

Auto Is Self Steering

The heading of this article is not intended to mislead. The high power sedan pictured above is all of that and more as the "steering wheel" acts only as a front wheel brake, and all four wheels are fixed. Perhaps the most remarkable fact in connection with this handsome automobile is that it was turned out, just as it appears, from the Canadian Pacific locomotive works at Angus. There you have it! The wheels are flanged, with rubber insulation between the steel tires. Supplementary lights comply with railway regulations. There are staffs for the regulation flags, a powerful horn—and a bumper. Canadian Pacific engineers will use this car for inspection purposes.

MINISTER OF AGRICULTURE TELLS PARLIAMENTARIANS THAT N. B. NEEDS MORE PEOPLE

Pointing out that New Brunswick was the nearest British possession to the British Isles where settlers could arrive in new homes from the Old Country in a week, Hon. Lewis Smith speaking at a luncheon to the British Empire Parliamentary delegates at the Experimental Station on Wednesday, stressed the similarity in climate and conditions which they would encounter in their new homes.

"One of our greatest needs is to have more people," he declared, pointing with pride to the success of the settlement scheme whereby 100 British families had been brought to the province during the past year. "The great majority of these are fairly well satisfied and are making good," he continued. "They are a good type of citizen and are welcomed in this province. New Brunswick extend a hearty welcome to the man from the Motherland who comes here with the determination to work and make good."

The Minister also outlined the outstanding features of New Brunswick's agricultural system, producing annually \$20,000,000 worth from the principal root, potatoes, hay and grain crops. Dairy products during the last year had shown the most remarkable percentage increase in New Brunswick of any of the provinces of the Dominion with a 30 per cent. advance he said.

"The government of this province has taken one of the most forward steps of any province in Canada in immigration," declared Hon. Mr. Murray with reference to the tripartite-assisted passage and farm settlement scheme. "This is a striking and decisive answer I think to the statement that Canada is not interested in securing British immigrants. We in New Brunswick want British immigrants, but of a particular type, those having some knowledge and practical experience in agriculture."

Scandinavians were also favored as settlers, he said, but the preference was given to those of British stock.

"I would like to have seen more of your cattle," remarked Sir Robert Saunders during the course of his address. "I was surprised not to see more short-horns," he added, remarking that in the British Isle the short-horn had been found to be the best utility animal in a large dairying country. He was also surprised at the lack of sheep seen on their tour Canada.

"We have been impressed with the splendid audacity of your people," continued the former British Minister of Agriculture. "They are not afraid of bank on the future. One of the charms of your country is that no one thinks the less of a man on account of the mental nature of his job." He had been quite impressed in this respect with the readiness with which

WHEN PACKING FOR VACATION NEVER FORGET

You are sure to need some handy remedy for Sunburn, Insect Stings, Thorn Scratches, Sore Places. Zam-Buk has been proved to be the best. Take a box with you.

50c box, all Druggists and Stores.

DISCUSSION OVER SENATE VACANCIES

Ottawa, Sept. 28.—Judicial and senatorial appointments in Quebec are giving the Government a subject of some discussion if not particular concern. On the Bench of the province there are three vacancies—two in the Superior Court and one in that body of inferior jurisdiction, the Circuit Court.

In the Senate there are two Quebec vacancies. For these positions many, with or without claims are pressing their suits.

As the appointments may effect two or three members of Parliament and would involve the opening of seats, action may be deferred until the Prime Minister returns. The Government has never been strong for appointing members to positions necessitating by-elections but it is represented that in any seat proposed to be opened, the risk of misfortune is not pronounced.

Formidable Aspirant

There has been some suggestion of moving Judge Archambault of Sherbrooke to Montreal to replace Judge Bruneau who resigned, but this is considered doubtful. J. J. Denis, M.P. of Joliette is a formidable aspirant for the Superior Court in the Montreal district. His appointment would cause a by-election.

Similarly, those most prominently mentioned for senatorships are members: E. W. Tobin, of Richmond and Wolfe, and J. E. Prevost of Terrebonne.

It is not improbable that, if the principle of opening seats in the House to reward M.P.'s of long service with appointments, is conceded, the by-elections will synchronize with the one which is to be held in Victoria, B.C., in November or December.

