## Laborites Would Make the Banks Public Corporations

New Scheme Launched by the Party in Great Britain—Would Have the Banks Made Representative of the Board of Trade, Labor and the Cooperative Movement—Proposals May Figure in the Coming Election.

(Special to The Daily Mail by the British United Press.)

LONDON, Sept. 21—The Labor party has immetiously launched a scheme to make the banks a public corporation representative of the treasury, the board of trade, labor and the co-operative movement.

The new organization would extend municipal and co-operative banking throughout the country so that everyone would be able to use banking facilities and would also control on an additional basis all sources of credit in order that they be directed to enterprises of national advantage and finally would regulate value of gold by international agreement. The importance of these proposals lies in the fact that if the labor party, as a whole, adopts them at the approaching conference they will figure in the coming general election and the return to power of the labor party would mean their passage into law.

## BEARS GETTING RATHER BOLD IN KINGSCLEAR

A Number of Farmers Have Suffered Loss of Sheep — Agitation for a Bounty is Being Renewed.

Residents of the Parish of Kingsclear in the city today report bears very plentiful in the woods adjacent to farms fronting along the Woodstock Road. These black mauraders are becoming very bold and at night prow through orchards and occasionally into farm yards. Upwards of a dozen sheep belonging to Kingsclear farmers have disappeared during the past few weeks and the supposition is that they were made away with by bears. A number of farmers have set traps in their orchards, and others do scout duty at night armed with rifles, but thus far the bears have been able to elude them.

Bears are also reported to be plentiful on the Douglas side of the river and not long ago a calf belonging to William McGibbon was killed by one of them. A strong agitation is being worked up in some localities for the restoration of a bounty on bears. It is claimed that because of the low price of the fur it is not profitable to trap them, but the establishment of a bounty would be likely to prove a stimulus. Farmers' sheep are now protected from the ravages of dogs, but there is no compensation for sheep destroyed by bears.

## NEW POULTRY MAN TO LOCATE IN THIS CITY

Ottawa, Sept. 20—G. R. Wilson, who was in charge of poultry promotion work in New Brunswick, and who has removed to the Canadian west, has been succeeded by William Kerr, who was assistant. Mr. Kerr has been named acting chief. The headquarters of the work, which were formerly at Moncton, will be moved to Fredericton.

Dr. B. H. Dougan, M. L. A. of Harvey was in the city yesterday.

## NEW CROP OF POTATOES OF GOOD QUALITY

Hartland, Sept. 20—Carleton and Victoria counties new crop potatoes are of splendid quality, said W. B. Gornell, assistant to the commissioner of the fruit branch, Ottawa, who today is on his way back from an inspection trip through the two counties. Mr. Gornell was accompanied by C. D. Smith, Perth, district inspector for New Brunswick.

Both men state that they see a big improvement in this year's crop over last year's. The potatoes are of better color, uniform size and free from bruises or mechanical injuries. A good yield, which is expected to offset somewhat the present prevailing low price of 65 cents per barrel at loading points, is reported.

## A MOTORIST HAD A VERY CLOSE CALL

Andover, Sept. 21—A car driven by E. McQuade, of Tilley, had a very narrow escape from being in a fatal accident on Tuesday afternoon. When going along the road, one mile above Perth, Mr. McQuade glanced back at the Plaster Rock train, which was coming directly behind when his car skidded, went over the embankment between the road and the track and hit the train. Mr. McQuade had a large amount of dynamite in his car as well as provisions. Nothing serious happened, but the car was badly smashed.

N. B. Roads the Best

Moncton Times: Messrs. E. C. Rice, barrister, H. W. Church and R. W. Carter of Petitcodiac were in the city last evening en route home from an extended motor trip to Nova Scotia points. Speaking of the roads in the neighboring province, Mr. Rice said that the secondary roads there were nothing to be compared with the same class of roads in New Brunswick and that they found on the trunk highways long strips of bad road between the stretches of good sections.

## THE GOVERNOR GENERAL TO VISIT PROVINCE

His Visit to Be of Unofficial Nature — To Reach Bathurst Sept. 27—Will Hunt Birds in Queens County.

