REVOLUTION SHORT-LIVED IN PORTUGAL

Three Cabinet Ministers Involved in Attempted Upheaval Against Portugese Regime — Began With Militia Mutiny.

Lisbon, July 23—Three former cabinet ministers were among those under arrest today after seven persons had been killed and 35 wounded in a short lived attempt at revolution.

The government in an official statement said the "movement had a political character, being directed against the present regime, but it lacked the moral atmosphere for success."

The trouble began Friday night when some officers of the Seventh Regiment Chasseurs at Castellao Barracks mutinied. Local troops laid siege to the barracks. A storming force supported by artillery started a vigorous offensive on the barracks on Saturday morning. "During the attack on Castellao Barracks, the artillery did some damage to adjacent houses, injuring some occupants, the total casualties being estimated at seven killed and 30 wounded, including one mutinous officer and some soldiers."

The government asserted that after the loyal troops attacked the barracks the rebels submitted quickly and about eight o'clock in the morning the mutinous officers, some non-commissioned officers and civilians, who had joined the movement were arrested.

JAPAN DECLINES TO ABROGATE THE CHINESE TREATY

Nationalists at Peking Told Commercial Agreement Still Holds Good.

Tokyo, July 23—Japan has definitely declined to consent to abrogation of the commercial treaty with China. Word of this was sent today to Kenkichi Yoshizawa, Minister of Peking.

He was instructed, however to inform the Nationalist foreign office at Nanking that Japan was willing to negotiate for a revision of the treaty.

The note for the Japanese Minister, which he was told to transmit to Nanking stated that the government here considered that the Nationalists had taken an illegal step in notifying the Japanese representatives that the treaty had been abrogated. This was the basis for the definite refusal to accept the notice of abrogation.

If the treaty was abrogated, Japanese residents in China would be placed under the jurisdiction of the law enforcement agencies of that country. The treaty is one of the "unequal" pacts which the Nationalists desire to cancel. They claim that special privileges for foreigners in China place the Chinese in an inferior position.

CLAIMS YOUTH ARE DRINKING

Hopewell Hill, July 23—Taking for his text, the words from Romans 14-22, "Happy is he who condemneth himself not, in the thing he alloweth," Rev. Archibald Sutherland, field secretary of the N. B. Temperance Alliance, delivered a strong discourse in the Baptist Church Sunday afternoon, dealing with the evils of the drink traffic, and the degrading and sorrow-producing results of the sale of intoxicating liquor under the new law of this province, as he has found conditions, he said, in his work, in the different counties.

The speaker told of various incidents he had encountered of both boys and girls becoming addicted to drinking habits, and said the new law was violated more than ever the prohibitionary law was.

Proviso Disregarded

Regarding the age proviso, the speaker told one instance where he entered a liquor store, and got a youth to whom the dealer was about to sell liquor, to admit he was only 17 years old. The age limit was disregarded, he said. He told of a touching incident of a broken-hearted father telling him of his daughter being drunk.

Mr. Sutherland has addressed ten meetings in Albert County during his present tour, and reports good encouragement.

EMIGRATION IS CONSIDERED IN GREAT BRITAIN

Bitterness in Old Country Because Canada Does Not Co-operate in Schemes to Bring Out British Settlers.

By HERBERT BAILEY,
British United Press Staff Correspondent
London, July 24—The problem of British emigration to Canada which is causing not only anxiety but also much bitterness throughout Britain, is likely to force both the British and Canadian governments to tackle it with some vigor in the near future.

Many severe strictures on Canada's attitude toward British immigrants were made yesterday by Sir Warren Fisher head of the industrial transference board, but as he requested that he should not be quoted it is impossible to give his exact words.

He seems to think, however, that fine after dinner speeches and talk about empire settlement are more or less "bunk" and that Canada, in common with the other Dominions is not doing her best to secure British immigrants but is giving preference to foreigners.

Possibly a mother's greatest triumph aside from that of having negotiated a happy marriage, comes when she finds out she can wear her girl's daughter's pretty clothes.

As an added sensation, in case of going over the Falls in a rubber ball, the passenger might wear a derby hat.
