SATURDAY, NOVEMBER 10, 1928.

ARMISTICE DAY.

It was on November 11th, 1918, ten years ago tomorrow, that an armistice was signed bringing to a close the most awful war in the history of the world. Tomorrow the anniversary of the event will be fittingly celebrated by the people of the five allied nations which participated in the sanguinary struggle. The memory of the thousands upon thousands of gallant heroes who fought and died for the cause of right on the fields of France and Flanders will be fittingly honored. Armistice day is an event which all lovers of freedom in Great Britain and her colonies, the United States, France, Italy and Belgium can well afford to celebrate. Nobody wants to even think of what would have happened had the Germans won the war.

THE GENIUS OF GOLDSMITH.

England is celebrating this week the two hundredth anniversary of the birth of Oliver Goldsmith, who has made imperishable contributions to the literature of the English-speaking world.

The curious thing about Oliver Goldsmith is that during his youth and early manhood he gave no evidences of his literary genius. The son of an Irish clergyman of the Established Church, he was looked upon with indifference. We are told that when he left Trinity College in Dublin all of the memories he left were a lot of unpaid bills and his name scratched on a window pane. He tried a half-dozen ways of earning a living and failed in all of them. Thirty of his forty-six years of life seem to have been spent in vain. And then suddenly he began to write in a way that attracted the attention of leading literary men of England. The results are known to history. "The Vicar of Wakefield" in itself would have made any man famous. But when he added to this "The Deserted Village" and the incomparable play, "She Stoops to Conquer," his place in a niche in the Hall of Fame was secure. Too much stress has been laid upon the infirmities of Goldsmith. He talked foolishly and he wrote divinely. Samuel Johnson exclaimed on hearing the news of his death: "Let not his frailties be remembered. He was a very great man." Everybody may not be willing to accept that judgment, but all must agree that he was a very great writer. He had lived in chambers of the Middle Temple, so familiar to American tourists, and it was fitting that he should be buried in the grounds of the Temple Church. But a bust occupies a space in Westminster Abbey.

Of the fourteen large cities in the United States Mr. Hoover carried seven in Tuesday's election. They were: Chicago, Philadelphia, Detroit, Baltimore, Pittsburgh, Los Angeles, Buffalo and Cincinnati. Governor Smith only carried six large cities as follows: New York, Cleveland, St. Louis, Boston, San Francisco, and Newark.

"A well-balanced life," said Dr. W. S. Thayer of Baltimore, recently addressing the American Medical Association, "a well-balanced life is one long compromise." That statement should prove interesting conformation to the average married man whose well-balanced family life is due almost entirely to compromise.

The memory of Fredericton's gallant sons who made the supreme sacrifice in the Great War will be fittingly honored tomorrow morning by a service at the cenotaph in Church street. The occasion should be a notable one.

The County of Gloucester easily led the province in the number of births during the month of July, according to statistics furnished by the Department of Health. The total was

134. Saint John came next with 122, Northumberland and Restigouche each had 92, Madawaska 79, Kent 70, and York 46.

Monday will be generally observed as a day of thanksgiving throughout the Dominion. With a record breaking harvest, a prosperous country, and a wealth of natural resources, surely Canadians have a lot to be thankful for.

News that the keel has been laid for a White Star Line ship 1000 feet long, which will be the biggest in the world, seems to shriek defiance to the idea that the air way for trans-Atlantic travel is the method of the near future.

The United States Senate as a result of the late election will be composed of 54 Republicans, 40 Democrats, one Farmer-Labor and one seat vacant.

Poise is where you can get up at once and answer the phone just as the Scotland Yard man in the novel is about to disclose the identity of the master crook.

A local young husband had an awful moment the other night, when the cake with the lemon icing was passed it looking so much like that Indian yellow lacquer.

It seems to us that in working on a mechanical stenographer Thomas A. Edison is wasting his time. Heavens knows a lot of them are mechanical enough.

Some of these overweight females who are constantly mourning their increasing avoirdupois seem to overlook the fact that what they don't eat doesn't put on fat tissue.

After a woman cajoles, entreats, intrigues, begs and hollers for something or other for five years, her husband at least ought to stop calling it a whim.

When it became apparent that he was going to win his fight at every performance, people just stopped going to see Jack Dempsey in that play.

Back home there was always a last apple on the tree, which was out of reach and had to be brought down with a wagon spoke.

Who can remember when the perfectly killing funny man at the party always said his favorite salad was a date with a peach?

Those who still seek a successor to the cross-word puzzle could try cutting up a piece of unmanageable linoleum for a breakfast nook.

