Votes of Coeds Saved the Day for Premier Baldwin

Some Significance and Announcement Attached to Recent Rectorial Election at the University of Glasgow—Scottish Nationalist Candidate Only Sixty-six Votes Behind the Premier.

(By HERBERT BAILEY, British United Press Staff Correspondent.)

LONDON, Oct. 29—Much significance, mingled with considerable amusement, is being placed upon the fact that only the votes of the women students of Glasgow University made it possible for Premier Baldwin to win the rectorial election.

Cunningham Graham, Scottish Nationalist candidate, who was only sixty-six votes behind the Premier, secured more votes from the men undergraduates than the other three candidates, and the newspapers are asking whether this is a portent as every party is making the most strenuous efforts to capture the so-called flapper vote in the next election and as every candidate is concentrating on swinging the new vote favorably.

J. F. GREGORY PASSES AWAY AT SAINT JOHN

Was a Son of the Late Judge Gregory of This City and Had Achieved Prominence in the Lumber Trade.

St. John, Oct. 29—J. Fraser Gregory, president of Murray & Gregory, Limited, lumber manufacturers, died shortly after four o'clock yesterday morning at his residence, 297 Douglas avenue, after an illness extending over 12 days.

Mr. Gregory, who had attained his 67th year, was the son of the late Hon. George Frederick Gregory and Marion Birkmire (Beverley) Gregory, of Fredericton. He was born July 21, 1861. After attending University of New Brunswick for a time he entered the law firm of Gregory and Blair, but gave up his law activities to become associated with Murray and Barnhill in 1881. He was admitted to a partnership in the firm in 1899. The concern was made a limited company in 1904, under the name Murray & Gregory, Ltd., and in 1906 Mr. Gregory became president of the company.

In 1901 he was married to Helen Maria Myers, daughter of the late Henry Myers of Saint John, who predeceased him a little over a year ago. He is survived by one son, George Fraser Gregory, and one daughter, Miss Helen Olivia Gregory, also one brother, Hon. Justice F. B. Gregory, of Victoria, B. C., and three sisters, Mrs. Hedley Bridges, Mrs. A. W. MacRae and Miss Edith M. Gregory, all of Fredericton. The Misses Beverley of Fredericton are aunts of the deceased.

In addition to his extensive business activities, Mr. Gregory took a prominent place in various societies of the city, having been an ex-commodore of the Royal Kennebecasis Yacht Club; ex-commodore of the Saint John Power Boat Club, first vice-president of St. Andrew's Society, a valued member of St. John's Lodge, No. 2 F. & A. M., past president of the New Brunswick Forest, Fish and Game Association, and an active member of the North End Improvement League. In politics he was a strong Liberal. In his early life he served with the 71st battalion infantry and held a second class Military School certificate.

In Navy League.
Mr. Gregory was specially active in the Navy League. On the retirement of R. E. Armitson, in May of 1927, he was elected president of the New Brunswick division of the Navy League.

BIG ZEPPELIN IS MAKING GOOD PROGRESS

(Special to THE DAILY MAIL by the British United Press.)
New York, N. Y., Oct. 29—The Graf Zeppelin at 10 a. m. E. S. T. sent out a wireless message giving her position as latitude 42.26 north and longitude 64.15 west.

The ten a. m. position was nearly 100 miles eastward of that given by the S. S. Hjelmaren to the United Press at 8.55 a. m. The Graf Zeppelin had passed out to sea well to the south of Nova Scotia and her course would not take her near Halifax or Saint John's, Newfoundland, apparently she had left the land behind and was headed straight across the Atlantic directly in the shipping lane.

SNOW YESTERDAY

Stanley and adjacent places experienced a snow fall yesterday which lasted for nearly two hours. The capital city also had a slight fall of snow this morning around eight o'clock. Sure sign of winter!

gue and immediately entered upon a vigorous endeavor for the furtherance of the Navy League work. He did much in the reorganization of the provincial division. He attended the annual convention of the Navy League of Canada in Calgary last year and played an important part in making so successful the national convention held in Saint John this summer. It was through Mr. Gregory's interest that the sea cadets were organized in Saint John a year ago and Mr. Gregory was indefatigable in his efforts to have the cadets a vigorous organization. He gave his own personal supervision, being present at all the drill meetings, to that end and during the summer he arranged several trips up river for the cadets. An effort will be made to have the sea cadets attend the funeral in a body, if it can be arranged to have them get away from school in time.

