## PREMIER BAXTER DISCUSSES HYDRO DEVELOPMENT BEFORE THE BOSTON CANADIAN CLUB

Boston, Nov. 1.—Defending the policy of his administration in supporting private development of water power resources and refusing to discuss the liquor issue, Premier John B. M. Baxter of New Brunswick was the main speaker at a largely attended meeting of the Canadian Club, which followed a banquet in the Hotel Brunswick tonight. James H. Morson, president of the club, was master of ceremonies, and there was a program of vocal and instrumental music. Pre-

PREMIER BAXTER

mier Baxter was enthusiastically received and during the day held several informal receptions at the Hotel Bellevue.

The distinguished guest created considerable amusement when he carefully avoided a positive statement relative to prohibition. "Through under my administration," he stated, "New Brunswick has conformed to the general trend in Canada and reverted from prohibition to state control of the liquor traffic, I feel that a policy of silence on the question is preferable at this time, lest my remarks might be

injected into the political campaign in the United States. I can give you nothing stronger than water."

"I was elected," he continued, "on the issue of private ownership against public ownership."

"The International Paper Company owned the Grand Falls on the Saint John River. Having acquired it from the government many years previous in the form of a lease with the option of purchase which the company had exercised. The company had paid the provincial government \$60,000 and my predecessor wanted to buy the title back for \$1,200,000 and spend \$10,000,000 on developing power. Under the contract, the government could have done this. I felt that it was better to compel development by the private owners because, in my opinion, public ownership never demonstrates the same initiative as private ownership. As a result of my policy, power was turned on at Grand Falls Oct. 1. It will supply the existing pulp mills at Edmundston, also an existing pulp mill at Dalhousie, a 250-ton mill which will be developed into 500 tons, as well as other works to be constructed by the company. These projects will use all the available constant power."

"In addition, we will get a sulphite mill near Campbellton, and the International Paper Company is also going to build on the Miramichi. Another company is planning to reconstruct a sulphite mill on the same river and to build a new one. Industry in the whole northern part of the province is being vitalized. Employment will be given to thousands without the burden of even one dollar of debt on the province."

"The program of my opponent was to supply electric power to householders. But there are vast spaces to be traversed. This will be reached in time. It seems to me, however, that it is better to put money in the pockets of the people with which to buy electric lighting than for the province to attempt to supply them with cheap power."

## SEIZURE OF CAR AND 80 GALLONS ALCOHOL MADE

(Continued From Page Eight.)

had escaped into the woods.

The particular party has been under inspection of the police for some time and the seizure yesterday was the result of a considerable period of investigation and watching the manoeuvres of the two dealers in illegal transportation of alcohol. The officials are keeping a sharp lookout for the two men in question.

## THE WORLD TO BE OVERCROWDED IN 200 YEARS

London, Nov. 2.—The time when the world will become so overcrowded that all its resources will be exhausted and it will be impossible to live is visioned by Sir George Handley Knibbs, professor of physics at the University of Sydney and chief statistician of the Australian Commonwealth. In his book "The Shadow of the World's Future."

Sir George writes that it probably will be 200 years before such a time arrives. He said there was little doubt but that man's diet would become more vegetarian as the population of the world increases. Fish and sea products generally will be drawn upon much more heavily in the future, he believes.

## DOCTOR UNDER SENTENCE DIES

Quebec, Nov. 1.—Dr. J. A. Riberdy, of La Tuque, who was recently sentenced to seven years in jail, and was later released on bail of \$40,000 pending an appeal, died suddenly in the St. Sacrament Hospital yesterday.

Dr. Riberdy was taken ill a couple of weeks ago, immediately after he had been found guilty of the crime and Dr. Emile Fortier, his attending physician, declared that death was due to a cerebral hemorrhage.

The mental slant of youth certainly is peculiar. Just recently we heard a sixteen-year-old boy refer to a lady as "an old woman of 35."

Only teas grown 4,000 to 7,000 feet above sea level are used in "SALADA" Orange Pekoe Blend—the flavour is therefore richer, more fragrant and much more delicious than other teas. Only 43c per ½-lb.—Buy it at any grocery store.

## A MURDERER SUICIDES IN MAINE JAIL

Augusta, Me., Nov. 1.—Patrick Smythe, 64, Spanish War veteran, bound over to await the action of the Grand Jury of the United States District Court at Portland on a charge of murder, committed suicide in the Kennebec county jail today.

While the prisoners were being allowed the freedom of the corridors for exercise, Smythe ascended the third tier in the jail and threw himself to the basement 30 feet below striking on his head and neck. He fractured his skull.

Last Saturday, Smythe, who is believed to have been insane, ran amuck with a loaded revolver in barracks at the National Soldiers' Home at Togus. He shot and killed John H. Wilson, a Spanish War veteran and wounded two other inmates of the home.

## MORMON COLONY RAISES WOOL ON ISLAND RANCH

Dutch Harbor, Alaska, Nov. 2.—Mormon invasion of Alaska is a decided and growing fact, asserted William Benton, of Salt Lake City, here after an inspection of the Aleutian Island sheep ranches established six years ago by his church. Besides wool and mutton, the Mormon colonists see agricultural possibilities in other sections of Alaska, he says. The colony on Umanak Island just shipped to Seattle 130,000 pounds of wool from 13,000 sheep.

### Potatoes are Cheap

Potatoes are now being delivered at the cars at Keswick Station for the low price of forty-five cents a barrel. There does not appear to be any immediate prospect of an advance in the price. A Montreal concern is now advertising its annual sale of P. E. I. potatoes. It claims to have 100,000 bags on hand to be sold at \$1.05 per bag.

## SPUD MARKET REMAINS DULL

Hartland, Nov. 1.—The potato market continues dull and dragging with digging completed and offerings continuing fairly heavy. Many potatoes were more or less chilled by frost the last few nights. Today Green Mountains were bringing 60 cents and the Irish Cobbler variety 50 cents per barrel of 165 pounds.

\*\*\*\*\*  
SPECIAL ATTRACTION  
AT GAIETY THEATRE  
\*\*\*\*\*

"Waterfront" is the photo play at the Gaiety for Friday and Saturday featuring Dorothy Mackaill. This one starts out almost identically with one Clara Bow was in a few weeks back. But it offsets the suggestion of sameness by some passages that are pretty funny, thanks to Dorothy Mackaill. Miss Mackaill is getting quite adept at the sort of ingenue clowning that Marion Davies does so well. Ben Hendricks Jr., as "Oilcan" Olson, whose arms and head are equally thick, adds to the merriment and Knute Erickson, as Capt. Seastrom, looks the part. A short comedy is also on the bill.

### Died at Edmundston.

The death occurred at Edmundston on November 1st at the home of Mr. and Mrs. Ralph MacDonald, of Rita Pearle Hawkins, aged 10 years. Deceased was the daughter of William E. Hawkins of Nashwaak's and had been residing in Edmundston for some time. Besides her father she is survived by two sisters, Verna and Thelma and two brothers, Edwin and Clifford. The remains arrived in this city last night by C. P. R. The funeral will take place on Saturday afternoon at one o'clock from the late home and service will be conducted by Rev. H. Burns. The remains will then be taken to Smith's Corner where service will be held in the United Church, conducted by Rev. B. W. Turner. Interment will be made in the adjoining churchyard.

## CONVENIENCE OUTLETS ARE COMFORT INLETS

Every new electric wall outlet means additional comfort and convenience in your home—for the rest of your life. Make it easy to plug in your chosen lamp by your favorite armchair. Have an outlet for every 15 feet of wall space, so you can reach every corner with your vacuum cleaner or space heater.
