

**Her Baby Wakes up Laughing and Cooing**

"I started using Eagle Brand for my five months old baby two months ago. Now she wakes up laughing and cooing and is more than satisfied. No more getting up nights, as she gets only one bottle, going to bed, and no more till 7 a.m. She won a third prize at a recent baby show and I know Eagle Brand helped her to win. She weighed 6 lbs. at birth but is now over 13 lbs. If any mother would like me to tell her about Eagle Brand I would be pleased to do so. I only wish I had known about it sooner as it cannot be too highly recommended".

"Mrs. W. J. P. Ontario."

## NOWADAYS YOU PRESS A BUTTON

Or perhaps a switch, or some little gadget, and a lot of things happen around home that lighten labor and banish trouble.

A Whirling Fan brings a cooling breeze, and a little copper, dish-like affair throws out a sizzling blast that warms the room in no time.

Another button boils coffee, toasts bread and cooks waffles. Another does a better job than a broom. Another makes a happy laundress out of a dismal washwoman. Another one cools the ice-box. Another—but why go on?

Labor and time saving devices have come and are today within the reach of the humblest home.

And one of the chief reasons why they have come and why they are within the reach of the humblest home is the power of advertising.

Advertising has carried the news of these better ways of doing things to every home. It has created a desire to possess them, and countless thousands have purchased them, and live better because of them.

Reading advertising not only tells you about new, helpful mechanical devices for the home, but it is an unfailing guide to reliable products.

READ ADVERTISING REGULARLY. IT POINTS THE WAY TO BETTER LIVING.

## SMALL CITIES TO BE SERVED BY BRAZILIAN

(Montreal Post)

When the annual report of Brazilian Traction becomes available next June or July it is expected to reveal that the company has acquired a number of independent lighting and power companies in the populous community adjacent to Sao Paulo. The annual report for 1927 showed that the company had acquired five concerns serving thriving smaller cities and towns and that negotiations were in progress looking to the acquisition of two additional concerns.

The hydro plants bought, developed only 5,000 horsepower but included in one was a franchise for a power site capable of developing 40,000 horsepower.

It is reported that additional companies have been bought in the past few months. Eventually it is planned to link the segregated companies into a system which will be served principally from the Serro and other developments.

It is expected that cities grouped within a radius of 100 miles or so, and Rio de Janeiro likewise will be served by Brazilian through the purchase of existing plants and their development and linking up with a hydro system based on Rio de Janeiro.

International Telephone & Telegraph recently approached Brazilian Traction with a view to purchase of Brazilian Telephone Co., a subsidiary of Brazilian Traction. It is reported on good authority that the Brazilian directors have decided definitely against the sale. It is believed that there will be great expansion of the telephone business in Brazil within the next few years.
