LONG HIK

New Orleans, Oct. 22—Two University of Montana journalist students, Thomas Duncan and Walter Barrell, have completed a 4,200 mile canoe trip on the Missouri and Mississippi rivers. The unique vacation feel that the more I study the less journey required nearly three months. I know."

"Professor you are known as a profound student. I want to get your advice."

"Perhaps it would be better not so come to a student for advice" said the professor mildly. "Sometimes I feel that the more I study the less journey required nearly three months. I know."

THE LORD NELSON HOTEL AT HALIFAX OPENED TODAY, THE FINEST IN THE MARITIMES

Halifax, Oct. 22—The Lord Nelson Hotel, Earnest Canadas' most modern and beautiful hotel, will be officially opened this evening. It will be the occasion of a banquet and dance in the beautiful Gregorian rooms, for which the tickets, at \$10 each, have practically all been sold. On Tuesday evening, there will be the Board of Trade Banquet, which E. W. Beatty, President of the C. P. R., will be the honored guest, for which all the tickets have been practically sold.

The hotel is the last word in everything in connection with modern hotels in the largest cities and is a credit to all concerned, who have given Halifax a hotel of which the city can feel proud. One on entering the hotel is at once impressed with the luxury that prevails and the beautiful decorations.

The ceiling of the main lobby is done in gold and tinted "Coffered" work, while the floors are of marble. It rises to a great height, and facing the door is a mezzanine floor, similar to big hotels in the larger Canadian and American cities, while beneath it is the clerk's desk finished in walnut. With its beautiful draperies and curtains and handsome furniture the lobby wins instant admiration. In the front of the lobby are several tall latticed windows, and gives a wonderful view of the gardens. A short flight of marble stairs, lead on the left to the main dining room, and on the right to lounge. The ceilings of the latter are very high and its height is further accentuated by the cream panneling of the walls. Facing the wide entrance is a fireplace of a chaste colonial design, while over it hangs a portrait of Lord Nelson in full uniform. It is an admirable work of art, and was painted by Sister Berchman of Mt. St. Vincent. Soft grey carpets cover the floors.

The Gregorian, or ball room, is finished in two shades of green with a curved ceiling, with here and there a dash of gold. It is a large room, free of columns, and the floor is finished in a parquet design, suitable for dancing.

At one end there is a small stage, set in an alcove for the orchestra. A good ventilation system insures the dancers of not becoming too warm or

too cold. It is a magnificent room, one of the features of the hotel. The mezzanine floor, overlooking the main lobby is equipped with writing desks and comfortable chairs. The dining room faces the Public Gardens.

The walls are covered with scenic paper, depicting two scenes from the Riviera with blue background, while here and there mirrors lend depth to the room. over the fireplace hangs a picture, almost life size, of Nelson and some of his officers, also painted by Sister of Charity Berchmans, representing the quarter-deck of the Victory at Trafalgar at the moment when Nelson was hoisting his famed signal "England expects every man to do his duty," and it is a remarkable fine piece of work.

In the bedrooms are a dressing table, desk, telephone, with bathrooms all with new furniture. The beds are deep and comfortable. There are box springs, topped off with comfortable mattresses.

The room carpets have also been specially designed with the thistle motive, emblem of Nova Scotia, in colors of black and taupe, with the thistle red. The parlors and foyers have plain grey carpet.

The suites are luxuriously appointed rooms. All the suites are situated in the front of the building overlooking the Public Gardens.

The Royal Suite, comprising some four rooms, which will be occupied by President Beatty, is elaborately finished.

From Spring Garden Road a fine wide entrance opens on a rotunda finished in travertine with tile floor. On the left are the Beauty Parlor, the Barber Shop, Telegraph Office and Toilet.

On the right, entering from Spring Garden Road entrance, is the Grill Room, fashioned after the style of Nelson's Day. At one end is a decorative oak panel from H. M. S. Niobe with a ship anchor in base relief with the old horn lanterns of the hotel's name sakes' period as the chief piece of decoration. The tables are of oak, and simple in construction. This room will be particularly attractive to the general public, in the afternoons and evenings and after the theatre. There are also several private dining rooms.

RAIN DAMPER TO ACTIVITIES IN N. B. FOREST

(Continued From Page Eight.)

more noted game, the party secured six bears and several deer, and were more than satisfied with their hunting trip. Malcolm Evans, who was wired as cook for the party was in the city this morning and stated that though they kept a sharp lookout for moose they did not even glimpse one. In his opinion they were rather scarce over in that country. The party has been staying at Craig's Camps on the Upsalquitch river.

Rain Halts Activities.

The party of big league ball players who are spending two weeks at Hope-well Lodge on the Cain's river, so far as has been learned, are enjoying themselves immensely. No word has yet been sent in as to the success of the party. J. D. Black, who is looking after the interests of the party of major league diamond stars while on their hunting trip, received a letter from Eddie Collins a few days ago which was to the effect that they were in the midst of a big rain storm. This of course was enough to suspend all hunting activities for the time being. It is hoped that the ball players will have a spell of fine weather for the remainder of their stay at the New Brunswick hunting lodge.

