No rumors of revolution or disquiet have been heard here. Trains have been arriving daily from the Crimea and South Russia. Their passengers ridiculed reports of trouble.

EDMUNDSTON HAS PULP AND PAPER SCHOOL

Edmundston, Jan. 31—An event of no small moment to the future of this town took place recently in the opening of a pulp and paper school in conjunction with the Vocational work done in the local High School. Last year a course of 20 lectures on paper production was given by Leo Kelley, M. A., former chief chemist of Fraser Companies, Limited, now assistant superintendent of the sulphite mill. This was the first work of its kind to be done in this province. This year a class is commencing the three-year course prescribed by the Canadian Pulp and Paper Association, who will examine the students and give certificates on the successful completion of the work.

Early in the spring the Provincial Vocational Director, W. K. Tibert and Principal D. R. Bishop, met the local School Board with the result that a new and up-to-date laboratory, suitable for any kind of pulp and paper work, was authorized and now being rushed to completion.

Mr. Kelley, who is a graduate of U. N. E., and took post graduate work at Yale University, will be lecturer-in-chief and will be assisted on occasions by experts from Fraser Companies, Limited, and teachers from the local High School staff, all of whom will work gratuitously.

With the opening of a ground wood mill here during this year, the school will be able to cover fully all phases of wood pulp and paper manufacture.

QUEBEC HAD A GOOD SURPLUS LAST YEAR

Quebec, Jan. 31—Hon. Jacob Nicol, Provincial Treasurer, delivered his seventh budget speech to the Quebec Legislative Assembly this morning. The provincial treasurer announced that for the year ended June 30 last

HON. JACOB NICOL.

the revenue was \$30,924,997 and an expenditure of \$28,879,943, leaving a surplus of \$2,045,054. There was paid from revenue a million dollars toward debt reduction thereby reducing the surplus to that extent. This is the third year in succession that the provincial treasurer has been able to carry out his intention of debt reduction from revenue.

In a revenue of \$30,000,000 the province reaches the highest point it has yet attained, and contrasted with a revenue of less than \$10,000,000 for the year ended June 30, 1913, shows a trebling of revenue. The proceeds of the amusement and hospital taxes are not included in the ordinary revenue since such monies constitute a trust fund, and are separately considered.
