A General Election in Old Country Unlikely This Year

But Premier Baldwin May Take the Plunge Immediately After the Budget is Brought Down Next Year — A Possibility That Something Unforeseen May Necessitate an Earlier Appeal.

(By Herbert Bailey, British United Press Staff Correspondent)

London, Jan. 25—Premier Baldwin's present intention is not to go to the country this year but immediately after the budget is brought down next year, British United Press learns from a member of the Prime Minister's entourage.

It is admitted, however, that something unforeseen might compel a change and necessitate an earlier election, but Mr. Baldwin believes that the country doesn't want an election now and that an appeal this year would prove unpopular.

FREDERICTON MEN SPOKE AT AMHERST MEET

Mr. A. E. Trites Again Heads the Maritime Stock Breeders Association.

Amherst, N. S., Jan. 24—A. E. Trites of Salisbury, N. B., was re-elected president of the Maritime Stock Breeders' Association at the annual meeting held here today while Fred L. Fuller, of Truro, was re-elected to the office of secretary-treasurer. Mr. Trites has been re-elected since 1914, when he succeeded Colonel Montgomery-Campbell, of Apohaqui, as president, while Mr. Fuller has occupied the one position since 1908.

In the afternoon session, Professor Trueman, of the N. S. Agricultural College, stated that an improvement of conditions in the livestock industry throughout the Maritimes were well indicated. Dr. Cumming's report upon the restricted areas stated that the people were well satisfied with the result of the tests, only 1.3 per cent of the animals proving to be reactors, although in the district surrounding Amherst several dairymen had sustained the loss of many animals.

C. F. Bailey, of Fredericton, Professor W. S. Blair, of Kentville, and Professor Waldo Walsh were among the speakers who made particular reference to livestock. Professor Walsh remarked that a strong trade in breeding swine had been developed as the result of the Maritime hog exhibit sent to Chicago in 1926.

Among the speakers at the morning session were Alex. MacLaurin, of Fredericton, who commented upon the Maritime hog shipment from the Two-in-One Exposition to the Royal Winter Fair at Toronto; Hon. Lewis Smith, minister of agriculture for New Brunswick, who extolled the past success of the Maritime Winter Fair; Harvey Mitchell, deputy minister of agriculture for New Brunswick, who spoke upon similar lines; W. W. Baird, of Nappan, and A. W. MacKenzie, agricultural representative in Cumberland, who both spoke upon the restricted area plan. A. G. Nixon, of Chatham, N. B.; Walter E. Shaw, Charlottetown; A. E. Trites, M. A. MacLeod, of Sussex, and W. A. Flemming, of Truro.

Condition Improved

(Moncton Press.) The latest news from Col. W. C. Good, who has been a patient in the Saint John General Hospital for the last three months, would indicate that there is an improvement in his condition, and that strong hopes are held out for his complete recovery.

COMMISSION PLEASSED WITH N. B. HEARING

Campbellton, N. B., Jan. 24—The final work of the Royal Fisheries Commission on their visit to Campbellton was completed at their private car late last night, shortly before they left for their next sitting at Bathurst, when they questioned J. E. Fournier, fisheries officer here, at some length on various phases of the fishing industry in the Bay Chaleur district.

At the conclusion of this interview, members of the Commission declared that the Campbellton hearing has been a most successful one and complimented those in charge of arrangements on the thoroughness with which preparations had been carried out. They also stated that all witnesses appearing before them here had given their evidence in a most courteous and intelligent way. Incidentally, they complimented Mr. Fournier himself on his efficient work in this district.

WILL HAYS MAY SOON QUIT AS THE CZAR

Hollywood, Jan. 25—Will H. Hays, czar of the movies, may cast aside his crown and re-enter his former field, politics.

The report in support of such happening said that a number of producers, members of the Hays organization, assumed a defiant attitude and disregarded the wishes of Hays in many instances. The indications were that Hays would call for a showdown on the part of the producers. If they live up to agreements he will continue in the movie field. But if he does not receive the co-operation he desires, the report says he will quit to pay attention to the next Republican presidential campaign.

Hays has five years left under his contract at \$100,000 a year salary and licence.

Operation Successful.

Mr. and Mrs. W. E. Vaughan of Charlotte street received a message this morning that Mrs. C. J. Vaughan, mother of the former had rallied successfully from an operation performed on her on Monday at Hantsport, N. S. where the elderly lady is visiting relatives having been there for the past some time. The message stated that the operation had been very successful and the patient was on her way to recovery. Mrs. Vaughan had been visiting her relatives in this city for the past several years and while here made many friends who will be glad to learn of her progress.

