Poland and Lithuania Have Not Settled Their Dispute

**Possibility of a New Flareup is Not Unlikely —
Frontier Guards Reported to Have Exchanged
Shots Last Night — Lithuanian Soldier
Wounded—Britain Has French Reply to U.
S. Note on Outlawing of War.**

(Special to the Daily Mail by the British United Press)
Berlin, Jan. 6—Possibility of a new flareup between Poland and Lithuania was seen today in the report that Polish and Lithuanian frontier guards exchanged shots near Kraezyna last night. One Lithuanian soldier was reported to have been wounded.
In an effort to protect the present boundary, the Lithuanian guards started to cut down the posts marking the frontier. Firing followed from the Polish guard. The Lithuanians returned the fire.

Would Outlaw War

London, Jan. 6—The British foreign office announced today that it had received from France the reply to the American note of Secretary of state Kellogg, asking France to join the United States in signing an arbitration pact to outlaw war. Great Britain also was asked to sign a similar agreement and awaited the French reply before drafting the British reply.

MACDONALD TAKES WHACK AT SNOWDEN

**Comments Piquantly on
Action of Former Col-
league in Quitting In-
dependent Laborites.**

(Special cable to The Daily Mail by the British United Press)
London, Jan. 6—Some piquant comments on the resignation of Rt. Hon. Phillip Snowden, former Chancellor of the Exchequer, from the independent labor party are made by Ramsay MacDonald in this week's issue of Forward the socialist organ. MacDonald says that within the past few years he has advised inquiry to support the independents in the hope that they would drop much of their present attempts to be important and go in for propaganda and socialist which are more needed than ever Snowden has given up hope of their ever doing so, so the round table gets dissolved and those who have lingered long at the board are told they are no longer any good and had better retire with the ladies to the benches in the House of Commons, whose men stout of heart conspire and drawl and only doddering ancients make converts. "I can console Snowden with this wall, my friend, till you are dead so you will not then know yourself."

MILADY'S FEET TO BE GIDDY

Boston, Jan. 6—New color combinations for women's shoes will feature Boston's shoe style show, one of the nation's barometers on footwear, which opens tonight.
Here are some of the newly developed shades which will grace feminine shoes the coming season:—Honey-beige, plaza-gray, maron-glaze (a soft brown) and gothic-gray.
For shoe trimmings the following colors will be in vogue:—Silver kid, rose blush and white jade.
According to Eugene A. Richardson, director of the shoe show, kids and suedes will predominate, while black patent will probably continue popular.

MANY HUNTERS WERE KILLED IN QUAKER STATE

**Death Toll for the Open
Season Was 67 — The
Slaughter of Deer was
Also Heavy.**

(Special to the Daily Mail by the British United Press)
Harrisburg, Pa., Jan. 6—Almost 15,000 deer and 67 hunters were killed in Pennsylvania during the open hunting season which ended Monday, the state game commissioner reported yesterday.
The deer kill was the greatest in history, exceeding by more than 3,000 and 11,646 deer killed in 1926. Forty-seven hunters were killed in 1926.
Twenty-five elk were killed last month a new record only 319 bears were killed as compared to 660 in 1926. The small bear kill was attributed to the fact that the bears hibernated earlier than usual.

FIRST AIRPLANE WITH HEATING GIVEN A TEST

London, Jan. 6—The first airplane to be fitted with central heating has completed its trials at the Woodford, Manchester, airfield. Constructed for service in "spotting" seals on the Newfoundland coast, the machine is equipped with a container on the exhaust pipe, from which coils run down built into the side of fuselage. There are shutters on either side of the cockpit, which can be opened or closed like ventilators in a railroad coach.
Tests have shown that in this central heated plane it is possible for a pilot, with the thermometer below zero, to fly without gloves. The invention is regarded by experts here as going far toward solving the problem of cold, which ranks with noise as one of the greatest handicaps of flying.
"Don't seem too happy" remarked the Man on the Car "or you may be suspected of not having good sense."

JAMES KELLY QUESTIONED BY POLICE

**Satisfied Them That He
Had Nothing to Do
With the Murder of
Armstrong.**

Perth, N. B., Jan. 5—James Kelley, formerly of this place, who rumor had mentioned in connection with the murder of Edward E. Armstrong, farmer, aged 64, in his barn here last week, came back from the Miramichi recently and after being informed of the rumor telephoned the police asking if they desired his presence at Andover. Upon being informed that they would like to see him he came up from Bristol last night of his own accord and sought out the police headquarters. He gave them a history of his movements during the week of the crime. This story has been corroborated by several witnesses.