Late Mrs. R. N. McLaren. The remains of the late Mrs. R. N. McLaren widow of Surgeon Lieut. Col. McLaren, who passed away at Montreal on Thursday afternoon, arrived in this city on the noon train and was taken to the home of Mrs. George Allen on Brunswick street where the funeral service was held this afternoon. The body was accompanied here by James T. McLaren and W. Harold Davidson, relatives of the deceased. The funeral was held this afternoon at 2.30 o'clock and was conducted by Rev. J. G. Berry, pastor of the St. Andrew's Presbyterian church. Interment was made in the Rural cemetery. The funeral was attended by a large number, she having been very prominent in the social life of the city, while residing here before her removal to Montreal. The deceased had been a visitor to this city earlier in the summer.

Injured at Rugby Game.

Waldo Morgan, son of George Morgan of Marysville who is attending the Fredericton High School, was injured quite seriously at the Saint John-F. H. S. football game at Rothesay yesterday when he sustained a bad wrench to his neck. After the game the injured player was in a very disabled condition and when the Saint John train reached here last evening he had to be conveyed on a stretcher to the Victoria Hospital where treatment was administered. An X-ray photograph revealed that he had suffered injury to his head. The report today is to the effect that a few days of quiet rest will put the injured student on his feet again and he will in all probability be able to resume his studies when school opens on Tuesday.

THROUGH OUR SIEVE

Man can live the simple life without being simple, our language is that flexible.

Lima Beane says the pessimist lets his liver lead him around by the nose.

Posterity wouldn't amount to much if it didn't inherit a few problems and a lots of debts.

When a dog won't even eat the leftovers from a meal think of the poor man who had to eat the meal.

Common sense bears discomfort for a reasonable time. "Temperament" flies off the handle at once.

Anyone would like to "take a year off," if it were not for the fear of being unable to find the way back.

Confidence is that admirable human attribute that can look a hole through a three-foot concrete wall.

"Ho, hum!" remarked the Man on the Car, "a six-foot kiss does seem too long for the people who are looking on."

"Occasionally," says a philosopher, "a man proves his wisdom by acting foolish." Throw that in reverse and you have a man proving his foolishness by trying to act wise.

TONIC TREATMENT FOR INDIGESTION

Indigestion Comes With a Run-Down Condition—Relief Comes Through Enriching the Blood—Dr. Williams' Pink Pills Make New Blood

There are many symptoms of indigestion such as acute pain after eating, belching of wind, nausea and vomiting, bloating and pains in the region of the heart, a dread of food for the misery it causes. Dieting and the use of pre-digested foods may give ease, but that is all, and meanwhile the stomach grows steadily weaker. The work of digestion depends upon the blood and nerves and the only way to get rid of indigestion is to tone up the stomach through the blood, to do the work nature intended it should do. The one through way to do this is through the use of Dr. Williams' Pink Pills, which renew the blood, strengthen the nerves and enable the stomach to do its work with ease and comfort. Neglected indigestion means prolonged misery. If you have any of the symptoms of this trouble try the tonic treatment with Dr. Williams' Pink Pills at once and you will be gratified with the results.

Among the many who have found new health through the use of Dr. Williams' Pink Pills is Mrs. Ada Webb, R.R. No. 3, Prescott, Ont., who says: "For a long time I went through the tortures of nervous indigestion; I call it torture because no other word can describe what I endured. If my stomach was empty I retched. If I took food I vomited. I did not sleep and I was steadily growing weaker. I doctored for months but with no benefit. One day my husband said, as the treatment you have had has not helped you, why not try Dr. Williams' Pink Pills. I consented and he got me a supply. After I had been taking the pills for a while I knew they were helping me as the pains and retching grew less and I slept better. I gladly continued the use of the pills and in a few months I felt like a new woman, better than I had felt for years, and able to work for my husband and children again. After such a wonderful experience how can I do anything else but recommend Dr. Williams' Pink Pills."

If you need a blood-building tonic begin taking Dr. Williams' Pink Pills today. So'd by all medicine dealers or sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

NOWADAYS YOU PRESS A BUTTON

Or perhaps a switch, or some little gadget, and a lot of things happen around home that lighten labor and banish trouble.

A Whirling Fan brings a cooling breeze, and a little copper, dish-like affair throws out a sizzling blast that warms the room in no time.

Another button boils coffee, toasts bread and cooks waffles. Another does a better job than a broom. Another makes a happy laundress out of a dismal washwoman. Another one cools the ice-box. Another—but why go on?

Labor and time saving devices have come and are today within the reach of the humblest home.

And one of the chief reasons why they have come and why they are within the reach of the humblest home is the power of advertising.

Advertising has carried the news of these better ways of doing things to every home. It has created a desire to possess them, and countless thousands have purchased them, and live better because of them.

Reading advertising not only tells you about new, helpful mechanical devices for the home, but it is an unfailing guide to reliable products.

READ ADVERTISING REGULARLY. IT POINTS THE WAY TO BETTER LIVING.