HON. MR. BENNETT WAS BANQUETTED AT THE CAPITAL

New Conservative Leader Says History of His Party is the History of Canada.

Ottawa, Jan. 24—"Canada's great position is not attributable to any foresight or prescience or vision of those who now govern," declared Hon. R. B. Bennett, Conservative chieftain, here tonight, at the first political banquet he has attended since assuming the reins of leadership. The occasion was a banquet tendered in his honor by the Liberal Conservative Association, of Ottawa, attended by Conservatives from all parts of the Dominion.

"The history of the Conservatives was the history of Canada, and it was the national policy inaugurated by the party which had brought prosperity to Canada. The great position which this country now occupies," said Mr. Bennett, "arises from the foundations laid by, and the vision of those men who, long years before, laid those foundations in toil, with faith and hope in the morrow."

Projects Favored.

Development of natural resources for the benefit of Canadians, protection of our water powers, an adequate immigration policy, and the development of trade were advocated by Mr. Bennett. He did not propose to announce any party policies "that may be within my mind," the Conservative leader declared in his reference to the Winnipeg Conservative convention. "It is true," said Mr. Bennett, "that at Winnipeg we laid down certain policies and resolutions to determine what should be the general course and attitude of our party; but the shaping and moulding of our policies must be matters in which consultation must take place between the leader of the party and his lieutenants in caucus, in small groups and otherwise, in order that the attitude of mind of every section of this country may be determined."

Western Population.

Mr. Bennett stated that the census figures for the three prairie provinces for 1921 as compared with 1926, presented "one of the most striking indictments against the policies of the country." Despite the fact that hundreds of thousands of people had poured into these provinces, he continued, we had not, after five years, shown an increase in population that is equal to the natural increase by birth.

"Where have the people gone?" questioned Mr. Bennett. "We have met them at the front door and welcomed them, and we have passed them out of the back door to the great republic to the south. Unless we are able to deal with this problem adequately and properly we cannot maintain our present position. It is a problem that calls for your consideration and mine; we must increase the settlement of this country."

OPERA SINGER BOWS TO RADIO

New York, Jan. 25—Another of the country's artists has succumbed to the call of the radio and this week Mme. Aemilia Galli-Curci, one of the last of the operatic stars to give her consent to enter the radio field, will make her microphone debut Friday evening in the their Victor program. She will share the hour with Pablo Casals, noted cellist.

BIG BILL SCORES CHANGES IN THE CALENDAR

Says It is Part of England's Whole Diabolical Plot.

GIVES VIEWS IN TELEGRAM

Thinks That Loyal Americans Will Wake to Danger Some Day.

Chicago, Jan. 25—Efforts to change the calendar into equal months of 28 days were denounced by Mayor William Hale Thompson as part of "England's whole diabolical plot" to make the United States a "subject of King George."

The mayor's views on the plan were contained in a telegram to a Minneapolis journal in reply to a request for his stand.

The telegram follows: "To the Mayor: Moses Cotsworth, English-born British citizen, here on world tour, advocates changing the calendar to equal months of 28 days each, eliminating fourth of July, Flag Day, Columbus Day, Memorial Day and all other American holidays now appearing on our calendar. Suggestion means complete recasting of year. The present long established holidays would cease to exist. Has English backing, also financed by group headed by George Eastman. As leader America First movement, can you make statement for us as to your opinion of this Englishman's plan?"

From the Mayor: "Answering your wire. Some day the loyal American people who would preserve our priceless heritage will awaken to the fact that there is in this country a well-organized effort to make this nation a colony of Great Britain again, haul down Old Glory and put in her place the Union Jack. Your statement about Moses Cotsworth recommending the abolishing of American holidays is in line with perverted histories calling George Washington a rebel and traitor and belittling our famous American heroes in the nation's public schools which I have stopped in Chicago. It is to me a part of the whole diabolical plot. It is my hope that our people will understand their danger before it is too late and to that end I am trying to do my part."

Egg Laying Contest.

A change in the weather was responsible for a slight falling off in egg production in the egg laying contest at the Experimental Station last week. The pen of John Woods led with 42.5 points scored from 38 eggs. The pen of Hayfield Bros. scored 41.2 points from 43 eggs and took second place. W. A. Sansom's pen produced 36 eggs and scored 40.8 points. The pen of Mrs. Edward Hart leads the contest with 44.3 eggs and 420.7 points. The egg production of the twenty pens last week totalled 578 eggs.

Died Last Night.