Kelley is a returned soldier and was badly injured overseas. He declared that the murdered man and he had been firm friends. Kelley promised to appear at the inquest which will be resumed on Friday at 10 o'clock, along with Mrs. George DeMerchant, and Mrs. Fanny Flanary, both former housekeepers of Armstrong, and Sam Bentley. He has retained Stephen G. Mooney as his counsel.

There were no new developments in connection with the case. It was stated over long-distance telephone last evening by Captain E. C. P. Salt, commissioner of the provincial police. Captain Salt stated further that assertions made regarding Andover jail had been untrue. The commissioner said that Andover jail was not musty as it had been described and that he had not stated that Mrs. Flanary who was held with Sam Bentley, as a material witness, had been forced to eat. He said that the two witnesses had not been the sole occupants of the jail and that the jail was well supplied with locks.

LONDON BROKERS DESERT ANCIENT MONEY DISTRICT

London, Jan. 6—New York stock brokers have for many years maintained up-town offices, but London brokers hitherto have remained faithful to the financial district here. Now this ancient tradition is about to be shattered.
Several enterprising London brokers have decided that what with traffic congestion and the fact that the business center of London is moving westward, they also must move. So negotiations are proceeding for offices in Regent Street, where many banks and insurance companies have already established their quarters.

A POLICEMAN STUDIES CHINESE ON HIS DAY OFF

Paris, Jan. 6—Paris has a linguistic policeman, Monsieur Fieker, who speaks six languages and has an ambition to master ten.
He is a Frenchman, born in Lorraine under the German regime, so he had two languages to start with. He left school at fourteen. During the war he was in a German prison camp in Russia and since then he has picked up English, Italian and Spanish after hours at night. Chinese is his pastime now and afterwards he intends to study Arabian, Portuguese and Polish.
Mr. and Mrs. H. M. Steeves of Montreal is in the city today visiting relatives.

PAPER PROFITS WIPED OUT ON WALL STREET

**The Market Was Hit by
a Frenzied Wave of
Selling.**

**WORST SINCE
MARCH, 1926**
**Speculators in U. S. Steel
Dropped Ten Million
Dollars.**

(Special cable to the Daily Mail by the British United Press)
New York, N. Y., Jan. 6—A half billion dollars in recently accumulated paper profits were wiped out by the frenzied wave of selling which struck the New York Stock Exchange yesterday reports in Wall Street revealed today.
The selling was described as the wildest since March 3, 1926. The tickers even with a new system of abbreviations were unable to keep pace with the transactions which came near setting new records.
Speculators in United States steel lost \$10,000,000. General Motors, \$28,275,000 and other favorites suffered similar set backs Wall Street estimated.

TO RECOMMEND ST. LAWRENCE WATER ROUTE

(Special to the Daily Mail by the British United Press)

Montreal, Que., Jan. 6—A reliable report was received here at noon today from Ottawa to the effect that the national advisory board has decided to recommend a St. Lawrence Great Lakes deep waterway route, to be twenty-seven feet wide instead of thirty which would lessen considerably the cost of construction. It was further understood that it had been decided that the Canadian section of the route would be administered solely by Canadians and that an international joint board of control would have jurisdiction over that part of the route bordered by the United States.
The national board meets the American board this afternoon.

WANTS RECALL OF THE MEXICAN CONSUL, BARRON

Ottawa, Jan. 4—Hon. Charles Maclell, M. P. for Bonaventure, is submitting a motion at the coming session of Parliament asking for the recall of L. Medina Barron, Mexican Consul, at Toronto, and urging that "until the policy of prosecution against the Roman Catholics has been stopped," Canada should discontinue all further intercourse with Mexico. The motion further disapproves the "uncalled for" trip of Sir Henry Thornton, President of the Canadian National Railways, to Mexico. The effect of the motion when it comes before the House of Commons will be to precipitate a debate in the trip of Sir Henry Thornton to Mexico and the controversy which followed the subsequent open letter on the subject sent by Bishop Fallon to Premier King. Mr. Maclell asks for the recall on the charge that Mr. Barron in a statement to the press made "false" and "insulting statements" regarding the Roman Catholic Church.

Board of Trade.
The annual meeting of the Fredericton Board of Trade will be held at the Palms on Thursday evening. There will be a dinner at 6.30 p. m. at the same place. All members interested in the welfare of the city should make an earnest effort to be present.

Bonds of the County Of York Went up in Smoke This Morning

**\$20,000 Worth Burned by the Warden in the Pres-
ence of the Councillors—Municipality is Now
Free of Debt—D. J. Griffiths of Stanley, New
County Valuator—Revision of County By-
Laws.**

The meeting of the York Municipal Council this morning was featured by the burning of \$20,000 of Municipal bonds, issued at the time the Municipal Home was established. This means that the Municipality is now free of bonded indebtedness. Twenty bonds of the denomination of \$1,000 each were turned over by Secretary-Treasurer Scott to Warden Seymour in the presence of the assembled Councillors, and the entire lot went up in smoke. The unique ceremony took place on the sidewalk immediately in front of the entrance to the Council Chamber.
The report of the Administration of Justice Committee submitted this morning showed expenditures for the year amounting to \$8,284.38, of which the city pays \$3,119.33 and the County \$5,165.05.
Before adjournment the Council resolved itself into Committee of the whole, to go over the draft of the revised municipal by-laws.

