## DE-BUNKING MOVEMENT.

A modern movement which ought to have our close attention is the de-bunking movement. There is so much of interesting, snappy, startling, attractive statement that passes for truth. We hear things, say things, believe things that simply aren't so. One reason we believe them is that we think they are true. Another reason we believe some things is that we fear they are true, and haven't interest enough to look up the facts.

All kinds of false ideas, for example, are spread about the effect of eating meat or not eating meat; eating white bread or not eating white bread; all sorts of theories about tobacco and exercise. There are strange and interesting theories to cover all our waking activity. Let's be broad-minded enough to listen to everything. Let's be discriminating enough not to believe everything. Let's de-bunk ourselves.

## HOW TO LIVE LONG.

No less an authority than Dr. George Walker of the Johns Hopkins faculty, in an address before the American Dietetic Society, declares that Americans can live to be a hundred years old if they pay proper attention to diet. He insists that if care is taken in the selection of food a century of life would be a matter of course rather than a matter of luck.

Whether many of us long to live to be over a hundred is not so certain, but it is safe to say that most men and women would be happier and better in every way if they used discrimination in the quantity and quality of their food. The tendency of many persons is to over-eat, and that it is conceded is worse in some ways than the disposition to drink to excess.

## A GREAT CANADIAN.

Congratulations to Right Hon. W. S. Fielding today on reaching the four score and ten mark. The Right Hon. Mr. Fielding is a native of Halifax and began his career as a journalist on the staff of the Halifax Chronicle. He was elected to the Legislature of Nova Scotia in 1882 and became Premier in 1884, holding office until 1896 when he joined the Laurier cabinet as Finance Minister. Defeated in the reciprocity campaign of 1911 he was re-elected in 1917 and remained in Parliament until 1925, when failing health compelled him to retire. Right Hon. Mr. Fielding is a great Canadian who has rendered good service to his country and is esteemed by men of all parties.

## NEW GLASS WORLD.

Few things more interesting in the industrial realm than the change in glass. In a few years we have seen cut glass go almost out of use and all sorts of interesting varieties come into use. Now E. C. Baly, professor of chemistry in Liverpool, England, announces an unbreakable glass. It is not merely non-shatterable, it is non-breakable. It can be molded into any form and turned like a piece of wood. It is still much too early to lock up the patent office.

The Saint John Telegraph-Journal is sending Mr. A. M. Belding, its veteran editor, and Mr. Leon A. Keith, a manufacturer's agent to the West Indies by the Lady Nelson to make a study of conditions. They will study the opportunities for Maritime trade—with the two million odd residents of the Straits of the Caribbean Sea. Mr. Belding will write his impressions of the country which he is well qualified to do, and Mr. Keith will endeavor to establish trade connections for Maritime concerns.

The sick bedside at Buckingham Palace is being watched with feelings of anxiety by the whole English speaking world. The latest advices are

to the effect that His Majesty the King passed a fair night. Throughout the world tomorrow prayers will be offered for his speedy and complete recovery.

The man with the strong and attractive personality is the one who gets ahead in the engineering profession. A survey by an engineering society shows that technical knowledge plays a 15 per cent role in success. The other 85 per cent is due to personality. Then how develop personality? Well, how do you think?

It was announced at Halifax by Sir Henry Thornton that Hon. W. E. Foster, chairman of the St. John Harbor Board, and Mr. Peter Jack, Chairman of the Halifax Board had been chosen to represent the Dominion Government on the inaugural trip of the steamer Lady Nelson to the West Indies.

The postoffice authorities have sent out their warning to mail Christmas packages early, but we suppose there will be the last-minute rush as usual. The Christmas spirit is something that just won't be hurried.

Some professor has figured out that a college education is equal to a capitalization of \$72,000, which may be true, but it's a long time before the average graduate begins to realize on it, if ever.

Correspondent of the Morning Oregonian writes the questions column of that paper to ask: "How may I get in touch with a bill collector in Portland?" There's a chap who is willing to go far afield to hunt trouble.

President of the New York Academy of Medicine is urging more whiskey for the aged. Well, we've always maintained that old age has its compensations.

An Australian actress has announced her engagement to Explorer Wilkins, which may explain why Wilkins took it on the run for the Antarctic.

Our recollection is that eating one green apple a day used to bring the doctor on the run.

"East is West" Repeated  
"East is West" the show presented by the Fredericton branch of the Canadian Legion, B. E. S. L., at the Opera House on Thursday was repeated last evening before another large house. The feature attraction was given as successfully, probably more, than on the opening night and the splendid acting of the performers called for much applause from the audience. The Darktown Ebony Revue which was rendered in the nature of a radio broadcast from station G. W. V. A., and consisting of thirteen colored minstrels was an immediate hit with the crowd. The inimitable Morris Cain assisted by the equally funny Max McLaggan, Mont Chappell and Alfred O'Hara kept the audience in laughter throughout the performance. Austin Jonah and Kenneth Holder, two of the Minstrels sang splendid solos, while others joined in the chorus. Morris Cain rendered a couple of ditties, accompanied by a little shake, while McLaggan and Chappell endeavored valiantly to live up to the latter half of the song and dance numbers. A. F. Belding was the announcer and he also pleased with several vocal numbers.

