Many Old Country People Keen for Harvesting Work

Eight Thousand Applications for Trip to Canada Have Already Been Received by the Various Recruiting Depots in England — Men From the Mining Areas are Preferred by the Government.

(By HERBERT BAILEY, British United Press Staff Correspondent.)

LONDON, Aug. 7—Eight thousand applications for harvesting work in Canada was received by the various recruiting depots yesterday, and it is obvious that thousands will have to be disappointed.

The London Labor Exchanges were kept purposely closed all day yesterday which was a holiday, because the government wants recruits to come from the mining areas.

Manchester alone had 2,000 applications and South Wales 1,500. In this connection the Manchester Guardian remarks that contrary to the popular notion a miner easily adapts himself to new circumstances of work and life, and it expresses the opinion that most of the 10,000 harvesters will settle in Canada.

HON. MR. BENNETT FINISHES TOUR OF NOVA SCOTIA

Thinks More Should be Done to Encourage the Fisheries of the Maritimes.

St. Peters, N. S., Aug. 6—Standing on the shore of the Atlantic, Hon. R. B. Bennett here this evening delivered the final speech in Cape Breton Island of his summer speaking tour. The Conservative leader emphasized the need for encouragement to the fishing industry of the Maritimes and the necessity for better transportation facilities on this island. "I do not want to discuss the report of the royal commission on fisheries," he declared, "in any way that might prejudice the position of the government. I do not want them to say when parliament meets that I am making it difficult for them to assist the fishing industry. But when that time comes if they will not do anything for the fishermen of the Maritime Provinces they will hear from us."

On the question of railway facilities in Cape Breton, Mr. Bennett declared, "I find very limited railway transportation on this island. You have sea transportation at your door, but there are some developments cannot be brought about without proper railway transportation facilities."

Dr. John A. MacDonald, Federal member for Richmond-Cape Breton west, said Liberals and Conservatives alike look upon Mr. Bennett as without a peer in the House of Commons. I. D. MacDougall, member for Inverness, declared no individual could define the tariff policy of the Liberal party, "because the government has no tariff policy and you cannot define that which does not exist."

Finlay MacDonald, member for Cape Breton South, said the leader of the government was surrounded, on one side with protectionists and on the other by free traders. "In other words," Mr. MacDonald proceeded, "he is between the devil and the deep sea."

Mr. Bennett will cross the Strait of Canso later this evening for Antigonish, where he will speak tomorrow afternoon.

After the exploration party is accounted for, the Pole, like the flag in the anthem, is still there.

CHINESE CAN NOW WIRE IN OWN TONGUE

Urbana, Ill., Aug. 7—Another Chinese puzzle, sending Chinese by telegraph, has been solved after 15 years of research by Dr. C. C. Wang, former University of Illinois student.

Out of the maze of characters making up the Chinese language, a commission headed by Dr. Wang has evolved a system of phonetics which for the first time will enable the Chinese to send telegrams in their own tongue. Dr. Wang explained his system in a letter to President David Kinley of the university here. Dr. Wang's system will go into effect Jan. 1, 1929, he said.

HONORS COME TOO LATE FOR OFFICER'S USE

San Diego, Calif., Aug. 7—It is too late for Captain William Pitt Scott, U. S. N., to take advantage of some of his privileges. Twenty-seven years ago the Sultan of Turkey sent him a medal entitling him to have six wives and wear a fez. The captain has just received the medal, because not until the last congress authorized it were American officers permitted to receive foreign decorations and neither polygamy nor fez is legal in Turkey now.

GIVE DIPLOMAS FOR COOKING

Paris, Aug. 7—The French national reputation for wholesome cookery may be safeguarded by legislation.

A group of Deputies, zealous for the stomachs of their countrymen, has drafted a bill for submission to parliament providing that no person shall open a restaurant without first proving his culinary skill.

A diploma, they say, is required of sick nurses, herbalists, midwives and barbers. Why should a bad cook be left free and untrammelled to poison whole communities by his indigestible concoctions?

Also, what ever became of the old-fashioned man who could almost make a career of smoking a pipe?

TENNIS FANS WITNESS HARD FOUGHT GAMES

Today's Matches in Tennis Tourney Bitterly Contested—J. D. Babbitt Defeated D. E. Keating.