NEW VALUATOR NAMED

The Council resumed at 10.30 this morning with the Warden in the chair and all of the members in attendance. The minutes of the last meeting were read and approved. Coun. Douglass from the committee appointed to recommend a county valuator to succeed the late G. L. Pugh, reported in favor of D. J. Griffiths of Stanley. The report was adopted and a motion appointing Mr. Griffiths was carried. Coun. McCrea presented a petition from ratepayers of the Parish of St. Mary's asking for a change in a road in said parish of St. Mary's between Brown and Wellington settlements at an estimated cost of \$100. The petition was received.

Coun. Gaynor moved for the adoption of a by-law regarding the licensing of non-resident traders in the Parish of McAdam. It proposes a license fee of \$50 on non-residents entering into competition with McAdam merchants. In case where there is no competition the fee shall be \$10. Adopted.

The lists of parish officers and assessment lists for the Parishes of Southampton, Prince William, Canterbury, Stanley, Bright, McAdam, Manners-Sutton, New Maryland and Queensbury, were received and adopted.

ADMINISTRATION OF JUSTICE

Coun. Gilman submitted the report of the Administration of Justice Committee which was adopted. The report was as follows:

Your committee appointed to adjust the accounts of the Administration of Justice with members from the city of Fredericton, beg to report the following adjustment:
Constables' Fees—City, \$48.50, County \$97.00, total \$145.50.
County Court House—City, \$546.16, County, \$1,092.34, total \$1,638.50.
County Jail—City \$1,073.36, County \$1,073.66, total \$2,147.32.
Miscellaneous—City \$594.23, County \$1,188.48, total \$1,782.71.
Sheriff—City \$394.35, County \$1,188.48, total \$1,782.71.
Witnesses—City \$156.10, County \$312.30, total \$468.30.
Juries—\$306.33, County \$312.30, total \$919.
Total for city, \$3,119.33; for county, \$5,165; grand total, \$8,284.38.

The joint committee recommended that the County Council request the Recorder to keep a daily record of all searches and the amount charged for the same.

Coun. Manuel moved that the cancelled bonds on the Municipal Home, totalling \$20,000, be burned and that the Council adjourn for the purpose.

The motion carried and the councillors repaired to the sidewalk on the lower side of the court where twenty bonds of the denomination of \$1,000 each, quickly went up in smoke. Warden Seymour and Secretary-Treasurer Scott officiated at the ceremony.

Warden Seymour on the Council re-assembling, announced that the burning of the bonds signified that the last dollar of indebtedness of the County had been wiped out. It was certainly an auspicious occasion and one long to be remembered.

The Warden announced that the Commissioners of the Municipal Home would meet in the evening at eight o'clock.

On motion of Coun. Greenlaw, the Council resolved itself into Committee of the Whole to consider a draft of the revised by-laws as prepared by the County Secretary.

ORANGE EATING RECORDS BROKEN

London, Jan. 6—All records for orange eating in England were broken during the Christmas holidays. A total of 6,220,600 were bought, bringing the year's consumption to 209,520,000, compared with 160,200,000 the year before.

MRS. SNYDER AND GRAY HAVE A WEEK TO LIVE

**Will go to the Electric
Chair Next Thursday
—Two Murderers
Electrocuted Last
Night.**

(Special to the Daily Mail by the British United Press)

Ossining, N. Y., Jan. 6—Mrs. Ruth Snyder entered what probably will be the seventh remaining day of her life after a night of fear during which two men were electrocuted in the death chamber close to her cell. Charles Doran and Louis Mahon murderers, were electrocuted shortly after 11 p. m.

Mrs. Snyder and Henry Judd Gray her lover who joined her in killing her husband are next on the list, due to go to the same chair next Thursday night.

Although there was no sound and no word of the Doran and Mason execution Mrs. Snyder and Gray as well as every wakeful inmate were aware of the second the powerful current was turned on that ended the men's lives.

In their dark cells they watched the dim corridor lights grow dimmer when the electricity required for the chair drank up the current.

TIRES OF HIGH BROW NOVELS

The reading public is tired of the high brow, says Gilbert Frankau who has come back to London after two years in the United States. Therefore his next book is not to be devoted to the West End. The heroine is a tobaccoist's daughter, and the story starts in Sydney, Australia, and ends in New York.