Condition The Same  
The condition of Very Rev. F. L. Carney, who underwent a serious operation for appendicitis on Thursday night, is about the same today. Report from the Victoria Hospital this afternoon was that the Dean spent a fairly comfortable night and this morning his condition was if anything, slightly improved.

Subscription Tea  
The Ministering Circle of the Kings Daughters held a very enjoyable subscription tea at the home of Mrs. W. J. Osborne, Church Street, yesterday afternoon. Mrs. Osborne was assisted in receiving by Mrs. C. C. Jones and Mrs. H. G. Chestnut ushered the guests to the tea room. The prettily appointed tables were presided over by Mrs. W. C. Kierstead and Mrs. H. H. Gunter. Those who assisted were Mrs. W. A. Loudoun, Mrs. R. W. McLellan, Mrs. W. M. Clark and Mrs. J. D. Palmer.

## THROUGH OUR SIEVE

No man is indispensable and might in fact, be in the way.

As for stowaways there is the young couple in the rumble seat.

Both ends are dangerous when a gun is in the hands of an amateur hunter.

For the fellow who said he liked any color, just so it was red, there is the Red Cross.

A London physician has struck a popular chord by declaring most diets are wrong.

If men like to watch a steam shovel at work how much more interesting would be an active volcano.

Lima Beane says the girls of today have forgotten, if they ever know where nature puts the color in cheeks.

There has been proof this week that November weather is not always governed by what the poets wrote about it years ago.

Provided you're strong and in robust health the insurance salesman shudders over what may happen if you don't take out a policy.

## B. Y. P. U. Organized

A meeting was held at Fredericton Junction last evening for the purpose of forming a branch of the Baptist Young Peoples Union. There were about thirty present and the gathering was a most enthusiastic one. Rev. Merle F. Mason, pastor of the George Street Baptist Church in this city addressed the young people and his remarks were listened to with interest. The following officers were elected: Honorary President Rev. W. B. Crowell, President, Hazel Tracey, Vice President May Gerecht, secretary Annie Redstone, treasurer Elizabeth Mesereau, organist Edris McClay, assistant organist. Marion Scott. The three group leaders are: Edris McClay, Carrie Hartt and Mrs. Flossie Hartt, Harry McCracken. The organization will be conducted on the group system.

Mrs. J. W. McCready has gone to Windsor Ont., where she will visit Mr. and Mrs. R. G. Cooper.

## RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that thin blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is a impossible task because there is nothing to build on. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism from the system. So long as the blood is maintained in a healthy condition the trouble will not return. This is not theory. It has been proved in hundreds of cases; here is one:—Mr. J. W. Rose, R.R. 2, Albany, P. E. I., says:—"For some years I was a great sufferer from rheumatism and although I tried a great many remedies, I did not get any permanent relief until after I took Dr. Williams' Pink Pills. The trouble was located mostly in my shoulders, and at times was so bad that my right arm was almost useless. Of course I suffered much pain and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this meets the eye of any rheumatic sufferer my advice is to try Dr. Williams' Pink Pills at once."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## DIED

SMITH—At West, Somerville, Mass. November 22nd, H. Treadwell Smith aged seventy years.

Funeral on Sunday afternoon Nov. 27th, from the home of his sister Mrs. Annie Rowan, 232 Aberdeen Street at two o'clock with service by Rev. Harry Burns. Interment at Marysville. Funeral under auspices of the Knights of Pythias.

## NOWADAYS YOU PRESS A BUTTON

Or perhaps a switch, or some little gadget, and a lot of things happen around home that lighten labor and banish trouble.

A Whirling Fan brings a cooling breeze, and a little copper, dish-like affair throws out a sizzling blast that warms the room in no time.

Another button boils coffee, toasts bread and cooks waffles. Another does a better job than a broom. Another makes a happy laundress out of a dismal washwoman. Another one cools the ice-box. Another—but why go on?

Labor and time saving devices have come and are today within the reach of the humblest home.

And one of the chief reasons why they have come and why they are within the reach of the humblest home is the power of advertising.

Advertising has carried the news of these better ways of doing things to every home. It has created a desire to possess them, and countless thousands have purchased them, and live better because of them.

Reading advertising not only tells you about new, helpful mechanical devices for the home, but it is an unerring guide to reliable products.

READ ADVERTISING REGULARLY. IT POINTS THE WAY TO BETTER LIVING.
