

## Dissention May Split The Conservative Ranks

**Old Country Tories Divide on Protection For Iron  
and Steel Trades—Amery May Resign to  
Lead 200 Members Against Premier Baldwin  
—Churchill Says Electorate Want Free Trade**

(By HERBERT BAILEY, British United Press Staff Correspondent.)

London, July 26—Dissention in the Conserva-  
tive party and also in the cabinet over the ques-  
tion of extension of the policy of safeguarding,  
which is another name for protection, has reached  
an acute stage.

### Amery May Resign.

Today the Daily Sketch actually says that  
there are rumors that Rt. Hon. I. C. M. S. Amery,  
who is a protagonist for the fullest protection,  
may resign in order to lead the 200 revolting Tory  
members who want the iron and steel industry  
safeguarded in spite of Premier Baldwin's em-  
phatic refusal to do anything of the kind.

### Electorate Want Free Trade.

There is a possibility that the Secretary of  
State for Dominion Affairs may lead this group  
against the Churchill party who argue that the  
electorate very clearly told Mr. Baldwin in the  
election which put Labor into power, that they  
don't want a protectionist policy and that at heart  
they are still free traders.

## AUSTRALIA WILLING TO COOPERATE

**Premier Bruce Says Au-  
stralia Will Take Brit-  
ish Emigrants to Ful-  
lest Extent of Ability  
to Absorb Them.**

(Special cable to THE DAILY MAIL by  
the British United Press.)

Sydney, New South Wales, July 26  
—In a noteworthy speech today be-  
fore the Sydney Chamber of Com-  
merce, Prime Minister Bruce said  
that Australia's greatest desire was  
an ever increasing inflow of British  
people, but that the flow must be  
conditioned by the country's power  
for economic absorption.

"We are not prepared to undermine  
our standard of national health by  
lowering the standard of physical  
fitness we require for immigrants.

"Britain's difficulties today are  
largely due to her failure to recog-  
nize in the past a permanent solu-  
tion of her great problem of surplus  
population could only be achieved  
through the development of the  
great potential resources of the  
Dominions and evolving a great  
scheme of empire cooperation."

nected with the syndicate were said  
to be known and would be presented  
to the federal grand jury for indict-

## LARGE FIRE IN ST. JOHN

St. John, N. B., July 26—A spec-  
tacular fire, which attracted thou-  
sands of citizens from all parts of  
the city, completely destroyed the  
fisheries plant of H. P. Robertson  
& Sons, Britain street, Wednesday  
evening. The blaze a two alarm fire  
started about 10.30 o'clock and the  
flames shooting wildly into the  
heavens, lighted the sky for a con-  
siderable distance. Automobiles  
packed into Britain street, near the  
scene, and the nearby vicinity was  
a veritable parking place, as hun-  
dreds of cars carried many excite-  
ment seeking persons to the locality.  
From afar-off also the blaze at-  
tracted attention, as it could be  
seen for miles around. Tourists  
coming into the city thought it a  
huge bon-fire and it suggested to

larger proportions was under way.

timist—once.

ser-Coli plane, lost last year, the  
fragment has been sent to Paris  
for identification.

The wreckage was found by Dr.  
Frode, a Danish physician. There

into a deep depression on the sandy  
bottom and went under. Indications  
were that he had died of shock and  
suffocation, there being little water  
in his lungs when brought to shore  
by three men who were swimming  
nearby.
