

# CAPITAL BOXER WINS AT ST. JOHN

Charlie Bolden Puts K. O. on Young Delaney — Porter McIntyre Won Decision Over Donovan in Main Bout

St. John, June 13—Porter McIntyre, colored star, defeated Louis Donovan in a slashing 10 round bout at the Pythian Castle on Tuesday evening. The fight was the feature of a boxing program witnessed by about 500 fans. The colored fighter amazed the fans by his cleverness, piling up points with a lightning left and landing heavily to the head and body with his right. He had a clean margin in almost every round. Donovan fought gamely all the way and came back strong in the closing round to slug toe to toe with his opponent in the centre of the ring. He landed several swings in a wild rally but was too weakened to turn defeat into victory with his stand. He got a good hand or his game display.

The crowd got a surprise when the weights were announced. McIntyre weighed in at 129½ pounds and Donovan at 132.

Blondie Bolden, clever Fredericton boy, kayoed Young Delaney in the fifth round of the semi-final. Delaney had quite a lead on points when Bolden started to use his long left to hold Delaney of while he crossed the right to the chin. These tactics proved successful and Blondie rocked his man to sleep.

Beth McLeod handled the last three bouts.

# CORREGE WON FRENCH DERBY

Chantilly, France, June 10—Le Corregé, owned by Count De Rivaud today won the Prix Du Jockey Club commonly known as the French Derby, running through a heavy downpour to lead a field of the best three year olds in France.

Martinez Dehoz' Ivanhoe finished second and Ogden Mills' Kantar third. On an objection, Ivanhoe was set back to third place by the judges. The race was worth half a million francs. The betting on the winner was as 12 to 1, on Ivanhoe 6 to 1 and on Kantar 7 to 4.

Although the rain hampered the running to some degree it was regarded as a truly run race and indefinitely established Le Corregé as the best of France's three year olds.

The effect of the downpour on the crowds was marked more than on the horses. The event is generally the occasion or fone of the most brilliant fashion displays of the season but today the finery was obscured by rain togs and umbrellas.

The traditional tall gray hats and morning coats of the men and the chic costumes of the women alike were drenched. The mannequins who usually turn out to vie with royalty in displaying the newest styles were few in number, while the dripping finery of the few who braved the rain unprotected merely burlesqued the event as a fashion show. Even the success of the popular colors of Count Rivaud failed to inject much enthusiasm in the dripping crowd.

# WOMAN CALLS FLYING EASIER THAN DRIVING

Stockholm, June 12—It is easier to fly an airplane than to steer an automobile, asserts Mrs. Maggie Florman, Sweden's only woman flyer, who received her pilot's certificate at the Civilian Flying School in Stockholm. Ever since she took her first airplane ride with a military machine at the Swedish Army Flying School at Malmstaett, in 1914, Mrs. Florman has been anxious to win her international flying certificate. She has accompanied her husband, a flyer and a captain in the army, on numerous air trips, one extending to the Balkans.

# IMPERIALS LOSE TO MARTELOS OF ST. JOHN IN EXHIBITION FEATURE

Capital Crew Only Obtain One Hit Off Watters, Martello Hurler — An Error in the Out-field Allowed Jacobson to Score Only Tally in Ninth.

St. John, June 13—Making their first appearance of the season, the Martellos downed the speedy Fredericton Imperials on the West Improvement League diamond by a score of 7 to 1.

The Imperials were unable to secure a hit off Watters and did not score off him until the last inning. In this inning, Wheeler, the first batter, walked; Jacobson, running for Wheeler stole second; O. Keene flied to Boyne, Jacobson going to third on Donovan's infield out, second to first; Potter lost Currie's fly allowing Jacobson to score depriving Watters of a no-run, no-hit game.

The locals collected sixteen hits off Wheeler. A large crowd witnessed the contest.

Weather permitting the Martellos will meet the C. N. R. team of Moncton on Thursday evening on the West End Improvement League grounds.

# A U.N.B. GRAD PASSES AWAY AT ST. STEPHEN

St. Stephen, June 12—The death took place suddenly here last evening of Frederick B. Hill, lawyer, of this town. Mr. Hill was born at St. Stephen 49 years ago, son of the late Mr. and Mrs. Henry E. Hill. He went through High School, graduating with honors. Afterwards he attended the U. N. B., where he got his B. A.; later he attended Harvard, where he also secured a B.A., after that he studied law at Michigan University. He then returned home and opened an office.

