to give the  
people here that even break must be  
passed, he said, if Canada was going  
to develop. In concluding he declar-  
ed that given the opportunity such  
changes would be made in Canadian  
legislation as would ensure Canada an  
even break for development expan-  
sion and prosperity.

### In the Afternoon.

Dealing with past memories center-  
ing on his period of residence in the  
town, Hon. Mr. Bennett addressed a  
meeting here this afternoon.

On the platform were Hon. Mr.  
Bennett, Hon. J. B. M. Baxter, Miss  
Mildred Bennett, Thomas Bell and  
others. Mayor O'Brien extended the

welcome of the town in a short ad-  
dress. Mr. Bennett in his reply recall-  
ed the days thirty years ago when he  
was a young lawyer here in the office  
of the late Hon. J. L. Tweedie.

An informal reception was held this  
afternoon and a great many availed  
themselves of the opportunity of meet-  
ing Mr. Bennett. He plans to go to  
Douglastown for a short time tomor-  
row to visit the place where he first  
taught school. This afternoon he call-  
ed on Mrs. J. L. Tweedie, widow of  
the governor to whom he had referred  
in his speech as his second mother.

Sergeant E. D. Howard of the St.  
John detachment took the pair into  
custody at St. John and investigation  
was made at once. The police head-

this morning as to the case and it  
was definitely stated that the two  
men had nothing to do with the Bea-  
uregard murder, but were the two young  
men who had escaped from the Indus-

An extension to the air express  
services maintained by the Cana-  
dian Pacific Express Company has  
been announced, and a new air line  
will be opened early in September  
between New York, via Albany, and  
Montreal. Lines are already oper-  
ating between Rimouski, Montreal,  
Toronto, and Ottawa.

A name of unusual distinction  
will be added to the Canadian Pa-  
cific's Royal Family of ocean steam-  
ships when the fourth 20,000 ton  
vessel of the new "Duchess" class is  
launched in Scotland. She will be  
named the "Duchess of York," and  
will be christened by Her Royal  
Highness the Duchess of York her-  
self, the ship's name being recently  
changed from the "Duchess of  
Cornwall."

Despite the doubts of nervous  
tourists, the grizzly bear is more  
attracted by the sight of a  
huckleberry bush or a stream  
full of fish than the prospect  
of a juicy specimen of human-  
ity, and the splendid crop of  
huckleberries now in British Colum-  
bia will probably contribute to  
a successful hunting season during  
the month of September and the  
early part of October.