The New Brunswick lawn tennis tournament which is being held on the courts in this city this week, was continued today with some keenly contested matches and a background of beautiful summer weather. Besides the senior games played today the first matches in the Junior tournament were commenced and some very interesting matches were watched by the large crowd of spectators on hand. One of the hardest fought games of the today's play was the one in which Miss Conn's Campbell of this city defeated Miss Heloise Young of Andover. The scores were 11-9, 3-3, and 6-1. Jack Babbitt, local star was successful in defeating D. E. Keating. St. John flash in straight sets, the score being, 6-3 and 6-1.

Following are the scores of this morning's play: J. D. Babbitt defeated D. E. Keating 6-3 and 6-1; J. H. Dummie defeated Banny Reid of this city 6-0 and 6-1; G. W. Huskin defeated Keith Capen 6-2 and 6-2; G. Porter defeated J. Dolphin 7-5 and 6-0; J. E. Porter defeated M. P. Boone by default; A. Goodline also defeated Teeney by default; Miss C. Campbell defeated Miss H. Young by 11-9, 3-6 and 6-1.

Interest in this city this year is very keen and is proven by the number of fans lined up around the court watching the matches. The matches are also furnishing some exciting and hard fought games.

PASTOR TO USE THE LARGEST RADIO HOOKUP

New York, Aug. 7—Joseph F. Rutherford, preacher and foe of organized christianity, announces that the most extensive and expensive radio hookup in history will be used by him next Sunday morning for an address in Detroit. Ninety-six stations will be employed an hour and a half. The largest hookup hitherto has been 85 stations for a radio dinner. The cost to the preacher may be guessed from the fact that in January a motor car company paid \$42,000 for a hookup of 47 stations for an hour.

TO TEACH MOVIE PICTURE MAKING

Budapest, Aug. 7—The money made by Vilma Banky in Hollywood seems to have started something. Movie making in all its branches is to be taught in all public schools. Theatres must admit pupils free.

FLYING POLICE HELD BIG NEED

New York, Aug. 7—A necessity of the near future in all countries, in the opinion of Professor Otto Schreiber is flying police. The professor, who holds the chair of aviation law and air traffic regulations at Koenigsberg university, is here on a visit.

GIANT PLANE WAS GIVEN A TRIAL FLIGHT

Will be Used in Service Between Germany and S. America.

HAS WEIGHT OF TWELVE TONS

Was Kept in the Air Today for Twenty Minutes.

Special cable to The Daily Mail by the British United Press.

Berlin, Aug. 7—The largest airplane ever built, the Rohrbach-Romar which will be used in commercial service between Germany and South America made its first successful trial flight today at Warnemunde on the Baltic coast.

The giant craft, weighing twelve tons without a full load, left the water within 14.6 seconds and remained in the air twenty minutes.

AN ITALIAN SUBMARINE GOES DOWN

(Special cable to THE DAILY MAIL by the British United Press.)

Rome, Aug. 7—It was officially announced last night that the submarine F-14 sank yesterday seven miles off Brioni Island at the southern tip of the Istria Peninsula in the Adriatic sea. The submarine sank following a collision with the destroyer Missori during tactical manoeuvres.

FIVE MEXICAN TOWNS WIPED OUT BY QUAKE

(Special to THE DAILY MAIL by the British United Press.)

Mexico City, Aug. 7—Five towns in the state of Oaxaca were partly destroyed by an earthquake Saturday, according to despatches received here last night.

Fifty temblors were reported at pinotepa but only two persons were known to be seriously injured.

CAN MAKE JOKE OVER LOSSES

New York, Aug. 7—Harry Sinclair encountered Tex Rickard at the recent cauliflower show which proved more red than golden. Harry asked how come there was a deficit. "I just drilled a dry hole, Harry," explained the promoter.

GIRL TRAINS ON GUM AND MEAT

New York, Aug. 7—Miss Millie Hudson, 5 feet, 1 inch, 126 pounds, English swimmer who almost did the channel, says she trains on chewing gum and raw meat. She has come to compete in the Toronto marathon.

Weather Hard on Crops

The continuous rains of the past two weeks has done considerable in the way of retarding the growth of crops and many farmers throughout this locality are of the opinion that rust will now cause damage to the potato crop. However, the past few days of fine weather has raised the hopes of those inclined pessimistically and if the fine weather continues there need be no fear of such a blight. Haying throughout the province is nearly completed although the rain has kept back the work in the fields.

