TEACHING QUALITIES.

The quality of teaching is the measure of the success of the college. President Wilkins of Oberlin college goes to the heart of the matter when he says that.

"What shall it profit a college to add to its teaching staff a man who has a fine voice, is a natural mixer, plays golf in the eighties, is a tireless and efficient committeeman, a productive scholar, an idealist in life and work, but cannot teach?"

The talent for inspiring in others the desire for knowledge is a rare talent. It is easy to tell things to students. To make them love to find out things for themselves is something else.

THE GREATEST SCOT.

Ask Sandy Macsomething-or-other who was the greatest Scotchman and he will not say Carlyle or John Knox. He will tell you Robert Burns. And he will be right. Carlyle himself called Burns "the greatest Scotchman who ever lived." Burns was far more than a singer of songs. He was more than a never-to-be forgotten poet. Burns was the greatest democrat of modern times. He did more than any other man of his century or the century that came after him to break down the arrogance of aristocracy and despotism. He exalted the common man. He gave an everlasting touch of glory to the commonplace.

Government control of the liquor traffic now prevails in seven of the nine provinces of Canada, and if it is an economic blunder and impoverishing the people, as some moral uplifters would have us believe, it is rather strange that this condition of affairs is not reflected in the reports of the chartered banks of Canada. Most of the big banking institutions have held their annual meetings, and in every case there have been optimistic reports and speeches about increased assets and increased earnings. It is quite evident that the men who carry on the banking business of the country do not regard government control of the liquor traffic as a menace.

The Moncton City Council has by a vote of 5 to 2 decided to grant liberal concessions to a Montreal concern which is apparently willing to invest \$250,000 in that city in establishing a brewery. A protest from the temperance forces did not prevent the city council from taking action. Moncton is out for new industries and there is no reason why it should turn down a brewery. Saint John has two breweries which appear to be flourishing at the present time and giving steady employment to labor, while a large sugar refinery located in that city, is closed down for the winter.

Al G. Field's Minstrels have disbanded. The things we always intended to ask about minstrel shows is how much shorter would the performance be if the interloctor didn't repeat the question over after the end man.

A New York chain of popular priced restaurants says it is perfectly possible to live 200 years on a strictly vegetable diet, and there is really no answer to that except the old one that doubtless it would seem so.

We read that about five miles is covered by the average golfer in playing eighteen holes, which shows that the man who isn't an average golfer gets a whole lot more exercise.

The importation of certain kinds of musical instruments is forbidden by the Soviet. No form of Government is ever so bad that one can't find some good in it.

Col. Lindbergh who has been described as an eagle without claws or talons, is certainly doing his bit to

unite the Americas in bonds of prosperity and peace.

College students are now objecting to the way they are being portrayed in the movies. Well, the most of us object to seeing ourselves as others see us.

The second session of the present Parliament opens at Ottawa on Thursday of this week. The session gives promise of being a very important one.

It never can be done. If we all loved our neighbors as we love ourselves the flattery would be sickening and there's nobody at all to blame things on.

One chronic consoles himself with the thought that "everybody has or lacks something." Yes, the surgeons have been quite busy, late years.

"When a girl becomes engaged," says the Detroit News. "her mother always says it is hard to give her up," and usually it has been, too."

Hope: The literary assumption that they lived happily ever after.

SEIZURE OF ALCOHOL AT ST. LEONARD

St. John, Jan. 23—Alcohol valued at approximately \$2,000 was confiscated recently by officers of the New Brunswick Preventive Force on a Canadian National train at St. Leonard according to word received here by J. Charlton Berrie assistant chief. The contraband, which comprised some 100 gallons, it is understood was consigned to some fictitious person. Acting on a "tip" officers Soucie of St. Leonard, and Picard and Morin of Edmundston boarded the train and found the stuff hidden among other express matter. This it is understood makes the third or fourth large seizure of illicit liquor on the C. N. R. within the last few months.

Died At Hospital

The death occurred at Victoria Hospital on Saturday night after a lingering illness of Mary, daughter of Mr. and Mrs. Henry Doherty of this city. The deceased is survived by one sister Margaret, besides her parents. She was twenty years of age and until recently was employed on the staff of The Palms Confectionery store. She was well known and was respected by a large circle of friends. Funeral services will be conducted from the home 622 Campbell street at two o'clock tomorrow afternoon. Rev. A. F. Bate will conduct the service and interment will be made at New Maryland.

Inspector of Hatcheries.

Mr. J. Catt of Saint John, inspector of fish hatcheries for the Maritime Provinces is in the city today in consultation with Chief Game Warden Ritchie. Mr. Catt is doing good in the propagation of salmon and trout and his efforts are much appreciated by the members of the N. B. Fish and Game Protective Association. He will likely testify before the Fisheries Commission when it meets in Saint John next week.

THROUGH OUR SIEVE

A cynic thinks the fellow who looks on is bigger than the parade.

Even in the excitement of a duel Mussolini kept his shirt on.

We're advised "How to Take Care of a Cold." But why? No cold ever did us a favor.

One writer right or wrong says "women are ruining marriage." Perhaps they find bridge much more entertaining.

Imitation of the birds brought the airplane. Maybe study of man's lower jaw will eventually bring perpetual motion.

When an Italian feels like forecasting the early downfall of Mussolini he goes outside of Italy to exercise his prophetic gift.

Nothing could be gained by trying to convince the young people of today that there ever was a time when the telephone was not an absolute necessity.

POLICE DOG'S FATE SOON TO BE DECIDED

Special cable to the Daily Mail by the British United Press
Kansas City, Mo. Jan. 23—A court of appeal decision today was to decide fate of Bessie a four-year-old police dog under sentence of death.

Bessie violated the law when she bit a 15 year old boy last November. She was sentenced to die and since then her case has been fought back and forth and finally taken to the court of appeals.
