

## Wants to Know the American Attitude on Disarmament

### Paris Newspaper Comments on a Statement Attributed to President Coolidge That Nothing Further Will Be Done Until the Washington Conference in 1931—Will the United States Curtail in the Meantime?

(Special to The Daily Mail by the British United Press.)

PARIS, Oct. 25—Commenting upon a statement attributed to President Coolidge that nothing further would be done on naval limitation until the Washington conference meets in 1931, the newspaper *Quotidien* asked today what the United States intended to do on its own naval program. "Preliminary reduction plans have been suggested" the editorial said, "but will President Coolidge insist upon them. Even if he does his successor may have different views regarding the remaining reductions therefor the 1931 conference and intervening discussions will have been made singularly difficult because the United States will have resumed the armaments race."

## DR. LANGINER WORKING ON SMALL CASE

### Expects a Sensational Announcement in Connection With the Case Before Long.

Toronto, Oct. 24—Visiting the Parliament Buildings today, Dr. Maxilian Langsner the Vienna criminologist, who is working on a solution of the Ambrose Small mystery had a lengthy conference with Alfred Cuddy, Acting Commissioner of the Ontario Provincial Police. Dr. Langsner was closeted with the Commissioner alone for more than an hour.

"I know who is the most guilty party in connection with the death of the late Ambrose Small" said Dr. Langsner in an interview with the *Toronto Star* today, "and I know that today that party is weakening. It is more than probable that in a short while a sensational announcement in connection with the case will emanate from another city. I expect that this announcement will be made before long."

The *Toronto Telegram* states that Dr. Langsner holds the theory which has been aired in Toronto ever since the disappearance of the theatrical magnate that Small is dead and that his body was buried in Rosedale Ravine at a point where rubbish was being dumped in the winter of 1919.

## TWO FOOTBALL GAMES HERE ON SATURDAY

Saturday will be an important day in local rugby circles. It will see the Fredericton High School team battling with the Rothesay Collegiate school in the game to decide whether the local Yellow and Black team will go into a tie with St. John for the leadership of the Interscholastic Rugby league or be eliminator and thus give undisputed possession of the title to the St. John high school squad. This game will start at three o'clock in the afternoon. The other game on the afternoon's program will be the City team's battle with the Woodstock team in the Provincial Rugby league. The city has already defeated the Woodstock fifteen at Woodstock and the odds favor the locals to cop Saturday's game also. If this occurs, as seems likely, Fredericton City will be eligible to meet the winners of the St. John-Moncton series for the championship of the province of New Brunswick.

### Late Mrs. J. J. Colter

The remains of the late Mrs. J. J. Colter, who died in Boston on Monday were interred in the Rural cemetery yesterday afternoon, following service at the Wilmot church at three o'clock. Rev. F. H. Holmes conducted the service and the Wilmot United choir rendered two beautiful hymns, favorites of the deceased. They were "Jesus, Lover of My Soul" and "Jerusalem the Golden". A large number witnessed the service, coming from the city and elsewhere to pay a last tribute to the deceased. The pall bearers were Thomas E. Griffith, John Webster, George Green, C. H. Burt, F. T. Pridham, and George W. Coy.

## LAW OF GRAVITY IS OVERCOME BY A SCIENTIST

### This is the Claim Made by R. T. Tate, an Englishman.

## SUSPENDED PIECE OF METAL

### Is Said to Have Made the Test in His Laboratory.

(Special cable to THE DAILY MAIL by the British United Press.)

London, Oct. 25—A dispatch to the *Daily Express* from West Hartlepool, said R. T. Tate, a young scientist claims that he had overcome the law of gravity. In a secret laboratory test he is said to have suspended a piece of metal in the air without attaching it to anything. He placed a plate of metal on the floor and above it put the piece of metal that remained suspended in the air.

The composition of the metal was unknown, but it looked like aluminum.

## CHAUTAQUA TO SHOW HERE THREE DAYS

### Entertainment Will be Under the Auspices of the City Fire Department.

Plans and methods of this year's Chautauqua campaign in preparation for the Three Joyous Days to be held here Nov. 3-6, were brought to a focus by the visit of Dr. J. A. Cottam, first advance agent of the Chautauqua who spent yesterday in Fredericton and met in conference with the committee in charge of the event and held special sessions with the local officers.

Dr. Cottam stated that the program this year was fully up to the high standards set by former offerings and assured the ticket committee that they could offer their wares in entire confidence that purchasers would later thank them for not only an enjoyable, but profitable three days.

The outstanding feature of this year's program, according to Dr. J. A. Cottam is the three act comedy-drama "Take My Advice" a dramatic success from the pen of Elliott Lester. This play he said, ran for a whole year on Broadway and was rated as one of the season's biggest hits because it is clean, funny and portrays situations familiar to practically everyone who sees it. Take my advice said Dr. J. A. Cottam and see "Take My Advice."

Besides this play by a competent cast, there will be lectures, music, entertainment and the special Junior Chautauqua features that have endeared this annual event to the hearts of the youngsters of so many communities.

Season tickets admitting to all programs are still available through the local Firemen's Association, which organization will enjoy the profits derived therefrom.

## Bishops Must Abandon The Policy of Defying Will of Parliament

### The London Morning Post So Interpretes the Decision of the London Diocesan Synod—The Proposals of the Bishop of London Were Rejected—Other Synods Likely to Follow Suit.

(Special to the Daily Mail by the British United Press.)

LONDON, Oct. 25—"A death blow to the Bishop's policy of attempting to defy Parliament by permitting the use of the revised and rejected prayer book."

This is how the *Morning Post* interprets yesterday's decision of the London Diocesan Synod to reject the Bishop of London's proposals. It had been suggested that he might be given discretion to use the new book, pending final settlement of the question, but the proposal was voted against.

It is emphasized that as London is the most important diocese in the Church of England, other synods will probably follow London's lead and the Bishops will be compelled to abandon their present policy.

On Saturday last they put into service a new Copper Toll Line connecting Minto and Chipman. With the additional Toll Line to Minto, and the New Copper Toll Line connecting Minto and Chipman, it will greatly improve the service between Fredericton, Minto and Chipman, and subscribers can now be assured of efficient and prompt connections between these places.

## MUSEUM GETS COPY OF TWAIN'S PILOT LICENSE

Iowa City, Iowa, Oct. 25—A photostatic copy of Mark Twain's original pilot's certificate has been presented to the museum of the State Historical Society of Iowa here by William J. Petersen, of Dubuque.

It shows that on April 9, 1859, Samuel Clemens, whose pen name was Mark Twain, and among whose works was "Life on the Mississippi," was found to be a "suitable and safe person to be intrusted with the duties of pilot of steamboats."

Petersen, a graduate assistant in history at the University of Iowa, discovered the original at St. Louis. Collecting material for his doctor's thesis on steamboating on the upper Mississippi during the palmy days of river packets, he has gathered documents which Professor Louis Pelzer, of the history department, affirms constitute the most extensive collection on this subject in existence.

During his researches Petersen traveled a total of 12,000 miles up and down the river and among his discoveries during the last year there was, besides the Twain license, a file of steamboat bills of lading for the years 1877 to 1908, which a Guttenbury, Iowa storekeeper had been about to destroy.