The funeral will be held from St. Matthew's Presbyterian Church, Douglas avenue, on Tuesday afternoon at three o'clock, prior to which a private service will be held at his late residence, 297 Douglas avenue for members of his family only. Interment will be made in Fern Hill cemetery. Both services will be conducted by Rev. Dr. J. A. Morison, pastor of St. Matthew's.

BOOTLEG LIQUOR IS SHOWN TO REMOVE PAINT

Houston, Texas, Oct. 29—The joke about some of the bootleg whiskey which is confiscated being nothing but "paint remover" was made a reality here when Assistant Police Chief Kuykendall, head of the vice squad, effectively used a quart of the liquor for that purpose.

Old window signs, which had become obsolete because of police changes, had to be removed so that new signs could be painted. Negro porters, scratching on Chief Kuykendall's window with a razor blade, aroused the Chief's ire.

"Wait a minute, Slim" the Chief said "I've got an idea."

Sniffing through his liquor stock for a confiscated quart, he returned and with a small cloth gave the letters an application. Immediately they disappeared.

BIG LEAGUE BALL PLAYERS HAVE HAD GOOD SPORT AT HOPEWELL LODGE, CAIN'S RIVER

Sam Jones and Mickey Cochrane Each Knocked Over a Moose—Joe Bush Bagged Two Deer and Walter Huntzinger One—The Party Will Return to the City on Wednesday.

Two moose, one with antlers spreading 45 inches and having 20 points and another with antlers spreading 44 inches and having 16 points, and several deer are included in the trophies already taken by the party of major league baseball players headed by Eddie Collins, assistant manager of the Philadelphia Athletics, who are hunting big game in the New Brunswick woods with Hopewell Lodge on Cain's river as their headquarters.

The moose with the largest spread of antlers was shot by Sam Jones, leading pitcher of the Washington Senators during the past season, while Mickey Cochrane, catcher of the Philadelphia Athletics and recipient of the American League's award as the player of that league of most value to his club in the 1928 campaign, shot the other moose, both moose were shot early last week. While "Sad Sam" Jones has been hunting in New Brunswick on several previous occasions, this is Cochrane's first big game hunting experience, although he does a lot of duck shooting near his home at Bridgewater, Mass.

A Good Specimen

The moose shot by Jones had a remarkable pair of antlers, according to reports reaching here from Doaktown, the village on the Miramichi whence the party went into the woods. While the spread of 45 inches is only of medium size the antlers have an unusually symmetrical formation and the web is over a foot in width and the antlers are therefore massive and heavy as ordinarily found with spreads 10 inches or more greater. Cochrane's trophy is also an excellent one and will be a worthy reminder of his first big game hunting trip to New Brunswick; he shot his moose within 10 minutes walk of Hopewell Lodge, while Jones got his moose scarcely more than a mile away. Frank Russell of Doaktown, head guide of the party and chief caretaker of Hopewell Lodge, was with Cochrane when he shot his moose, while Jones was

TO HELP SETTLE A RELIGIOUS CONTROVERSY

Cardinal Cerretti Reported to Be on His Way to U. S.

HAS MISSION FROM THE POPE

(Special cable to THE DAILY MAIL by the British United Press.)

Rome, Oct. 29—It was reliably reported to the United Press today that Cardinal Bonaventura Cerretti is en route to the United States to attempt to help settle the religious controversy in Mexico. Cardinal Cerretti, former secretary of the Apostolic Delegate in Mexico, is said to have been entrusted by the Pope with the task of negotiating an informal "modus vivendi" with Mexico. American prelates are reported to have made preliminary arrangements for the negotiations.

Mexico City, Oct. 29—Government officials have refused to comment on the reported attempt to settle the religious question. It is believed the government will continue its policy of strict enforcement of the religious law. President-elect Portesgil is on record as being in agreement with the Calles religious policy.

