F. G. Miller of Moncton is in the city.

UNION OF MUNICIPALITIES FAVORS THE TAXATION OF THE GOVERNMENT LIQUOR STORES

Moncton, Oct. 10—The Union of New Brunswick Municipalities tonight passed a resolution asking the Provincial Government to amend the Intoxicating Liquor Act, so as to allow the municipalities to tax stocks and property of the Liquor Control Board in the same way as other property is taxed. Another resolution passed requested the Provincial Government to reimburse municipalities for additional expenses caused by the operation of the Act. The Dominion Government was also asked by resolution to reimburse the municipalities for all expenses incurred in connection with the enforcement of the Inland Revenue Act.

Another resolution urged the government to build trunk highways connections through the incorporated towns.

Speakers at the afternoon and evening sessions were J. D. McKenna, who spoke on forest fire prevention this afternoon, and Hon. C. D. Richards, provincial minister of lands and mines, who spoke this evening on mineral development in New Brunswick. The convention will conclude tomorrow.

Resolutions were passed as follows: Whereas, the provincial government has established liquor stores and carries stocks which are sold at a profit; therefore, this Union of New Brunswick Municipalities respectfully request that clause 12 of chapter 48 of the Intoxicating Liquor Act 1927 be so amended as to allow the municipalities to tax the stocks and property of the Liquor Control Board in the same way as other property is taxed.

Whereas, in the operation of the New Brunswick Liquor Control Act 1927 heavy expenses are imposed on the municipalities for the maintenance of prisoners convicted under this act; and

Whereas, your committee have before them many resolutions from municipal bodies protesting against this expense and setting forth that the provincial government secure all pecuniary gain from the operation of said act;

Therefore be it resolved, That the Union of New Brunswick Municipalities in convention assembled request that the provincial government will take the necessary steps to reimburse the various municipalities for their additional expenses caused by the operation of the act.

This resolution was passed unanimously.

With a view of equalizing the valuation of the county school districts, and for the purpose of stabilizing the several school systems and the industries necessary for their maintenance, it is the opinion of this union that a central committee (one of which shall be the inspector and one a member of the teachers' association) known as the county school board, be organized under the jurisdiction of the board of education, whose duties shall be (1st)—The assessing and collecting of all school rates on a uniform basis throughout the county; utilizing the services of the local secretary and the county board of valuers; (2) the fixing of teachers' salaries; and the responsibility for the proper construction and maintenance of school buildings. This was also passed unanimously.

Whereas, under and virtue of the Inland Revenue Act, the entire expense of prosecuting violation of said act, is a charge on the municipality as well as the maintenance of persons in the county gaol when committed for violations of said act, and whereas, all penalties recovered for violations of the Inland Revenue Act are transmitted to the Dominion treasury at Ottawa; therefore, be it resolved, that the Dominion government be asked to reimburse the municipality to a sufficient extent to cover all disbursements and maintenance in gaol of prisoners.

The Union of New Brunswick Municipalities reaffirms its stand that the municipalities should stand in the amount of taxes received by the government of this province from the Canadian National Railways. Passed unanimously.

The government has built trunk highways through the province, which

roads stop outside of incorporated towns, and whereas, many towns are unable to provide the capital expenditure to build standard connections for said roads, and it is in the public interest to have these roads continuous through the towns. Therefore, be it resolved, that the government be strongly urged to build trunk highway connections through the incorporated towns. This resolution was also passed unanimously.

The delegates from Bathurst presented a resolution, but this was left over until tomorrow for consideration. They also extended an invitation to have the Union of New Brunswick Municipalities hold their next convention in the town of Bathurst. This invitation was accepted on motion of J. S. Scott, and seconded by Mr. Wilson.

When the morning session opened a committee formed from the whole convention held a conference with the executive of the Union of New Brunswick Municipalities and asked that the part of the report on the distribution of C. N. R. taxation money, passed the day previous, referring to personalities be expunged. The convention executive after discussing the matter unanimously agreed to do this and the personal references made in the report concerning Premier Baxter were wiped out. When the matter was submitted to the convention for endorsement it was carried on the motion of Mayor G. P. O'Brien, of Chatham.

The evening session of the convention was featured by an address by Hon. C. D. Richards, Minister of Lands and Mines, who spoke on the subject of "Mines and Minerals of New Brunswick" in the course of which he reviewed in a comprehensive manner the development that was taking place in all the mining areas in the province and referred to the prospective development that was soon to be under way.

OPERATIONS FOR NEW RESERVE TO COMMENCE 1929

(Continued From Page Eight.)

cials that his offer was accepted and steps were immediately taken to have the land surveyed. This work has been carried on for some time now under the direction of A. E. Hanson, of this city. The work is that this part of the work is nearly completed and everything will be in readiness for an immediate start as soon as the winter snows leave the ground permanently in the spring.

Cause Satisfaction.

The property is along the easterly side of the Old Miramichi Road in Devon and consists of about 300 acres of woodland. The present dwellings of the Indians will be removed to this land and small tracts will be allotted to each of the Indians for their own use. New Buildings will be erected and up to date furnishings supplied. The completion of this work will fill a long felt want to the town of Devon and will be an endless source of satisfaction to the Indians themselves as their imminent new quarters will be much larger and roomier and will enable them to exercise more freedom than heretofore.