Mrs. Nason, widow of Capt. T. H. Nason of Saint John, passed away last night at the home of her son-in-law Sheriff J. B. Hawthorne, Brunswick street last night after a month's illness. She had reached the advanced age of eighty-five years. The deceased was a native of Saint John, but had resided here for the last six years. The funeral will be held at 2.30 o'clock tomorrow afternoon with services by Rev. F. H. Holmes, assisted by Major Hiscock of the Salvation Army. Interment will be made in the Rural Cemetery.

Elected a Director.

At a meeting of the shareholders of Moirs, Limited, at Halifax on Tuesday Mr. Archibald Fraser of this city, head of the Fraser Companies, Limited was elected a director.

Canadian Farmers Shocked at Extent of Unemployment in G. B.

Hon. George Langley, One of the Party, Discusses the Matter With the British United Press — Says the Old Country Saddens Him — Found Over a Million People Unemployed.

(By Herbert Bailey, British United Press Staff Correspondent)

London, Jan. 25—The Canadian farmers now touring Great Britain are shocked at the extensive unemployment throughout the country. "This country saddens me," Hon. George Langley, one of the party, declared to British United Press today.

"Over a million unemployed," he went on, "yet it seems impossible for Britain to send out of that number the men we want to assist us in the agricultural development of the Dominion of Canada."

Other members of the party expressed views similar to those of Mr. Langley. The visiting Canadian farmers are greatly enjoying their sojourn in the Old Country, and are being hospitably entertained.

HAS DEPOSIT BOXES IN SEVEN COUNTRIES

Using a fruit stand as a free lunch counter recently revealed the existence of an international itinerant capitalist who trusts neither banks nor governments. He carries keys to safety deposit boxes in Paris, Berlin, London, New York, Liverpool, Bilbao and Brussels and also \$6,000 in cash in many different countries.

He is Jean Vallianos, born in Corfu but speaking many languages and with a passport that showed much travel.

He wouldn't tell the police why he took three pears from a grocery sidewalk stand but he did say he kept his funds in a variety of currencies so as to take small chances on losing it all. In the safety deposit boxes of the seven countries, he said, he keeps the remainder of his fortune.

A TRUE BILL RETURNED IN ARSON CASE

Newcastle, N. B., Jan. 24—The County Court opened this morning with Judge McLatchey presiding. A true bill was found in the case of W. Steward, charged with setting fire and burning the buildings of the W. S. Loggie and Co., in Tabusintac, in 1926. Four witnesses were heard and it is expected the case will be concluded tomorrow morning. P. J. Hughes and John A. Barry represented Steward, and A. A. Davidson, appeared for the Crown.

The trial of Goodfellow vs. the King, a case coming up under the Illegitimate Children's Act, is postponed until the second week in April. John A. Creaghman appeared for Goodfellow and R. T. D. Aiken for the Crown.

BRITAIN IS AGAIN SWEEPED BY A STORM

London, Jan. 24—Scarcely recovered from floods that followed holiday bad weather, the British Isles were again swept by fierce gales today. Heavy rain, squalls and a sudden drop in temperature with snowstorms in Scotland gave many places the wildest weather so far this winter. The wind at times approached 70 miles velocity and reports tonight indicate that considerable damage had been done by sudden squalls.

One man was killed and a great deal of damage done by a windstorm which struck London in the afternoon and lasted only ten minutes.

A huge landslide blocked the railroad line between Harlech and Llanbedd in Merionethshire, Wales. Another landslide near Crosskey's in Monmouthshire, where part of a mountain slide collapsed, encroached on the railway there.

More rain is predicted and there are fears of renewed inundations.

When prizefighters shake hands in the ring it isn't because they belong to the same lodge. As a matter of fact there is no reason whatever why they should shake hands.

M. D. Duke of of Toronto is in the city today.

Mr. O. R. Sutton of Moncton is in the city today on business.

SUCCESS IS A MERE CHANCE SAYS SCHWAB

Philadelphia, Jan. 25—Charles M. Schwab, steel magnate and one of the outstanding industrial leaders of the country cannot be accused of having an over-sized cranium. For, despite his success and power he lays no claim to having achieved the heights because of his own exceptional brilliance.

Of course others know that the credit is due Schwab because of his exceptional ability. But the steel magnate expressed his own feelings in the matter recently, when he was awarded an honorary degree of doctor of science.

Schwab said: "I feel embarrassed and ridiculous when these honors come to me. I am not a believer in the superman theory. The question of success and recognition by the world might come to a man. It is largely a proposition of chance and opportunity."

Young Lady Improved

Miss Kathleen McKenna employee on the staff of a local dry goods store who was stricken ill two weeks ago while at work and who has been confined to her home on Brunswick street for the past two weeks is much improved today and although unable to be about her duties again as yet the young lady expects to be able to resume them in a short time.