The Graf Dirigible Is Now on Her Way Back to the Fatherland

Left Her Hangar at Lakehurst, New Jersey at Early Hour This Morning and Started Homeward Flight—Passed Over New York at 5.20 O'clock.

(Special to the Daily Mail by the British United Press)

NEW YORK, N. Y., Oct. 29—The giant German Graf Zeppelin was cruising gracefully along the New England coast early today enroute home to Friedrichshaven, Germany, on her second trans-Atlantic voyage. The Graf Zeppelin was taken from its hangar at Lakehurst, N. J. shortly after midnight and at 1.54 a. m. its nose was pointed upwards and it started its homeward flight. At 3.15 a. m. the big ship cruised over New York city, and at 5.20 a. m. it was sighted flying northeastward from Wate's Hill, R. I., it was expected over Boston at about 7 a. m. The big zeppelin made the flight from Friedrichshaven to Lakehurst in eleven days and is expected to make the homeward journey in faster time.

Strong Winds Reported

LONDON, Oct. 29—Strong westerly winds across the north Atlantic were reported in the air ministry's weather forecast today. Unsettled areas were reported at intervals with low clouds and rain. Conditions, however, were mainly favorable for the Graf Zeppelin's flight providing the dirigible keep to the shipping route.

KINGS COUNTY HEN MAY BE A WORLD BEATER

Barred Rock Owned by Mrs. Edward Hart has Laid 330 Eggs—Has Four Days Yet to Finish Year.

A Barred Rock hen belonging to Mrs. Edward Hart of Newtown, Kings County, which easily led all individuals in the 1928 New Brunswick egg laying contest, yesterday produced its 330th egg. As this bird did not start laying until November 2nd of last year it has four days yet to go to complete its full year of 365 days. It has already broken the Canadian record and if it produces four more eggs between now and Friday it will hang up a new world's record, made by an Ontario Barred Rock hen competing in an all-American Contest at Kansas City last year. This bird, away from home, produced 333 eggs, which is claimed to be the world's record. Mrs. Hart's bird during the next four days has a good chance of equalizing this and perhaps may surpass it.

Up to last night Mrs. Hart's hen had within a year laid 27½ dozen of eggs, averaging well over two ounces per egg. As the bird weighs only seven pounds she has produced more than six times her weight in eggs, which is a remarkable showing.

A Publicity Stunt.

Before sending this bird back to its owner Supt. Bailey of the Experimental Station will have it photographed and copies together with her record of performance will be sent to practically every poultry and agricultural paper in Canada, the United States and Great Britain. A hen that can produce 330 eggs in a year is a feathered marvel and it is Mr. Bailey's intention to see to it that New Brunswick gets the full benefit of all the publicity that is due it from such a remarkable performance.

That New Brunswick is well adapted for poultry raising is shown by the fact that 190 birds which participated

LIBERALS TO MAKE GIFT TO HON. E. LAPOINTE

Ottawa, Oct. 28—Definite plans have been formed for a Dominion-wide collection amongst Liberals for the collection of \$125,000 for Hon. Ernest Lapointe, Minister of Justice, who will celebrate 25 years continuous service as a member of the House of Commons next February.

Hon. Philippe Paradis, former Liberal organizer in the Quebec district, has been appointed chairman of the drive. The committee in charge of the Ottawa district includes such outstanding Liberals as Hon. Charles Murphy, Hon. Andrew Haydon, and Hon. N. A. Belcourt.

It has been pointed out that Hon. Ernest Lapointe has made a sacrifice of his own career for devotion to his party.

Premier King has heartily commended the move and will be one of the contributors.

The \$125,000 will be collected this autumn and will be presented to Mr. Lapointe in the form of gilt-edged securities at a banquet in his honor in January.

FRENCH GOVT'S ATTITUDE ON REPARATIONS

(Special cable to THE DAILY MAIL by the British United Press.)

Paris, Oct. 29—France will insist on sufficient reparations from Germany to cover her war debts because "our experience warns us against undue sacrifices", according to Premier Raymond Poincare. Poincare outlined the government's attitude on reparations and religion at a meeting yesterday of 700 Normandy mayors at Caen.

In the egg laying contest at the Fredericton Experimental Station, led every Canadian province in egg production except British Columbia.