CHARGED WITH DRUNKENNESS

Logan, Ohio, Oct. 10—Warrant for the arrest on a charge of drunkenness here last Saturday night, was issued today for H. C. Blosser, Deputy Warden in charge of the Junction City convict operated brick plant, where from 17 to 20 convicts were burned to death when the dormitory at the plant was burned early Monday.

SNOW IN THE WEST

Saskatoon, Oct. 11—Starting at an early hour this morning, snow was reported throughout the Saskatoon district. The snowfall was heaviest about 11 o'clock this morning. Threshing operations which were fast nearing completion will be halted for several days, it is expected.

"SALADA" TEA

263

One out of every five pounds of tea used in Canada is "SALADA"—the reason—it is more satisfying and better value than any other tea. Sales are the best proof. Brown Label Quality, 75c per lb. Orange Pekoe Blend, 85c per lb. Sold everywhere.

EXPORTS TO U. S. DECLINED IN THE LAST 3 MONTHS

(Continued From Page Eight.)

against none for the corresponding period of 1927.

In the export of manufactured products quite an increase was shown. Bricks and clay products to the value of \$3,328 were exported against a total of \$2,248 last year. The export of shoeboxes totalled \$5,188 against \$2,280 during the same period last year.

The export of potatoes for the quarter was valued at \$929 against \$1,586.79 for the corresponding period of 1927, while turnip exports fell from \$1,680 to nothing. Lath shipments totalled \$45,915.19 against \$60,332 for the same period of 1927.

A rather surprising item which appears in the list of exports is one showing fourteen cows valued at \$22,500. No information is vouchsafed as to the breed of the animals, but they were apparently of a high type.

ALL SIGNS INDICATE A MILD WINTER

North Head, Grand Manan, Oct. 11—It is said a weather forecast covering long periods is impossible, but all are apt to be swayed more or less by signs that portend certain things and are especially receptive to and influenced by unusual reactions in nature that seem to point to some definite line of action after the manner of the Pythian or Delphic oracles. Mrs. J. E. Gaskill has in her garden at North Head, a rose-bush that seems to be actuated by this prophetic vision. This plant blooms abundantly in the early summer, but in the fall of what usually proves to be an "open" winter produces a second crop of blooms. And in view of its correct prognostications of the past, a mild winter may be looked for as the bush is in full bloom at the present time.

S. C. Isaac a well known commercial man of Montreal is in the city today on business. He will leave this evening for St. John.

WOMAN SO NERVOUS COULD NOT SLEEP

Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Masson, Que.—"I was very nervous, so nervous that sleep was almost impossible and I was all run-down. I saw your ad in the paper and have taken eleven bottles of Lydia E. Pinkham's Vegetable Compound. I could not wish to feel better than I do, and I recommend it to all."—MRS. DELPHINE LAFRAMBOISE, Masson, Quebec.

New Carlisle, Que.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down system and it helped me. My nerves are better and I have a good appetite now. The Vegetable Compound has been of great benefit to me and I will answer letters from women asking about it."—MRS. WILBUTTE, JR., New Carlisle, Quebec.

FERRY LINE WAS BROKEN IN GALE

Gagetown, N. B., Oct. 10—During the heavy southwest gale which blew here continuously Tuesday afternoon the cable of the government ferry between Meadow Lands and the Light-house was snapped. The ferry was able to gain the shore and repairs were completed this afternoon and the ferry was again running tonight. The storm was very heavy in this locality with much lightning in the evening.

Here and There

(149)

Brandon's first broadcasting station has gone into daily use, and a studio located there will give grain and stock reports each day, and once a week, in the evening, will broadcast local concert programmes.

A training school for the encouragement of home industries is being talked of in Winnipeg, following the Folk Song Festival held in that city recently under the auspices of the Canadian Pacific Railway. Montreal, it may be noted, has had for some years classes to teach their native handicrafts to children of foreign-born settlers, who would otherwise be likely not to acquire the skill they would have developed in their own country.

W. N. Beach, a hunter and photographer of wild life who had the unique distinction of finding two different pairs of locked antlers during his career, was a recent visitor to the General Tourist Department of the C. P. R. at Montreal. Locked antlers are very rarely found and one of the two pairs discovered by him are so firmly interlocked that they cannot be pulled apart by two strong men, and to be separated would have to be cut.

"In all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens" was the statement made by E. W. Beatty, president of the Canadian Pacific Railway, who has just returned to Montreal from an eight thousand mile tour over the company's western lines, accompanied by a party of directors and Montreal financiers.

Billing and cooing and showing no signs of having their affectionate dispositions dampened by the strain of travel, two cages of Japanese Love Birds passed through the Windsor Station at Montreal recently on their way from Japan to Scotland. Travelling from Kobe on the Empress of Russia and across the Atlantic on the Duchess of Atholl, the shipment of twenty eight Cobalt Budgerigars, as they are also called, are under the protective wing of the Canadian Pacific Express throughout. They were of a brilliant blue plumage, long tailed and beaked much like a parakeet.

Not only is Canada sufficiently interested in the League of Nations to have the Prime Minister go over to Geneva in person to participate in this year's assembly, but many thousands of active supporters of the movement are now organized throughout the country. According to information given out by the General Secretary of the League of Nations Society in Canada at Ottawa the membership of that organization has grown in three years from less than a thousand to almost fifteen thousand in number. Although strongly supported by women's organizations of all sorts and descriptions, its character is by no means feminine as over half the members are business men and in British Columbia 85 per cent are men.