SAYS HOPPER IS RIPPING

New York, Oct. 22—Edna Wallace Hopper is back from Europe to help DeWolf Hopper celebrate his golden jubilee in the theatre. She was his third wife. He has had six. She says there will always be wives available for him, because he is a rare and splendid personality; he is ripping.

WET WEATHER MADE TROUBLE ON HIGHWAYS

(Continued From Page Eight.)

would be called upon in the spring after the foundation had been given a chance to settle, to complete the surfacing of the structure. He added the contractor had carried on the work entirely in accordance with the specifications.

There is another embankment fill on the Oromocto road which has caused the engineers no little trouble and worry because of weather conditions, but they are hopeful of having the difficulties overcome in the course of a few days. The fill over Carman's Creek at Lower St. Mary's, which necessitated a diversion is now about completed.

Dog Owner Fined \$10.

The first of a series of dog cases came up for hearing in the police court this morning and the owner of the dog was fined \$10 for permitting his dog to run about the streets of the city without proper guidance. During the past week a number of dogs were rounded up by the police officials and impounded in the York county jail to await claims of ownership. This morning's was the first case to come to court and others are expected to follow.

Returned Home.

Dr. G. C. VanWart returned yesterday by motor from Boston where he attended the Clynical Congress of the American College of Surgeons. At the conclusion of the Congress he paid a brief visit to New York and Philadelphia.

—She's not so much on cooking— This loose-tongued, whispering skirt; She's bum on plain and fancy food But she sure can dish the dirt.

MURDERER OF OBREGON IS LIKELY TO HANG

Mexico City, Oct. 21—Formal presentation to the court at San Angel yesterday at the prosecution's case against Joz De Leon Toral and Mother Superior Concepcion revealed that the death penalty will be sought against Toral as assassin of General Alvaro Obregon. Against the Mother Superior a sentence of 20 years imprisonment will be asked. She is charged with "complicity" in the crime.

A dozen others arrested in connection with the investigation of the Obregon slaying, will not be tried on the charges filed by the public prosecutor. Instead they will be turned over to other authorities for charges of dynamiting the Chamber of Deputies and the Obregon political headquarters, or of participating in a frustrated plan to assassinate President Calles and General Obregon.

DR. BANTING OFF ON TRIP TO SCOTLAND

Montreal, Oct. 22—Dr. F. G. Banting, M. B., M. C., M. R. C. S., D. S., LL. D., Sc.D., winner of the Nobel Prize in 1923 and co-discoverer with H. C. Best of insulin as a cure for diabetes, sailed today on the Reigna for Liverpool, en route to Edinburgh where he will deliver a lecture at the University in recognition of his winning the Cameron Prize.

Dr. Banting who had a distinguished medical career served overseas during the war, being invalided from the army and being awarded the Military Cross. He hopes to return to Canada on November 9.

MUCH MAIL TO BE CARRIED BY THE ZEPPELIN

(Special to the DAILY MAIL by the British United Press)

New York, Oct. 22—More than 7,000 pieces of mail have been received at the post office for mailing with Graf Zeppelin on its return flight. The fee is \$1 for letters and fifty cents for post cards.

She—Darling, I've been wanting to ask you something ever since we were married.
He—Well dear what is it?
She—If I were to divorce you would you marry me again.

KING ALBERT'S INTERVENTION TO END DISPUTE

Brussels, October 20—King Albert's intervention is believed to have removed the final obstacle to a peaceful settlement of the Louvain incident.

All signs indicate that the judicial proceedings brought by the American architect, Whitney Warren, against M. sity, will be dropped. Warren charged the Belgian educator with illegal Ladeuze rector of the Louvain University methods in forbidding an inscription on the restored library building, which was the Latin equivalent for "Destroyed by Teuton Fury."

Warren said that if King Albert had no objection to a more conciliatory inscription he would submit. The ruler meanwhile has indicated that he favors a less belligerent dedication.

COIN IN SLOT COCKTAILS IS COMING SOON

London, Oct. 22—Automatic coin-in-slot cocktail-mixers will shortly make their appearance in London. The machines function just like the coffee apparatus in the automats but the patrons will have to be content with automatically fixed proportions of cocktail ingredients as the inventor admits that the machine will not respond to requests to "go heavy on the gin" nor will it deliver "dividends."

However, this invention is robbed of much of its interest for London's more sincere drinkers by the fact that it is governed by a time clock which throws the mechanism out of gear on the stroke of the hour at which the regular saloons must close.

NO MESSAGE WAS FOUND IN PLANE TANK

Oslo, Norway, Oct. 22—investigation of the mysterious markings found on the gas tank presumed to be the wreckage of Roald Amundsen's plane leads experts here to believe that the tracings do not constitute a message from the ill-fated rescue expedition. The investigators report that the signs and letters cannot in any way be construed as a communication of the missing airmen. It is now believed that the tank was the reserve reservoir probably belonging to the Latham plane, but emptied and jettisoned after the ship took off from Tromsø in order to lighten the burden of the craft in flight.
