## HISTORIC DISARMAMENT CONFERENCE MAY BE HELD IN OTTAWA IN SEPTEMBER

Ottawa, Ont., Aug. 4—A world disarmament conference, vastly more far reaching in its scope and consequence than the United States multi-lateral treaty for the outlawry of war, will be considered by the council and assembly of the League of Nations in September.

It is said that in the event of the conference being decided upon the prime minister of Canada, Hon. Mackenzie King, may issue an invitation for the conference to be held in Canada, whose hundred years of peace with her neighbor, whose important place in the Great War, and whose friendliness with all the nations of the world put her in a unique position to extend such an invitation.

The multi-lateral treaty is more or less a "gentleman's agreement."

The world disarmament conferences will have behind it the power of the League to enforce its dictums.

The multi-lateral treaty makes a warring nation an outlaw, the League can compel warring nations to make peace.

At the same time the League in general, and the Council in particular, will discuss arbitration treaties and other measures for the maintenance of peace.

Taken in conjunction with disarmament proposals the arbitration plans are expected to be the most definite actions of the League for the preservation of world peace yet made.

Unfortunately for itself and for the

world the United States is not a member of the League of Nations and will be the only power in the world not participating.

There is provision in the league's constitution, however, for the United States to be represented on any actual disarmament conference which may be the outcome of the assembly.

The position Canada has taken in the League, in sympathy with the minority nations of Europe, has won for her delegations considerable support and substantial following, and it is considered that she might conceivably take a very important part in all these negotiations.

In addition her experience in constitutional government, with important minorities in the community have given considerable hope to the new nations of Europe whose minorities are fighting recognition.

"THERE is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.