St. John, Sept. 21—Hon. J. B. M. Baxter, premier of the province, has received word of His Excellency, Governor-General of Canada, Lord Willingdon's plans for his unofficial trip to New Brunswick and with Thomas Bell, M. P., is arranging his itinerary while in the province, which will include several days of hunting next month.

His Excellency, accompanied by Colonel Snow, his secretary, and Captain Rayner, A. D. C., is scheduled to arrive in the province next Thursday in his private car and will reach Saint John on October 5. Before leaving for Nova Scotia and Prince Edward Island he will visit Dr. J. Clarence Webster at his home in Shediac.

The Governor-General's first stop in the province will be made at Bathurst where he will arrive on September 27. Here he will be entertained for several days by Angus McLean and hunting will be enjoyed. From there he will go to Campbellton on September 30 and on to Edmundston on the following day. He is scheduled to reach Woodstock on October 2 and October 3 and 4 will be spent at Gagetown.

To Shadow Lake.

When the party reaches Saint John it is expected that the private car will be stationed at Fairville. The Governor-General will be taken at once to Shadow Lake, where he will be entertained for two days at the hunting camp of George McAvity. It is hoped to have some wood-cock shooting there.

On Saturday night, October 6, His Excellency will leave for Moncton and while in that section will visit Dr. Webster.

While the Governor-General is in the Maritimes, Her Excellency Viscountess Willingdon will be in England, sailing on the Empress of Scotland from Quebec next week, accompanied by Colonel and Lady Murray and Captain Derek Murphy. Later in the fall His Excellency will make a short official tour about southern Ontario.

Many blunt things have been written with sharp pencils and vice versa.

## A WIDESPREAD CRIMINAL HUNT IS LAUNCHED BY THE POLICE AND HONOLULU CITIZENS

Kidnappers and Murderers of the Ten Year Old Son of a Wealthy Banker is Being Sought—Body of the Boy Was Found Yesterday Near a Canal.

(Special to The Daily Mail by the British United Press.)

HONOLULU, Sept. 21—Territorial police, aided by hundreds of deputized citizens today, launched the most widespread criminal hunt Hawaii ever has witnessed. They sought the kidnappers and murderers of Gill Jaimieson, ten year old son of a Honolulu banker. Several suspects were in custody, one of them Harry Kaysan, a Japanese has admitted while under the influence of a "Truth Serum" that he wrote the ransom letters to the boy's father. After recovering from the effects of the hyoscine hydro bromide, however, Kaysan denied any connection with the crime.

Gill's body was found yesterday near a canal at the edge of the fashionable Waikiki beach district. He had been kidnapped Tuesday when a demand for \$10,000 ransom was telephoned to the wealthy father Frederick W. Jaimieson.

## GREAT DANGER OF EPIDEMICS REAKING OUT

Thousands of Florida Refugees Now Crowded Into Cellars.

EPIDEMIC IS FEARED

Many Bodies Have Been Buried Without Being Identified.

(Special to THE DAILY MAIL by the British United Press.)

West Palm Beach, Sept. 21—South Florida was concealed today with preventing epidemics from starting among the thousand of refugees who have crowded themselves into relief cellars and other points. The fight against disease was hampered by the numerous bodies of human beings and carcasses of animals which were scattered in the Okeechobee region. Hasty burial was ordered because of advanced decomposition of the bodies which have been exposed to the elements since Sunday night. It was reported in some cases that bodies, mostly negroes, were buried without identification. Steam shovels were used to dig trench graves for the victims of the hurricane.

## NEW K. OF P. HEAD TO PAY A VISIT TO MOUNTAIN LODGE

Moncton, Sept. 20—The grand chancellor of the Knights of Pythias, Maritime domain, Ewart C. Atkinson, M. L. A., of Fredericton, will pay his first official visit to Westmorland Lodge No. 3, of this city on Tuesday evening next. Other grand lodge officers will also be present, and a very successful evening has been promised by a committee in charge.

At the conclusion of the lodge session, the visitors will be guests of the local lodge at an informal banquet.

## LADY BYNG INHERITS A LARGE SUM

London, Sept. 20—Lady Byng, wife of the hero of Vimy Ridge, is left £750,000 in the will of Pandeli Ralli, a wealthy Greek merchant, who was a relative of hers, says The Evening Standard.