For the Superior Court vacancy in the Quebec district, Hon. J. N. Francoeur is mentioned prominently, and for the Circuit Court at Montreal L. A. Rivet, former M. P.

ALL AERIAL SHOWERS ARE VERY COSTLY

Washington, Sept. 29.—Aerial showers for aviator bridegrooms are becoming popular. The "shower" is all that its name implies and consists of a cascade of miniature parachutes to which are attached dolls, old shoes, tin cans, rice and household utensils.

The tiny parachutes are released from planes that circle above the house or church where the wedding is to be. Attached to each article dropped from the skies is a note stating that the finder will be reimbursed by the bridegroom if he will take the article found to the place where the wedding is to be.

Lt. Charles Myers was the latest recipient of an aerial shower. It descended upon him from four planes circling above San Antonio on the occasion of his marriage to Miss Fannabel Hull of that city.

Guy—Each day my first thought is of you, dear.

Girl—But Mr. Dubb says the same thing.

Guy—Oh but I get up an hour earlier than he does.

Woman Praises Lydia E. Pinkham's Vegetable Compound

Sarnia, Ont.—"I am willing to answer letters from other women, to tell them the wonderful good Lydia E. Pinkham's Vegetable Compound did me. I cannot be thankful enough for the benefits I received during the Change of Life. I do housework and my troubles made me unfit to work. A friend advised me to try the Vegetable Compound. I felt great relief at once, began to regain my appetite, and my nerves got better. I will recommend your medicine to all with troubles like I had."—MRS. JOHN BENSON, 162 N. Christina St., Sarnia, Ontario.

ROSEBUD CUT PLUG

Fragrant!

FULL up your pipe with Rosebud Cut Plug, if you want a thoroughly enjoyable smoke. Like its namesake—Rosebud is delightfully fragrant. It smokes sweet, cool and satisfying, and gives you the biggest value to-day in package smoking tobacco.

Trail Riders of the Canadian Rockies Visit Lake of the Hanging Glaciers in British Columbia

Hundreds of lovers of the great outdoors have joined the Trail Riders of the Canadian Rockies, an organization of poets, novelists, scientists, educators, artists, Indian chiefs, cowboys, nature lovers in general, and those who wish to perpetuate ancient trails in the Canadian Rockies and get the grand kick of a wonderful horseback ride through the Canadian Rockies to scenic wonders which have been viewed by a mere handful. John Murray Gibbon, of Montreal, first organized this great ride, which this year started August 2, for the Lake of the Hanging Glaciers, from Banff and Lake Windermere, B.C. Each year it has been bigger and better and the membership now exceeds a thousand, many of whom have won the gold and enamel button signifying that they have ridden at least fifteen hundred miles. Of the hundred so qualifying, 23 are ladies. Three of the girl-members who joined up with the main party this year on the start for the Lake had already covered upwards of 200 miles of mountain trails.

The Lake of the Hanging Glaciers, about 7,500 feet above sea level, in the Selkirk Range, was discovered about 20 years ago, but is still as wild as ever. Its name gives some idea of its spectacular appearance, which is that of an immense cirque, with eight glaciers forming a moraine which drops off sheer in an ice wall nearly 300 feet higher than the lake itself. From this wall icebergs are falling continually, and forming a miniature Arctic sea in the heart of the mountains. Surrounded as it is by jagged Alpine peaks, many of which exceed 11,000 feet in height, this district has challenged the ambition of many Alpine climbers.

CITY OF FREDERICTON Notice of Sale of Lands

Notice is hereby given that, pursuant to the provisions of the City of Fredericton Assessment Act 1924, there will, for the purpose of satisfying the arrears of City taxes, for the years mentioned hereunder, made and assessed against the parties hereinafter named, unless the several sums due, together with the costs of the notice, are sooner paid, be sold at Public Auction in front of the City Hall, in the City of Fredericton, on the sixth day of October, A. D. 1928, at eleven o'clock in the forenoon, the lands and premises owned or occupied by the respective persons hereunder mentioned and set opposite their respective names.