Invisible Planes Are Being Predicted For the Near Future

Will be Capable of Wiping Out Whole Populations by the Use of Gas and Bombs—European Governments are Experimenting With This Type of Machine.

(By Herbert Bailey, British United Press Staff Correspondent)

LONDON, Aug. 7—Silent invisible aeroplanes capable of wiping out populations by gas and bombs are predicted for the near future.

The British, French, German and Russian governments are now experimenting with this type of machine, which would revolutionize warfare, experts have already produced an almost soundless engine and are working on a new type of air-screw which will not have the high pitched noted which at present gives the first warning of approaching craft. Experiments are also being conducted with invisible paint and new methods of camouflage which will make the machine difficult to see from below. The recent rapid development in the striking power of air forces and the possibilities of gas on civilian populations are causing much anxiety throughout Europe, where it is believed that in the next war the populations of big cities like London, Paris and Berlin will be utterly at the mercy of violators.

HAD NOTHING TO DO WITH DEATH OF OBREGON

Mexico City, Aug. 6—Bishop Miguel De La Mora, in behalf of the Episcopate sub-committee, issued a signed statement today rejecting the charge that the clergy was responsible for the murder of President-elect Alvaro Obregon.

He declared the fact that one Catholic priest and one nun were involved in the crime, did not mean that the clergy as a body was responsible.

The statement asserted that it was publicly known that the mother superior, Concepcion Acebda De La Lata, was mentally deranged and that several cases of insanity have been reported in her family. The mother superior was named by Jose De Leon Torral, the slayer, as having indirectly influenced him.

HAD RELATIVES IN THIS CITY

Sydney, C. B., Aug. 5—The death occurred at 6.30 Saturday morning of Mrs. John P. Lawrence, wife of the late John P. Lawrence, barrister-at-law, who passed away at the residence of her son, F. H. Lawrence, 413 Charlotte Street. Immediate surviving relatives are her two sons, F. H. Lawrence, with whom she made her home, and J. A. Lawrence, of this city.

Brothers and sisters of the late Mrs. Lawrence are Dr. O. B. Price, M. P., Moncton, N. B.; E. B. Price, Campbellton, N. B.; H. C. Price, Moncton; Mrs. H. H. Bray, Ottawa; Mrs. Dr. J. J. Daly, Sussex; Mrs. F. C. Seeley, Moncton, and Mrs. R. D. Hanson, Fredericton.

MANY BRIDES FOR TUNNEY

New York, Aug. 7—Gene Tunney supposes that the public prints will have him engaged to at least three more girls this year. During the last two years, he says, six different ones have been mentioned as his fiancée.

MR. C. E. NEILL RETURNS FROM OLD COUNTRY

(Montreal Star)

"I have never seen so many tourists and wherever I went prosperity was in evidence" C. E. Neill, general manager of the Royal Bank of Canada declared to The Star this morning. Mr. Neill has just returned from an extended holiday in England and on the Continent.

"My chief business was centred upon the various main branches of the bank in London, Paris and Barcelona" Mr. Neill said "but during my visit in Europe I noticed a continued, keen interest in the Dominion of Canada."

Mr. Neill was reticent when asked to comment on Canadian immigration. He expressed pleasure concerning the new branch of the Royal Bank that has just been opened in the West End of London. It is located in the Sun Life Building which adjoins the Canada Building he pointed out.

HIS WOUND IS LIKELY TO HAVE FATAL RESULT

(Special cable to THE DAILY MAIL by the British United Press.)

London, Aug. 7—A Daily Mail despatch from Belgrade today said that Stefan Raditch, leader of the opposition party, who was wounded several weeks ago by a fellow deputy, was in a critical condition. He was sinking rapidly and five doctors were in attendance. The government has mobilized regiments of Serbs, fearing outbreaks in the event of Raditch's death.

Fishing Parties

D. M. Beach and daughter of Rochester, N. Y., spent an enjoyable too days' fishing trip on the Cain's River this week and were guided by the well known Harry Allen. The two, who are expert anglers obtained several good catches. Mr. K. W. Waters and son of Buffalo, N. Y., are at present on a fishing trip to the waters near Stanley. Both parties were registered at the Queen Hotel while in this city.