Ralli was a romantic figure in English society. He was a friend of Edward VII., and of Lord Kitchener. He died at Brighton last August, at the age of 83.

## School Children are Having a Good Time at The Big Exhibition

Attendance Today Promises to be the Best of the Week—Much Interest Manifested in the Free For All Race—Crowds Thronged the Grounds Yesterday Afternoon and Evening.

Although the weather conditions up to noon were rather unsettled this gives promise of being the biggest day of the week at the Fredericton exhibition. The schools have been given half a holiday and are assisting to swell the crowd at the fair this afternoon as the guests of the directors. It is expected that the attendance will easily break all records for the week.

Yesterday was a great day at the exhibition and the attendance easily exceeded that of the previous day. The races also attracted a great crowd and proved very interesting. The big free-for-all event is being staged this afternoon. While the track is a little on the heavy side it is believed that the winner will have to step pretty close to the record of 2.04½.

The big exhibition will be kept running full blast until 10.30 o'clock tomorrow evening. With fine weather tomorrow gives promise of being another big day and many visitors expected from the surrounding districts of York County.

Old Home Week

Exhibition week in Fredericton is also an old home week, as it brings back to the city for a brief period hundreds of former citizens who earn their livelihood in other provinces and states. The exhibition gives these people an opportunity to meet and converse with old friends and acquaintances and they take full advantage of it. It is hardly necessary to say that the motor car is an important factor in bringing about these reunions.

Then and Now

So far Mr. John A. Campbell the veteran honorary president of the holding company has been the only visitor to the exhibition who was present at the first exhibition held in this city during the month of October 1852. What changes have been brought about in the seventy-six intervening years? In 1852 New Brunswick was without a railroad and all travel was by steamboat and horse drawn vehicles. Today we have the railroad, the steamboat, the automobile, and also the motor bus. During the present week an airplane has been making daily flights over the exhibition grounds, something which was not even a dream in the good old days. The changes which have been brought about in connection with exhibitions since the 20th century set in have been little short of marvellous, and there will be more changes as time goes on.

Although notices have been posted about the grounds warning people against money games the denizens of Fakirs' Row continue to do a thriving business. Yesterday afternoon a Myshall Settlement man separated himself from twenty bucks in coin of the realm almost in the twinkling of an eye. He lost his money not because he bet on the wrong horse but because he never had a ghost of a chance to win. The smoothed tongued gents who run these skin games are quite capable of looking out for themselves. They are not on the exhibition grounds to give away money.

Midway Attractions

The midway attractions and numerous games of chance continue to be liberally patronized. It is astonishing the number of women and girls who are willing to take a sporting chance on winning a blanket or a box of chocolates. The blankets handed out as prizes are of good quality, but rather hard to get.

## LABOR M. P. BECOMES A BARONET

On Record as Saying That He Would Not Accept a Title on His Father's Death.

(Special cable to THE DAILY MAIL by the British United Press.)

London, Sept. 21—Oswald Ernald Mosley, Laborite member of Parliament became a baronet today when his father, Sir Oswald Mosley died at Etwell, near Thurton on Trent, at the age of 54.

England waited with interest to see whether the socialistic young aristocrat would renounce the title of "Sir" and remain Mr. Mosley, as he said two years ago that he would do when his father died. He is thirty-one years of age.

Sir Oswald's death reopened a discussion of the political property of Laborites accepting titles. It is the second similar succession in the last two months, the other being C. P. Trevelyan, Laborite and former president of the board of education, who became a baronet on the death of his father, Sir George Trevelyan.

## THE PROPERTY DAMAGE NOT EXAGGERATED

(Special cable to THE DAILY MAIL by the British United Press.)

San Juan, Porto Rico, Sept. 21—while reports of the casualties in the tropical hurricane are yet to be received from more than half of the municipalities officials here are certain that the death toll will not reach 1,000. They say, however, that the property damage has not been exaggerated and that it will run into millions. There has been no reason for revising the previous estimate that there are 700,000 persons homeless.

Mr. and Mrs. Ronald R. Williams of Bangor, Me., are visiting in the city today.
