THE LATE J. F. VANBUSKIRK

Fredericton has lost a good citizen and a shrewd and capable business man in the death of Mr. James Frank VanBuskirk who passed away this morning after a lingering illness. The late Mr. VanBuskirk was descended from Loyalist stock, one of his paternal ancestors, an officer in a loyal American regiment being a member of the party which made their way up the St. John River to what is now this city, in the fall of 1783. They spent the first winter in tents at Salamanca and many members of the expedition perished from cold and hunger. Mr. VanBuskirk was born at Lower Jemseg, Queens County, but the best years of his life was spent in this city. He started on a small scale as a dealer in agricultural implements forty years ago and by hard work succeeded in building up one of the largest businesses of its kind in the province. As a salesman, when in his prime Mr. VanBuskirk had few equals and no superiors in the province. His circle of acquaintances was a large one and he was held in great esteem. While sharp and sometimes exacting when it came to matters of business he was blessed with a big heart and had many kindly acts to his credit. The late Mr. VanBuskirk is a man who is going to be greatly missed in the community. The heartfelt sympathy of all will go out to the members of the family in their bereavement.

## GIVING TOO MUCH

John D. Rockefeller Jr. would do away, in general with the philanthropic idea as it applies to direct endowment of colleges. The younger Mr. Rockefeller thinks students are being given too much, that their cushions of advantage are too soft. He wants them to work, or to borrow money, to pay for college courses. He would have them develop self confidence and habits of industry. Putting it in sporting parlance he wants young men and young women to bet on themselves.

Facilities of universities which bid for patronage a few years ago are overtaxed now. Mr. Rockefeller says too many of the multitudes of students attend to fit themselves to earn money, for a good time or social considerations and that service is no longer the chief consideration.

It may not assay one hundred per cent but there is much truth in what Mr. Rockefeller says and some educators and many successful men in other lines are inclined to agree with him.

Fredericton has a very distinguished visitor today in the person of His Excellency Viscount Willingdon Governor General of Canada. His Excellency made an official visit to the province last year and the fact that he is back again indicates that he was favorably impressed with province and its people. His visit this time is of an unofficial character, which in other words means that he is taking a holiday. His Excellency who is an enthusiastic sportsman will try his hand at black duck and woodcock shooting in Sunbury and Queens counties, before proceeding to Prince Edward Island and Nova Scotia.

Senator Dessaulles of St. Hyacinthe, P. Q., the oldest member of the Senate of Canada, entered upon his 101st year on September 29th. It looks as if the record held by Fredericton for senatorial longevity was in danger of being broken. The late Hon. David Wark who was called to the Senate in 1867 passed away in this city some years ago after having almost reached his 102nd milestone.

Mr. John F. Mahoney, of Halifax was one of the few members of the Nova Scotia Legislature to come out flat footed in favor of Government Control of the liquor traffic and Halifax returned him as the head of the poll.

Although Premier Rhodes suffered heavy losses in the Nova Scotia elections he has the distinction of being the first Conservative Premier in that province to be returned for a second term.

The political campaign which ended in Nova Scotia on Monday was one of the most spectacular in years and strange to say both parties are apparently satisfied with the results.

We guess about the only virtue of dogs on long Polar trips is that they never go into tall spins or anything.

If Al goes big with the farmers, perhaps "The Old Homestead" could be revived with the quartet singing the Sidewalks song.

Some men we know talk loudly to camouflage their inferiority complex.

An unprecedented cold wave seems on the way: The mercury at Phoenix Monday dropped to 92.

## STILL HOPE TO SETTLE STRIKE IN AUSTRALIA

(Continued From Page One.) the disputes as embrace other unions, after due consultation with the unions concerned.

Today six hundred strikers marched in a procession through the streets of Melbourne accompanied by police reserves, but there was no demonstration. Later the police of that city raided the offices of the communist party and seized a number of documents and "Red" literature.

So far nearly \$5,000,000 worth of wool has been held up at Port Adelaide though the volunteer workers are said to be progressing satisfactorily.

Plans were made for the year's work and the following officers were elected: President, Mrs. P. C. Holden; First vice-president, Mrs. H. G. Chestnut; Second vice-president, Mrs. D. J. ## Weather Fine

Fredericton is enjoying a spell of real fine weather at the present time which reminds one more of former fine September months. There is a possibility that October may be a late edition of September. Last month was not up to former years and was decidedly cold and dreary in the closing few days.

## STATEMENT FROM RHODES COMING SOON

Halifax, Oct. 2.—With the provincial election already a matter of historical record, the political activity which settled over Nova Scotia today, followed the return to power of the Conservative Government, will probably be lifted tomorrow, when Premier E. N. Rhodes is expected to give out a statement relative to the course he will follow in re-organizing his somewhat depleted forces. The Government leader was confined to his bed today, suffering from a severe cold contracted during the latter days of a campaign that culminated in the return of his government with a majority of 37 reduced to three. He was able to make no announcement as to when his government would meet to re-organize, but expected to consider tomorrow the action to be taken.

One of the first tasks facing Mr. Rhodes will be the selection from his twenty-two followers of four men to fill the places of members of his executive council who lost their seats yesterday. Prominent among those who are being mentioned in political circles as likely candidates for government posts are John F. Mahoney, who led the polling in Halifax in 1926 and again yesterday, and A. McD. Morton, also of Halifax. Nothing official has yet been announced.

Under legislation passed during the Rhodes administration, it will be unnecessary for members appointed to the executive council to return to their constituencies for re-indorsement at the polls, as had hitherto been the case.
