The Pope Holds out Little Hope for Union of Churches

Says It Can Be Attained Only When Protestants Embrace Catholicism by Rejoining the Roman Catholic Church—His Holiness Deals With Important Subject in a 5000 Word Encyclical.

(Special to the Daily Mail by the British United Press)

Rome, Jan. 11—World wide Christian unity can be attained only when Protestants embrace Catholicism by rejoining the Catholic apostolic Roman Catholic church which is the only Christ Church, Pope Pius XI said yesterday in a 5000 word encyclical. The pronouncement banished the hope of many churchmen for the reunion of some forms of Protestantism with the Roman church. The encyclical was a direct answer to the Lambert, Malines and Lausanne congresses which sought to effect church unity.

"How can unity be maintained when each has his own opinion?" the Pope asked, striking at the controversy between modernism and fundamentalism. Such movements prove the dissension in Protestantism said the Pope as compared with the unity of doctrine and government of the Roman church.

Bishops Non-Committal

London, Jan. 11—The Pope's drastic letter condemning all thought of compromise between Roman Catholicism and other faiths, published on the eve of the bishops' meeting to consider the rejection by the House of Commons of the revised prayer book, is regarded in the Anglo Catholic circles here to be a direct appeal to them to reply to the common action by returning to the Roman Catholic Church.

What effect it will have on the bishops' deliberations today is a matter of the keenest speculation, but none of the bishops will commit themselves by making any comment at this stage because the matter is too serious.

WOODSTOCK HAS SURPLUS FOR THE YEAR

Woodstock, Jan. 10—The annual town meeting was held in the council chamber, Monday evening. R. E. Holyoke was chairman. Mayor C. J. Jones reviewed briefly the work of the past year, calling attention to the reduction in the warrant of \$10,000, the retirement of \$9,000 of the town's bonded indebtedness, and the surplus for the year of \$11,000, according to the auditor's report.

The town manager, E. Blake Allen, read his report covering the year's work, and the auditor's report. He recommended the installation of a new and larger sewer main extending from the corner of Connell and Main streets down Main and along King street to the river bridge. The estimated cost is \$5,000.

The various members of the council spoke briefly in regard to the departments over which they preside, reviewing what had been done during the year. Altogether 1927 appears to have been a very satisfactory year so far as the town affairs are concerned.

DEMERCHANT WAS RELEASED FROM CUSTODY

Montreal, Jan. 10—Avaré De Merchant of near Perth, N. B., who was arrested in Montreal by the Royal Canadian Mounted Police at the request of E. C. P. Salt, Commissioner of the New Brunswick Provincial Police, who desired to question him in regard to the death of Edward E. Armstrong at Perth, was released from further surveillance today.

De Merchant, whose wife was at one time housekeeper at the Armstrong homestead at Perth, left that town at the time the police were investigating the death of Armstrong who was found dead in his barn on Dec. 28.

The police announced they were satisfied that De Merchant was innocent of any complicity in the alleged crime, he having given a satisfactory reason for leaving Perth to come to Montreal.

The commissioner left for Fredericton tonight. De Merchant, who is a farmer, will continue his journey to the bush, his original intention, he said, in leaving his home town.

Perth, N. B., Jan. 10—No new developments in the murder of Edward E. Armstrong, 64-year-old farmer, here last week were reported by the provincial police stationed here today. MAY SOLVE THE MINING PROBLEM IN OLD COUNTRY

An Unauthorized Program by Laborites is Revealed.

WOULD HAVE CONTROL BOARD

The Scheme Provides for an Enormous Issue of Bonds.

By HERBERT BAILEY
(United Press Staff Correspondent.)

London, Jan. 11—What is called an unauthorized programme but which may be adopted by Labor as a solution to the mining problem has been revealed. It provides for nationalization of mines but the most striking feature is a board to control the industry the members of which will receive 10,000 pounds sterling annually.

This, coming from labor, is regarded with much amusement. The scheme also provides for a state issue of bonds to the amount of 260,000,000 pounds sterling for the purchase of the industry and the creation of district boards of management.

Cook and other Laborites refuse to comment on the plan which follows the demand for nationalization, one of the planks of the labor platform.

So far as prison authorities are concerned they will go to the electric chair still hoping the governor may spare them. "It is more human that way" Warden Lewis Law said.

PRAISES WORK OF THE LEAGUE OF NATIONS

Washington, Jan. 10—The League of Nations has to its credit, in the eight years of its existence, more direct and positive peace-making than any political association could ever boast of, Sir Esme Howard, British Ambassador, told the American Engineering Council tonight.

After sketching the development of the British Empire, which he termed an association of nations, he said that such an association must aim high above all things at maintaining the peace of the world. For this reason, he added, not only Great Britain, but the Dominion governments in the Empire are actively interested in the operation of the League.

There is still, however, certain commitments in regard to Europe which may be desirable from the point of view of European peace, but which the Empire as a whole feels it cannot undertake, the ambassador continued. In this connection he mentioned the refusal of England, in 1925, to adhere to the protocol for the Pacific settlement of international disputes, generally known as the Geneva protocol of 1924.

Traces Movement

Then came the Locarno Treaty, which was hailed with practically ultimate satisfaction in Great Britain, but not so at once by her partners, outside of Europe, who did not feel the necessity to guarantee France against Germany of vice-versa for European peace. The Dominion governments, said the Ambassador, which ultimately approved the Locarno Treaty, did not consider themselves bound to it.

There are thus here," he said, "the possible germs of disagreement or at least the admission that a common foreign policy may not always be maintained. This is, therefore, another very strong and urgent reason why peace should be the principal interest of the British Empire. If there is one country in the world with which both from inclination and from interest we desire peace, it is the United States of America.