About 17 years ago he went West and practised in Golden, Revelstoke, and Vancouver. Failing health forced him to give up his practice in the West, and he came east as far as Montreal, where he underwent an operation, later returning here, where he started to practice. His health would not permit him to continue.

He leaves two sisters, Mrs. Jacob DeWitt and Kathleen, of Montreal, and three brothers, LeRoy and Evans, of Hill Bros., and Ernst, all of this town. The funeral will be held Tuesday afternoon at 3 o'clock.

# CURRENTADE

One quart currants, 1 pint raspberries, 1 quart sugar, 1 quart water. Crush the currants and the raspberries. Add one quart of sugar syrup made by dissolving the sugar in the water. Strain the mixture through a fine sieve and chill. Serve in small glasses.

# Around the Big League Circuit

American League—  
New York, June 12—A home run garrage which included Babe Ruths twenty-third and Lou Gehrig's fourteenth and fifteenth circuit blows enabled the Yankees to win as they pleased from the White Sox at Chicago today.

Philadelphia	4 5 1

Batteries—Kremer and Smith; Miller, McGraw, Willoughby and Lorian.

# PICTURES OF HOLIDAYLAND

(From the London Morning Post)  
With warmer days I feel a kind Of longing to be free again, Thoughts of sweet rest intrigue my mind;  
I want to see the sea again. To hill or vale I fain would fly Or seek some new locality Where fish as big as any lie Are truly a reality.

We're all the same when spring comes round ;  
It doubtless is some germ in us And now my chief delight is found In pictures at the terminus.  
There's Sunny This or Breezy That And Bracing Somewhere Else for us I have the various virtues pat Which every poster tells for us.

How I should love to sally forth Responsive to the call of them. Yes, east and west and south and north,  
And sample each and all of them. And finding that of which I'm fain The place to spend a jolly day I'd settle down and start again To have my proper holiday.  
—TOUCHSTONE

# NURSERY RHYME

Little Miss Muffet  
Decided to rough it,  
So went to a camp up in Maine.  
But when she'd partaken Of canned beans and bacon For a month she said "Never Again!"

"Do you know what Pegasus is Willie?"  
"Yes tetcher. Pegasus is an insect."  
Teacher—An insect!  
Willie—Yes, it's a horsefly.

# LA PRESS HAS GOOD WORD FOR HON. MR. BAXTER

(Saint John Journal)

La Presse recently carried on its front page an article in the French language contributed and signed by Hon. J. B. M. Baxter. This article sets out the needs and hopes of New Brunswick, and it mentions the past year as one of remarkable progress. A point that has apparently fired the responsively cordial imagination of those of the French race is contained in the following: "Many of our problems are the same as those which confronted Quebec in the past and confront her again today. It is only fair to say that we appreciate the business ability and sound judgment of which that province has given proof and on many points we are happy to follow her example."

On this article Le Presse comments editorially, drawing particular attention to the note of enthusiasm which prevades, not alone that under review, but similar special articles contributed by other provincial premiers. Mr. Baxter is displayed as a far-sighted enthusiast. The favorable effect of the Duncan recommendations is noted in the form of revived activity. "Intensive and more suitable agriculture, livestock improvement, progress in dairying, colonization, mine development, utilization of water power and forest wealth, construction of good roads for the benefit of residents and visitors, such is the living picture presented by the province of which Mr. Baxter guides the destinies."

Thereafter La Presse reminds its readers of the blood-tie which exists between Quebec and a considerable proportion of the population of "les Maritimes." It exhorts those readers to maintain the spirit of enthusiasm and concludes: "Right (Noble) emulation between the different provinces cannot but rebound to their individual advantage and simultaneously to be profit of Canada as a whole."

The whole treatment of the subject by La Presse is a striking example of good Canadianism of the kind which helps to knit the provinces of the Dominion in sympathy and mutual understanding by emphasis of similarities and of common problems and hopes. It is also a distinct tribute to Mr. Baxter.

# ANTIQUE JUST MATCHED THE OLD ONE

Provincetown, Mass., June 12—One young woman patron of a rummage sale here returned home in great glee. "Wait and see what I found," she exclaimed to her mother as she unwrapped a package "Just what we have been looking for in the antique shops for years. It's a mate to the candlestick you never could match. There! Isn't that a perfect match?" "It is, indeed," mother agreed with a whimsical smile. "In fact it is the same candlestick. I sent it to the sale to get rid of it."
